About Vienna

Vienna is the capital and largest city of Austria and one of the nine states of Austria. Vienna is Austria's primary city, with a population of about 1.8 million and its cultural, economic, and political centre. It is the 7th-largest city by population within city limits in the European Union. The city had 2 million inhabitants. It has the second largest number of German speakers after Berlin. Vienna is host to many major international organizations, including the United Nations and OPEC. Along with nearby Bratislava, Vienna forms a metropolitan region with 3 million inhabitants.

Apart from being regarded as the City of Music because of its musical legacy, Vienna is also said to be "The City of Dreams" because it was home to the world's first psycho-analyst – Sigmund Freud. It is well known for having played an essential role as a leading European music centre, from the great age of Viennese Classicism through the early part of the 20th century. The historic centre of Vienna is rich in architectural ensembles, including Baroque castles and gardens, and the late-19th-century Ringstraße lined with grand buildings, monuments and parks. Vienna is known for its high quality of life. In a 2005 study of 127 world cities, the Economist Intelligence Unit ranked the city first for the world's most liveable cities

The city of Vienna attaches major importance to science and research and focuses on creating a positive environment for research and development. In 2014, Vienna has accommodated 1,329 research facilities; 40,400 persons are employed in the R&D sector With a research quota of 3.4% Vienna exceeds the Austrian average of 2.77% and has already met the EU target of 3.0% by 2020. A major R&D sector in Vienna are life sciences with 378 biotech, pharma and medtech companies such as Johnson & Johnson, Siemens, Roche, Philips and Boehringer Ingelheim, with more than 21,000 employees. There are 25 public and private research institutions.
