About Conference

3nd World Cosmetic and Dermatology Congress is going to be held during August 13-14, 2020. International Congress on Cosmetic & Dermatology is intended to provide insights on the emerging therapies and for various skin conditions thus the theme “Emerging Innovations in the Field of Dermatology and Cosmetic Skincare” has been chosen to foster the wide range of sub-specialties of dermatology. The webinar will explore the advances in dermatology and invites delegates and participants from across all continents. Cosmetic Dermatology establishments are creating the conference for an ideal platform to share expertise, collaborate across and to assess rising technologies across the world. This conference could be an exceptional event that brings along novel and international dermatologists from leading universities.
