Dental Materials 2018 Invitation

July 19-20 | Rome, Italy

Dear All,

We are extremely delighted to host the 23rd International Conference on Dentistry and Dental Materials.

Dentistry and Dental Materials Series, over years, has become a successful site for the Dental research, science & development and envisioning a greater and wider span for advancing the segment of this new science.

We invite your participation for this mega scientific event set to happen in Italy this year as we start to prepare the dais for a grand discussion with the theme "Exploring New Horizons in Dentistry".

Regards

Organizing Committee
Dental Materials 2018 Italy

The Dental Materials 2018 Italy conference calls for the newest and healthiest proposals for the Meet from researchers, industrial personnel and pioneering students.

This summit is designed to meet every nook and corner research topic related to the advancement in the research and development of Dentistry such as Dental Materials Research, Oral Health and Clinical Research in the field of Dentistry.

Organizing Committee

TRACK

Dental Therapy and Treatment | Oral Cancer | Dental Public Health

Ben F. Warner

The University of Texas Health Science Center at Houston
USA

Biography:

Dr. Ben Warner is Clinical Associate Professor in the Department of General Practice and Dental Public Health, where he serves as First Attending. Whether in the clinic or classroom, he strives to bring students to their highest level of competency. His research interests include new and improved methods for diagnosing oral lesions, clinical oral oncology, premalignancy, mucocutaneous diseases, xerostomia, laser dentistry, and environmentally friendly "green" approaches to wellness. He is recipient of several research awards including the George Finley III Foundation Skin Cancer Research Award, the M. G. and Lillie A. Johnson Cancer Treatment and Research Award, the Alando J. Ballantyne Head and Neck Surgery Award, and the Paul E. Strandjord Young Investigator Award. Dr. Warner is a Fellow of the Academy of General Dentistry, and active on several professional committees, journal editorial boards and charitable organizations.

TRACK

Restorative Dentistry | Periodontics | Prosthodontics

Joseph Greenberg

The University of Pennsylvania
USA

Biography:

Dr. Joseph R. Greenberg, DMD received his dental degree and post doctoral dual specialty training in Periodontics and Fixed Prosthodontics/Periodontal Prosthesis from the University of Pennsylvania School of Dental Medicine, where he taught for over 40 years and held the rank of Clinical Professor of Periodontics. Dr. Greenberg has been appointed Clinical Professor of Restorative Dentistry at The Kornberg School of Dentistry at Temple University, where he was Course Director of Advanced Restorative Dentistry for 8 years. He has served on editorial boards of professional and related health magazines, was a member of The Bryn Mawr Hospital dental staff, and has contributed over 21 original articles to the dental literature. In addition he has served as Team Dentist to the Philadelphia 76ers, and has maintained a private practice in suburban Philadelphia for over 35 years.

TRACK

Endodontics | Orthodontics | Dental Public Health

Jason Buschman

Southern Illinois University
USA

Biography:

Dr. Jason Buschman is a board certified Oral and Maxillofacial Surgeon licensed to practice in Illinois, Missouri, and Oklahoma. He has an outstanding CE course on Medical Emergencies in the Dental Office, and he is working on a digital study guide with life scenarios. Currently, he is the Professor of oral and maxillofacial surgery at SIUE school of dental medicine and CE director of new millennium CE. Expert witness, medical malpractice. He has completed his DDS at The University of Oklahoma college of dentistry.

TRACK

Impression Materials | Prosthetic Materials | Dental Laboratory Materials and Processes

George Freedman

Canadian Academy for Esthetic Dentistry
Canada

Biography:

Dr. George Freedman is a founder and past president of the American Academy of Cosmetic Dentistry and a founder of the Canadian Academy for Esthetic Dentistry. His most recent textbook, "Contemporary Esthetic Dentistry" is published by Elsevier and he is Visiting Professor, Universita di Firenze, Florence Italy. Dr Freedman was recently awarded the Irwin Smigel Prize in Aesthetic Dentistry presented by NYU College of Dentistry.

