

6th World Depression Congress

June 27-28, 2024 | Paris, France

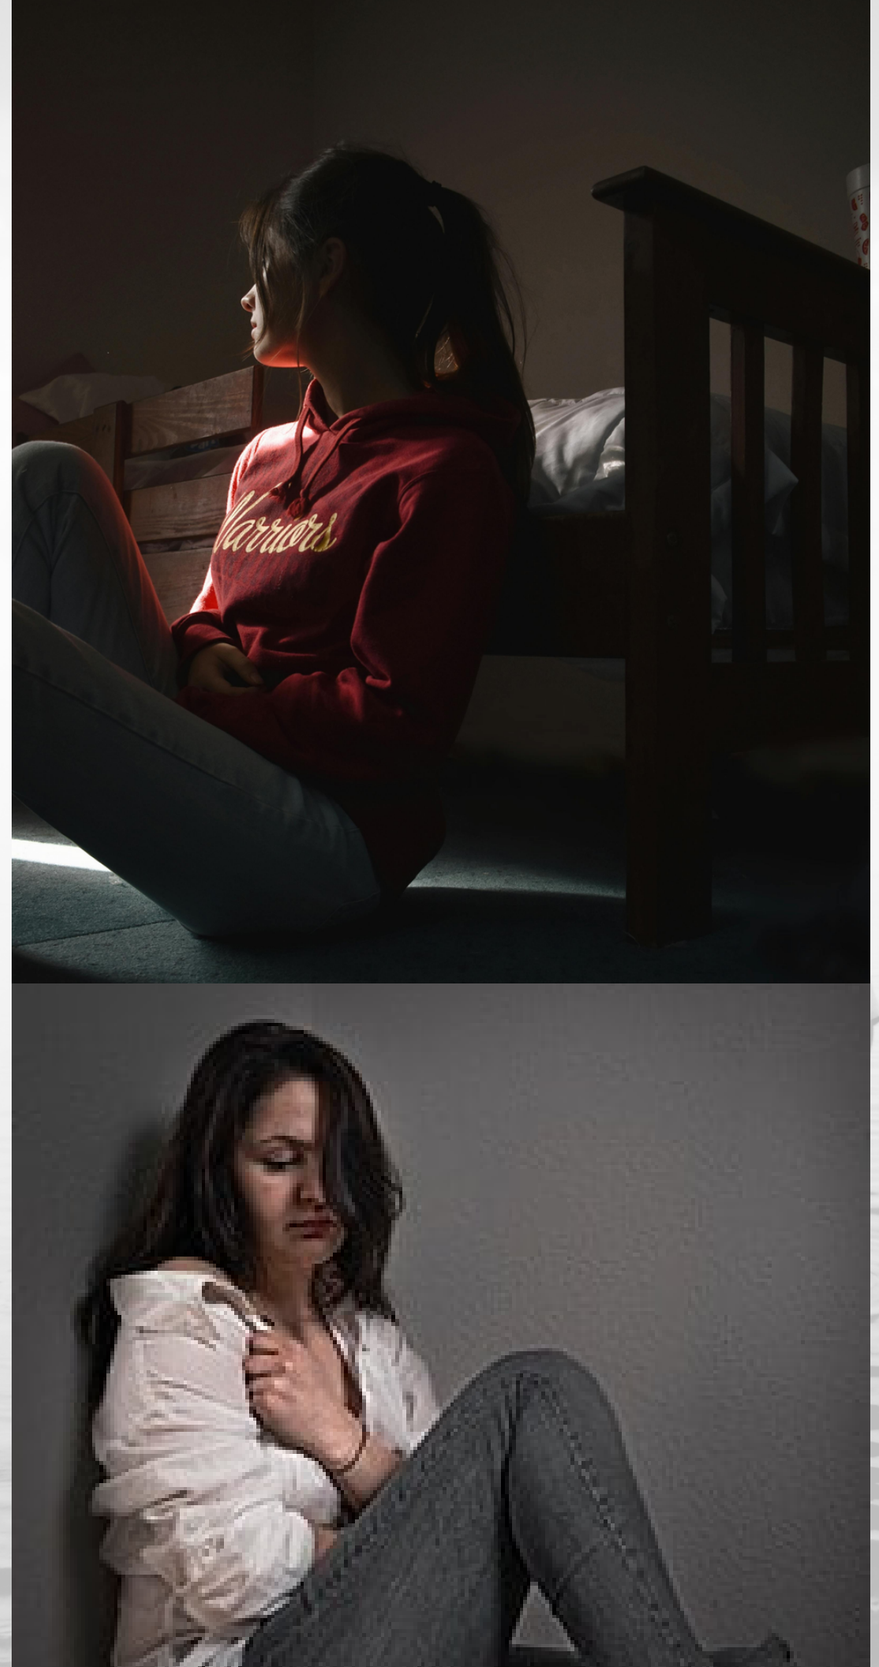

About Conference:

We are truly delighted to have you join us for this important gathering, at "6th World Depression Congress on June 27-28, 2024 | Paris, France" where we will explore, discuss, and shed light on the critical issues surrounding depression. This conference brings together a diverse group of individuals, including researchers, healthcare professionals, advocates, and individuals who have been personally affected by depression, all with the common goal of advancing our understanding and treatment of this complex condition.

Over the next few days, we will embark on a journey of knowledge sharing, empathy building, and collaboration. Our program is designed to provide you with valuable insights, cutting-edge research, and practical strategies for addressing depression from various perspectives. Together, we aim to reduce stigma, enhance support systems, and ultimately improve the lives of those impacted by depression.
