Conference Highlights

- Drug Discovery and Development
- Medicinal Chemistry in Modern Drug Discovery
- Natural products Drug Discovery
- Drug Discovery in Preclinical Research
- Drug Delivery and Targeting
- Cardiovascular Drug Discovery
- Nanotechnology in Drug Discovery
- Drug Designing and Molecular Modelling
- Clinical Trials and Regulatory Affairs
- Pharmaceutical Research and Development
- Computational Molecular Biology
- Novel Therapeutics in Drug Designing
- Computer Aided Drug Design (CADD)
- Pharmaceutical Formulation
- Pharmaceutical Biotechnology and Clinical Drug Evaluation
- Pharmaceutical and Biomedical Analysis

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

About Vancouver

Vancouver, a bustling west coast seaport in British Columbia, is among Canada's densest, most ethnically diverse cities. A popular filming location, it's surrounded by mountains, and also has thriving art, theatre and music scenes. Vancouver Art Gallery is known for its works by regional artists, while the Museum of Anthropology houses preeminent First Nations collections. Vancouver has a moderate, oceanic climate. Protected by the mountains and warmed by the Pacific Ocean currents, Vancouver is one of the warmest cities in Canada. Vancouver is consistently rated as one of the top cities in the world to live. The combination of economic opportunity and the beautiful, natural environment draws people from around the world. These newcomers - like you - contribute to Vancouver's diversity and live ability. Vancouver is made up of a number of smaller neighborhoods and communities. Neighborhood boundaries provide a way to break up the city's large geographical area for delivering services and resources and identify the distinct culture and character of different areas of our diverse population. However, there is some disagreement on all of the names and boundaries of these areas.

Vancouver is consistently named as one of the top five worldwide cities for livability and quality of life, and the Economist Intelligence Unit acknowledged it as the first city to rank among the top-ten of the world's most liveable cities
