International Conference on

CLINICAL CASE REPORTS

April 04 -06, 2019 | Paris,France

https://casereports.healthconferences.org/

Invitation

Dear Collegues,

Conference Series LLC Ltd. is delighted to welcome you to Paris, France for Clinical Case Reports 2019.

Divulging clinical cases which pave way to redefine the healthcare.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Clinical Case Reports Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to see you in Paris,France this April

Sincerely,
Clinical Case Reports 2019
Organizing Committee

What is Clinical Case Reports ?

In the field of medical or clinical study, a case report covers the signs, symptoms, diagnosis, treatment and the further follow-ups. Case reports are sometimes associated with the demographic reports, but these are the real profiles of the medical happenings and involve the discovery of either new disease or new treatment. Case reports are very significant in medical education as they provide a structure for case-based learning and implementation of the cases in their profession. A case report majorly uncovers the solitary aspects of a medical or surgical case and provides clear clinical and educational significance in medicine given its rapid contributions to scientific literature and clinical practice. Other than its emphasis on random clinical trials, evidenced-based medicine, systemic reviews and meta-analyses, case reports provide a novel and exceptional knowledge in medical education. They are associated with providing the advanced scientific knowledge and also provide relevant study design in case or very rare diseases. International conference on Clinical Case Reports scheduled on JApril 04 -06,2019 at Paris, France

Who are Attending ?

The International Conference on Clinical Case Reports 2019 Paris, France offers a platform who are specialized in various fields like Primary care, oncology, clinical microbiology, surgery, drug interaction, cardiology, neurology and every other medical profession. Host City

Paris is the capital and the most populous city of France. It is Europe's major centre of finance, commerce, fashion, science, music, and painting. Paris is home to some of the world's landmark monuments, museums and galleries. Paris is a dream place to visit for the art and architecture lovers. One of the most breath-taking works of architecture; 'The Eiffel Tower' a speechless beauty. The Notre Dame, Place De La Concorde, Arc De Triomphe, The Louvre, Les Invalides are the most famous pieces of architecture are other tourist places to feast their eyes upon in this city.

In France, people love their food as much as they love their wine and it is of no surprise that you will be exposed to abundance of delicacies ranging from your basic crepes to the exotic Foie Gras. Undoubtedly it is one of the most fashionable cities in the world; some even go as far to give it the title of the "Fashion Capital of the world", Paris definitely has some style and more.

Vision & Plan

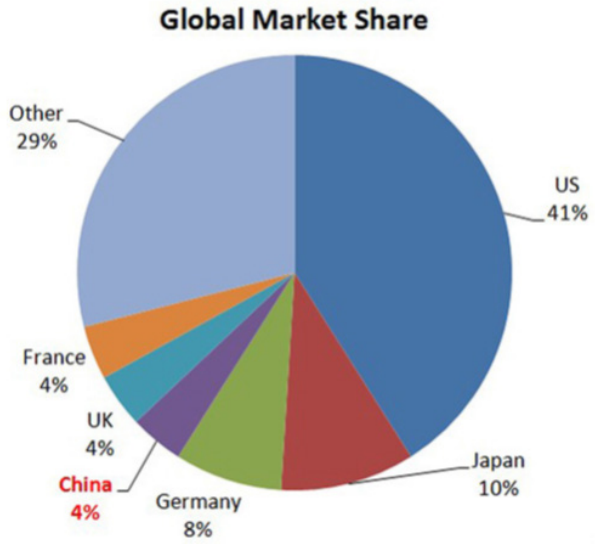

International Market Approach

The French market of clinical and medical devices is the second largest market in Europe and the fifth largest in market the world. In 2014, the French market was valued at US$14.5 billion, and growth is expected to be moderate, reaching US$16.5 billion by 2019.

The manufacturers in France control the majority of the domestic medical device industry, but the currently market is relying on the import from the markets across the world. Medical device imports accounted for about $3.8 billion in 2015, more than 50% of the overall market.

The medical device packaging market in Europe is expected to grow at a CAGR of more than 7% during the period 2018-2022.

There were approximately 1.8 million physicians working in the Europe. The overall numbers of physicians which are practising in Europe were recorded in the largest Europe Member States were: Germany (333 thousand), followed by Italy (236 thousand), France (206 thousand), the United Kingdom (181 thousand) and Spain (177 thousand). These five States all together accounts' for about two thirds, which is about 64 % of the total number of the physicians practising in the Europe, above their combined 63 % share of the EU's population.