Organizing Committee

TRACK

Oral and Maxillofacial Surgery | Oral Health | Oral Medicine

Daniel G. Pompa

New York University
USA

Biography:

Dr. Daniel G. Pompa is an Oral and Maxillofacial Surgeon. In 1985 he established The Oral Surgery and Implant Center in Forest Hills, New York. After graduating from New York University College of Dentistry in 1978, Dr. Pompa completed a GPR at Long Island Jewish Hospital, followed by speciality training in Oral and Maxillofacial Surgery at Lincoln Hospital, New York Medical College. In 1982, he became a Fellow of The American Association of Oral and Maxillofacial Surgeons. He is also a Fellow in the International Congress of Oral Implantologists. Dan is also an inventor, having been issued a U.S. Patent for his innovative work in the field of Dental Implantology.

TRACK

Basic Science for Dental Materials | Restorative Materials | Endodontic Materials

Mathew Mathew

The University of Illinois at Chicago
USA

Biography:

Dr. Mathew is a faculty at Department of Biomedical Science, UIC School of Medicine at Rockford and leading Disability Research lab. He is holding adjunct position at Department of Bionegineering at UIC, Chicago and Department of Orthopedic Surgery, Rush University Medical Center, Chicago. His research is supported by the federal agencies (NIH and NSF) and research foundations. He is also Editor- in- chief of Journal of Bio and Tribo-corrosion by Springer. He was an instrumental for initiating an international research institute called "Institute of Biomaterials, Tribocorrosion, and Nanomedicine" (IBTN), which is a joint venture of University of Illinois (UIC) and UNESP, Brazil. Currently, he actively involved in the IBTN and the director of tribocorrosion division.

TRACK

Oral Pathology | Dental Hygiene | Dental Pharmacology

Shuying Yang

University of Pennsylvania
USA

Biography:

Dr. Yang completed his PhD in Microbiology & Immunology from University Zhengzhou University, China. She was the Postdoctoral Fellow in Bone Biology, University of Michigan School of Dentistry. She was the Assistant Professor in the Department of Oral Biology, School of Dental Medicine, SUNY at Buffalo, 2008-2014. She is currently serving as an Associate Professor in the Department of Oral Biology, School of Dental Medicine, SUNY at Buffalo, 2014-2016.

TRACK

Current Concepts in Oral Health | Advancements In Dentistry | Forensic Odontology

Lifong Zou

Barts and The London School of Medicine and Dentistry
UK

Biography:

Dr. Lifong became a Clinical Scientist registered by HPC after being awarded her PhD on the optical measurement of free form surfaces and becoming involved with the facial laser scanning of patients. Working in an interdisciplinary environment at the Clinical Dental Biometrics Laboratory (CDBL), together with clinicians and postgraduate students, she has conducted numerous clinically-related research projects with many of them resulting in published work. As a result of this success in research, the CDBL has expanded its activities and equipment. Lifong graduated in the subject of Computer Aided Design and Computer Aided Manufacturing (CAD/CAM) with a Bachelor Degree of Science from Beijing University.

Conference Directory

July 19-20 | Rome, Italy

Day 1: Opening Ceremony

• Registrations	Final attendance of the participants
• Introduction	Day 1 kicks off by Moderator's introductory speech
• Guest's Speak	Briefing the conference theme by Honorable Guest

Day 1 Sessions

• Keynote Bout	Talks covering the Theme of the Conference
• Coffee Break	Coffee and Candid shots of the Group
• Oral Session 1	Toxicology | Methods of Toxicity Testing
• Special Session	A exclusive Exhibitor hosted session/Workshop for effective B2B chance
• Luncheon	Networking over Lunch
• Oral Session 2	Clinical Toxicology | Environmental Toxicology
• Coffee Break	Post-lunch coffee break session for networking
• Oral Session 3	Case studies/General discussions

