Title: Is the Religious Practice of Ablution a Factor Influential on Diabetic Foot Development?
Hamdiye Arda Sürücü, Dicle University, Turkey
Coffee Break
Speaker Slots Available
Title: The role of perceived exercise barriers in predicting exercise behaviour in patients with type 2 diabetes mellitus
Heon Jin, National Institute of Education, Nanyang Technological University, Singapore
Panel Discussion
Day 2 July 21, 2017
Keynote Session
Title: Diabetes prevention in a resource constraint country: BADAS experiences
Md Faruque Pathan, Bangladesh Institute of Research and Rehabilitation in Diabetes, Endocrine and Metabolic Disorders (BIRDEM), Bangladesh
Title: Dietary management of type 2 diabetes–focusing on mitochondrial function
Shirley Mcilvenny, Bond University, Australia
Session Introduction
Transplantations in Diabetes | Rising Focus in Diabetes Research | Hereditary of diabetes | Methodologies to insulin |administration | Neuro Endocrinology
Session Chair: **Md Faruque Pathan**, Bangladesh Institute of Research and Rehabilitation in Diabetes, Endocrine and Metabolic Disorders (BIRDEM), Bangladesh Session Co-Chair: **Bashair Mussa**, University of Sharjah, United Arab Emirates
Title: Serum 25-hydroxivitamin D3 and risk of type 2 diabetes among Japanese: the hitachi health study
Shamima Akter, Teikyo University Graduate School of Public Health, Japan
Title: Real-life effectiveness and tolerability of initial combination therapy with vildagliptin/metformin in drug-naïve patients with T2DM (Initial): A 24-week study from asia
Md Faruque Pathan, Bangladesh Institute of Research and Rehabilitation in Diabetes, Endocrine and Metabolic Disorders (BIRDEM), Bangladesh
Title: Physiological stress and sleep quality assessment: a new approach to improve glycemic control and enhance weight loss in type 2 diabetes
Bashair Mussa, University of Sharjah, United Arab Emirates
Title: The effect of thymoquinone extract of black seeds toward socket new blood vessels formation process after extraction in diabetic-induced rats
Retno Trisnawati, Jember University, Indonesia
Title: A comparison between islet and stem cell transplantation for treatment of type 1 diabetes mellitus: A systematic review
Astrid Sugiantol, University of Melbourne, Australia
Coffee Break
Poster Session
Title: The impact of the IADPSG guidelines for gestational diabetes mellitus on a secondary hospital population
Rosie Viner, University of Notre Dame, Australia
Title: Nutrition food assessment of children with type 1 diabetes in mongolia

Dolgormaa Dambaravdan, Mongolian Dietetic Association, Mongolia
Title: Association between the time of length since smoking cessation and insulin resistance in asymptomatic korean male ex-smokers
Ko-Woon Kim, The Catholic University of Korea, South Korea
Title: Synthesis of natural homoisoflavonoids having either 5,7-dihydroxy-6-methoxy or 7-hydroxy-5,6-dimethoxy Groups
Myunghoe Heo, Gachon University, South Korea
Title: Chemoselective acylation of 2-amino-8-quinolinol in the generation of C2-amides or C8-esters
Sanha Lee, Gachon University, South Korea
Title:The Role of Lysophosphatidic Acid Receptor Signaling in Diabetic Nephropathy in db/db Mice
Yongha Hwang, Gachon University, South Korea
Title:Methylglyoxal stimulates autophagy in vascular endothelial cells through regulating the PI3K/Akt/mTOR and endoplasmic reticulum stress/MAPKs signaling pathways
Jae Hyuk Lee, Gachon University, South Korea
Title: Synthesis of gallic acid analogues as histamine and pro-inflammatory cytokines inhibitors for treatment of mast cell-mediated allergic inflammation
Yue Yuan,Gachon University, South Korea
Title: Investigation of the protective effect of peanut (Arachis hypogaea) phenolics against methylglyoxal-induced glucotoxicity
Minsun Jeong, Gachon University, South Korea
Title: Factors affecting the empowerment of the diabetic individual and how we can empowerment diabetes patient?
Hamdiye Arda Sürücü, Dicle University, Turkey
Speaker Slots Available
Coffee Break
Panel Discussion
Day 3 July 22, 2017
Session Introduction
Complications in diabetes | Diabetes and associated Disorders | Computerized applications in Diabetes mitigations | Management of Diabetes | Biomarker Discovery for Treatment of Diabetes
Title: Co-transmission by nitric oxide, substance P and acetylcholine in the pathophysiology of diabetic gastroparesis
Roustem N Miftahof, Arabian Gulf University, Bahrain
Title: Do the prevention messages address the real issues for all people with type 2 diabetes
Erum Ghafoor, Baqai Institute of Diabetology & Endocrinology, Diet & Education,Pakistan
Title: Complications and comorbidity of diabetes mellitus (DM) among Saudi in northern Saudi Arabia
Abdulaziz Khalid Alsayegh, Hail University School of Medicine, KSA
Coffee Break
Title: Effect of coix lacrima jobi L extract on the mice with Diabetes Mellitus blood glucose invivo
Nanny Djaja, Atma Jaya Catholic University of Indonesia, Indonesia
Speaker Slots Available
Lunch Break
Panel Discussion
Award Ceremony
