- Network development with both Academia and Business

"Make it... Take it..."

This is what exhibiting with us means. Make a place at Dentistry Congress 2019 as an exhibitor and Take the International recognition with you.

Getting Around London

The Eternal City: LONDON!

London is the capital and most populous city of England and the United Kingdom. Standing on the River Thames in the south east of the island of Great Britain, London has been a major settlement for two millennia. It was founded by the Romans, who named it Londinium. London is a leading global city in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. It is the world's largest financial centre and has the fifth- or sixth-largest metropolitan area GDP in the world. London is a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport system measured by passenger traffic. It is the world's leading investment destination, hosting more international retailers and ultra-high-net-worth individuals than any other city. London's universities form the largest concentration of higher education institutes in Europe. In 2012, London became the first city to have hosted the modern Summer Olympic Games three times.

Cuisine Corner!

In north London, Greek and Middle Eastern dishes figure heavily, while in the affluent west London, Italian and French are the most popular.

In east London, the pollster's data shows the most popular cusines are Chinese, American and English.

Although that finding may surprise those familiar with the delights of Brick Lane's array of Indian restaurants, the 'east London' area used for the map is a large geographic area taking in predominantly white parts of Essex, a large Chinese community in Greenwich and a number of London's Eastern European communities.