Day 2 Sessions

• Oral Session 5	Reproductive Toxicology | Genetic Toxicology
• Coffee Break	Post-lunch coffee break session for networking
• Poster Session	Accepted Poster presentations
• YRF Presentation	Selected Students' Oral Presentations
• Closing Session	Award Ceremony & Thank you note by Moderator
• Coffee Break	Coffee and Refreshments

PROVISIONAL PROGRAM

Tentative Speakers

Title: Harmonizing the teeth and smile with facial structures to enhance the patient's total esthetic attractiveness

Joseph R. Greenberg, University of Pennsylvania, USA

Biography: Joseph R. Greenberg, DMD received his dental degree and post-doctoral dual specialty training in Periodontics and Fixed Prosthodontics/Periodontal Prosthesis from the University of Pennsylvania School of Dental Medicine, where he taught for over 40 years and held the rank of Clinical Professor of Periodontics.

Title: The early detection of oral cancer: no longer a disease of the old

Ben F. Warner, The University of Texas Health Science Center at Houston, USA

Biography: Ben Warner is Clinical Associate Professor and Director of Diagnosis and Treatment Planning Clinic at University of Texas Health Science Center at Houston in Department of General Practice and Dental Public Health. He received DDS from University of Texas School of Dentistry, and MD from McGovern Medical School.

Title: Perfect impressions made simple

Mark Mahn, The Paris Dental Centre, Canada

Biography: Mark Mahn graduated from the University of Toronto in 1978 with the degree of Doctor of Dental Surgery. He founded The Paris Dental Centre in 1979. He invented the MiTi TM System and is founder & president of MiTi Incorporated.

PROVISIONAL PROGRAM

Tentative Speakers

Title: New Technology That Sees Oral Cancer Before You Do

Ben F. Warner, The University of Texas Health Science Center at Houston, USA

Biography: Ben Warner is Clinical Associate Professor and Director of Diagnosis and Treatment Planning Clinic at University of Texas Health Science Center at Houston in Department of General Practice and Dental Public Health. He received DDS from University of Texas School of Dentistry, and MD from McGovern Medical School.

Title: High Strength CP Ti Alloys for Dental Implant applications

Guocai Chai, Linkoping University, Sweden

Biography: Guocai Chai is the group expert at Sandvik and adjunct professor at Linköping University, Sweden. His main research areas are material development and innovation. He is a board member of Swedish Society for Materials; a board member of TGS6 of EU Research Funding for Coal and Steel.

Title: The Ball Welding Bar: A New Solution for the Immediate loading and not of Screw-Retained, Mandibular Fixed Full Arch Prostheses

Andrea Guida, University of Perugia, Italy

Biography: Professor at Fuvic Fundacao Pinda(BR) researcher at University of Limerick Ireland. He has completed his PhD in material Science at Ul Limerick Ireland. Prof at University of Perugia Italy.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Basics of the lingual orthodontics – lingual orthodontics for experienced

Marko D. Scepanovic, University of Bergen, Norway

Biography: Marko D Scepanovic is the specialist of orthodontics, Clinical teacher at Section for Orthodontics, Department of Clinical Dentistry, Faculty of Medicine, University of Bergen, Former chief of the Section for Orthodontics, Department of Clinical Dentistry, Faculty of Medicine, University of Bergen

Title: Additive dentistry – Conventional and digital techniques

Knut Hufschmidt, Zahnarztpraxis, Austria

Biography: Knut Hufschmidt studied dentistry at the University of Freiburg, Germany, and obtained his dental licence in 1992. After earning his doctorate two years later, he worked as an assistant dentist at a private dental practice in Kenzingen, Germany, for two years. Between 1995 and 1998, he trained as an oral surgeon at the University of Münster (G) and the Clinic of Wels (A).

