Vancouver, city, southwestern British Columbia, Canada. It is the major urban centre of western Canada and the focus of one of the country's most populous metropolitan regions. Vancouver lies between Burrard Inlet (an arm of the Strait of Georgia) to the north and the Fraser River delta to the south, opposite Vancouver Island.

Its climate is marked by mild wet winters and moderately warm summers. Temperatures range from highs in the low 70s F (about 22 °C) in August to lows in the low 30s F (about 0.8 °C) in December.