Title: Short Implant Vs Sinus Elevation

Hassan Koshak, Ministry of Interior Security Forces Medical Services, Saudi Arabia

Biography: Hassan H Koshak is Consultant in Periodontics and Implant Dentistry. Head of the Dental Department and Dental Educator at Comprehensive Specialized Polyclinic, Ministry of Interior Security Forces Medical Services, Jeddah, Kingdom of Saudi Arabia, where he has been since 2016.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Occlusal and aesthetic philosophies and approach in rehabilitating a dentate occlusion

Kubais Al-Assaf, Professionell Tandvård i Uppsala AB, Sweden

Biography: Kubais Al-Assaf has completed his master's degree in Operative Dentistry in 1999 from Mosul University- Iraq. Dr Al-Assaf has completed his PhD in 2008 from Aristotle University of Thessalonica- Greece.

Title: Photo-crosslinkable membrane for Guided Periodontal Tissue Regeneration

Pauline Marie Chichiricco, University of Nantes, France

Biography: Pauline Marie Chichiricco' obtained the degree of doctor in pharmacy at Sapienza University in Rome. She is ultimate year PhD in a European program (Nanofar) between the Regenerative Medicine and Skeleton laboratory in Nantes, under the supervision of Prof. Pierre Weiss and Dr. Xavier Struillou, and the Center for Education and Research on Macromolecules (CERM) at Liège University under the supervision of Prof. Christine Jerome.

Title: Effect of decreasing Electric potential difference (kVp) of Cone Beam Computed Tomography machine on the accuracy of Implant assessment linear measurements and orthodontic angular measurements

Angelo Itri, Genoa University, Italy

Biography: Angelo Itri is an adjunct professor at Genoa University. He graduated in 2009 at Genoa University. He won 2010 Duillo research award in Genoa. In 2012 He was a supervisor at Bioengineering University of Genoa. Dr. Itri is actively involved in research since 2006, focusing on dental implants, dental materials and prosthodontics.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Predictable outcomes for Immediate Implant Placement utilizing a Combined Protocol

Alaa Bani Hani, University of Leeds, UK

Biography: Alaa Bani Hani obtained the bachelor's Degree in dental surgery in 2006. Following that she worked as a General Dental Practitioner for three years before she obtained her clinical MSc in Pediatric Dentistry in 2010. Between 2009-2011, she worked as a pediatric dentist in private practice. She was rewarded the Diploma of the Membership of the Faculty of Dental Surgeons from the Royal College of Surgeons of Ireland in 2010.

Title: Interdisciplinary approach in the treatment of impacted Canines

M. Abu-Hussein, Wuerzburg University, Germany

Biography: Abu-Hussein has completed DDS 1986, DPD Dentistry for Children in the year 1988, Postgraduate taught course (two-years) in Oral Biology/Pathology, Dental Faculty, University of Athens 1998. He has 350 publications as author or co-author in peer-reviewed journals/book chapters, 150 lectures and CE courses (Cleft lip/palate, Pediatric Dentistry) in many countries.

Title: New bone grafting technique for soft tissue repositioning and radicular and implant bone defect replacement

Samuel Tacher Levy, APRENDE Teaching Centre, Mexico

Biography: Samuel Tacher has been involved with oral reconstruction for more than 20 years, has developed several innovative solutions to return the normal anatomy, physiology and function of soft and hard tissues, surgery is his passion and sharing knowledge his mission.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Passive and active repositioning of a traumatically intruded immature permanent incisor: 5-year follow up

Heejin Kim, Kosin University College of Medicine, South Korea

Biography: Heejin Kim has completed her PhD from Chonbuk National University, Korea. She is the assistant professor of the Department of Dentistry, Kosin University College of Medicine.

Title: Effect of dimethyloxalylglycine-embedded poly(ε-caprolactone) fiber meshes promote odontoblastic differentiation of human dental pulp-derived cells

Yeon Jee Yoo, Seoul National University, South Korea

Biography: Yeon Jee Lee has completed his PhD from Seoul National University and postdoctoral studies from University of Pennsylvania Department of Endodontics. He is the Professor and Chair at Seoul National University, School of Dentistry, Department of Conservative Dentistry & Endodontics, Seoul, Korea. He has published more than 45 papers in reputed journals and has been serving as an editorial board member of repute.

Title: Local treatment of metastatic squamous cell carcinoma of the medial aspect of the mandibular ramus using for the first-time cryosurgery

Wahid Terro, Elena Maxillofacial Surgery Clinic, Lebanon

Biography: Wahid Terro, is currently lecturer at Beirut Arab University (BAU), Oral & Maxillofacial Surgery Division, Lebanese University (LU), Department of Oral and Maxillofacial Surgery and North Glamorgan NHS Trust University of Wales College of Medicine, UK.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Bone graft cements new paradigm in the maxillofacial and dental field

Amos Yahav, Augma Biomaterials Ltd., Israel

Biography: Amos Yahav is a serial entrepreneur whose practical way of thinking combined with creativity have enabled him to develop a variety of efficient professional tools, accessories, and materials for implants and the surgical field, including the invention of "Biphasic calcium sulfate" (BondBone®, 3D Bond™, And Bond Apatite®. 4 matrix ™). Dr. Yahav is currently the CEO of Augma Biomaterials.

Title: Influence of curing unit beam profile on polymerization patterns within a resin-matrix composite

Afnan Al-Zain, King Abdulaziz University, Saudi Arabia

Biography: Afnan O Al-Zain completed her BDS degree from King Abdulaziz University Faculty of Dentistry, MSD degree from Indiana University School of Dentistry, and PhD degree from Indiana University. She is an Assistant Professor at King Abdulaziz University Faculty of Dentistry, Division of Operative and Esthetic Dentistry. She is a co-course director for third year BDS students.

Title: Beneficial effect of preemptive oral corticosteroids after mandibular third molar surgery: A systematic review

Akram Belmehdi, Mohamed V University, Morocco

Biography: Akram Belmehdi specialist in the department of oral surgery of faculty of dentistry of Rabat / Mohamed V University. He is the Member of the research committee of oral biology and pathology in the University of Mohamed V. He has published 6 papers in reputed journals and has been serving as a viewer in the journal of medical and surgical research.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Six Sigma Dentistry

Walaa Saad and **Edward Hindi,** Elsumo Clinic, Saudi Arabia

Biography: Walaa Saad is a qualified dentist from Saudi Arabia. She is passionate about dental care and is also have ideas for invention dental care tools. Edward Hindi is a business transformation coach and dental marketer with 30 years business experience.

Title: Medical errors in Dentistry

Manal Shira, Ministry of Health, Saudi Arabia

Biography: Manal Shira has completed his Saudi Board in Advanced Restorative Dentistry from the Saudi commission for heath specialties. She obtained her Master science in dental materials and certificates in advanced restorative dentistry from King Saud University. She is a part timer staff in Riyadh dental college. She is the director of the outpatient clinics in Alyamama hospital.

Title: Successful conservative management of oral lesions by decompression or marsupialization procedure: a case series

Akram Belmehdi, Mohamed V University, Morocco

Biography: Akram Belmehdi specialist in the department of oral surgery of faculty of dentistry of Rabat / Mohamed V University. He is the Member of the research committee of oral biology and pathology in the University of Mohamed V. He has published 6 papers in reputed journals and has been serving as a viewer in the journal of medical and surgical research.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Correlation between atlas morphology and the maxillomandibular divergence pattern

Hafiz Taha Mahmood, Aga Khan University Hospital, Pakistan

Biography: Hafiz Taha has completed his bachelor's if dental surgery at the age of 23 years from Dow University of Health Sciences, Karachi. He is currently doing fellowship in operative dentistry at Aga Khan University hospital. He has published three papers in reputed journals.

Title: The Evaluation of Cervical Spine Posture after Functional Therapy with Twin Block Appliances: A Retrospective Cohort Study

Adeel Tahir Kamal, Aga Khan University, Pakistan

Biography: Adeel Tahir Kamal has completed his bachelor's if dental surgery at the age of 23 years from Dow University of Health Sciences, Karachi. He is currently doing fellowship in operative dentistry at Aga Khan University hospital. He has published three papers in reputed journals

Title: Awareness of dentists regarding immediate management of dental avulsion

Kamil Zafar, Aga Khan University, Pakistan

Biography: Kamil Zafar has completed his bachelor's if dental surgery at the age of 23 years from Dow University of Health Sciences, Karachi. He is currently doing fellowship in operative dentistry at Aga Khan University hospital. He has published three papers in reputed journals.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Determination of mean mesiodistal width of canines in patients reporting to a tertiary care hospital

Muhammad Ashfaq Younus, Aga Khan University, Pakistan

Biography: Muhammad Ashfaq Younus has completed his bachelor's if dental surgery at the age of 23 years from Dow University of Health Sciences, Karachi. He is currently doing fellowship in operative dentistry at Aga Khan University hospital. He has published three papers in reputed journals

Title: Study Cases: Augmentation bone by grafting and PRP

Farzat Alksiri, Damascus University, Syria

Biography: Farzat Alksiri is one of the first to transfer the newest technology of dental implants to Syria and was able to accomplish more than 1200 dental implants and bone grafting that are archived with radiographs x-ray. He developed his work through a cooperation with the LEADER TIXOS Italian company. He used Nano-implants and the PRP extensively in dental implants. The results of his work were impressive in terms of stabilization of implants.

Title: Aesthetic Coverage of Roots with Coronally Advanced Flap – Laser Light for the Added Impetus (A Case Report)

Rashmi Paramashivaiah, Krishnadevaraya College of Dental Sciences, India

Biography: Rashmi Paramashivaiah has completed her under-graduation from M. R. Ambedkar Dental college, Bangalore (2001) and Post-graduation from The Oxford Dental College, Bangalore (2007). She has been a guest speaker for Indian Society of Periodontology and Colgate Palmolive at her institution on more than one occasion.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Cryosurgery: a novel technique for gingival depigmentation

Shaeesta Khaleel Ahmed, King Khalid University, Saudi Arabia

Biography: Shaeesta Khaleel Ahmed Bhavikatti is currently working as Assistant Professor in the Department of Periodontics and Community Dental Sciences, College of Dentistry, King Khalid University, ABHA, KSA. She has 13 publications to my credit in esteemed PubMed and Elsevier publications till date and she is working on other research projects and forthcoming publications.

Title: Effect of Etching Duration on the Microstructure and Mechanical Properties of a Lithium Disilicate Glass Ceramic

Hanan Al-Johani, King Abdulaziz University, Saudi Arabia

Biography: Al-Johani has completed her MSD from Indiana University School of Dentistry. She is currently teaching in the Dental Biomaterials Division, Department of Restorative Dentistry in King Abdulaziz University, Faculty of Dentistry

Title: Oral Squamous Cell carcinoma, The HPV connection

Joharia Azhar, Princess Nourah University, Saudi Arabia

Biography: Joharia Azhar is an associate Professor in Oral pathology and vice-chair PBL Unit in Princess Noura University Riyadh, Kingdom of Saudia Arabia. She is visiting faculty Abbottabad international dental college, Pakistan. She is a consultant in oral pathology and Laser dentistry and one of the pioneers of laser dentistry and salivary diagnostics. International tutor at Aalz, Aachen University, Germany and their Fellowship Programme director in Pakistan.

Exciting Opportunity For The Young Researcher Mind!!!

Young scholars are not just new intros in the scientific community; rather are the up surging minds with huge potential to take the advances in the Dentistry and Dental Materials segment to a height anew.

We'd love to have these exceptional students speak and share their ideas for a major brain-storming session among themselves; attendees from education and industrial sectors.

Abstract Submission Link: **https://dentalmaterials.dentistryconferences.com/abstract-submission.php**

Be on the World's finest Dentistry and Dental Materials Technocrat Speakers' list!

Register now to grab this opportunity!

POSTER PRESENTATION

Put your thoughts on the canvas and showcase it to the participants. If you are looking forward to share your work with like-minded and similarly focussed people, then Poster would make a perfect path to join the heart of this conference.

YOUNG RESEARCHERS' FORUM

A very few students can hold on to the opportunity of giving an Oral Presentation along with those highly affiliated expert minds. Exceptional abstracts can grab this chance and exhibit their research verbally.

INDUSTRY REPRESENTATIVE

Communicate the ideas on behalf of your organization in the form of a scientific talk or be a delegate to proxy your company's attendance at the Meet.

INTERATIVE BOOTHS

Showcase the latest product or service of your industry. Book your booth and avail free passes to the conference sessions.

B2B and B2A SESSIONS

At the Dental Materials 2018 Italy, industries are welcome to display their products in the industrial exhibition, organise a symposium/workshop or benefit from many other sponsoring opportunities.

Experience the demonstration of finest ideas from best speakers of this field, meet with industry partners and customers, and examine recent market trends and opportunities- all over the luncheon and coffee break sessions.

Minimise this gap between the lab and the industry, meet your rivals and contemporary only at Dental Materials 2018 Italy

For details of the conference click:

Sponsorship & Exhibiting Opportunities are open for benefits of and exposure among a diverse range of attendees at Dentistry and Dental Materials Conferences!!!

Being in Italy

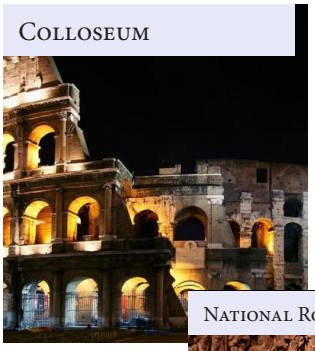

Rome is in the Lazio region of central Italy on the Tiber river (Italian: Tevere). The original settlement developed on hills that faced onto a ford beside the Tiber Island, the only natural ford of the river in this area.

The Rome of the Kings was built on seven hills: the Aventine Hill, the Caelian Hill, the Capitoline Hill, the Esquiline

Hill, the Palatine Hill, the Quirinal Hill, and the Viminal Hill. Modern Rome is also crossed by another river, the Aniene, which flows into the Tiber north of the historic centre.

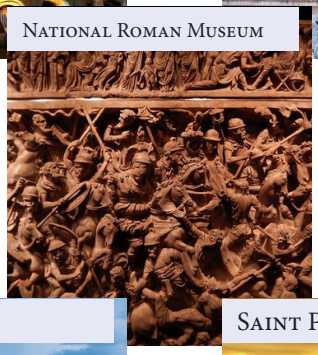

Pilgrimage: Rome has been a major Christian pilgrimage site since the Middle Ages. Architecture: Rome's architecture over the centuries has greatly developed, especially from the Classical and Imperial Roman styles to modern Fascist architecture. Rome was for a period one of the world's main epicentres of classical architecture, developing new forms such as the arch, the dome and the vault. Economy: Being the capital city of Italy, Rome hosts all the principal institutions of the nation, like the Presidency of the Republic, the government (and its single Ministeri), the Parliament, the main judicial Courts, and the diplomatic representatives of all the countries for the states of Italy and the Vatican City (curiously, Rome also hosts, in the Italian part of its territory, the Embassy of Italy for the Vatican City, a unique case of an Embassy within the boundaries of its own country).

Rome 2018
