Glimpses of Multimedia Conferences

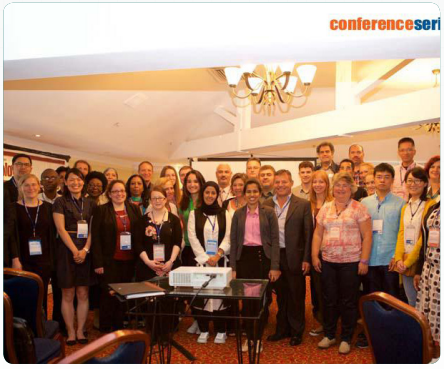

Glimpses of E.N.T Conferences

Major Scientific Sessions

- Rhinology and Allergy
- Laryngology
- Innovation and Research in Otolaryngology
- Phoniatry and Obstructive sleep apnea(OSA)
- Head and Neck Surgery and Oncology
- Hearing Impairment and Deafness Causes
- Surgical Approaches for Middle and Inner ear Diseases
- Surgery For Nasal Disorders
- Otology/ Neurotology
- Facial Plastic and Reconstructive Surgery
- Anatomy and Physiology of Ear, Nose, and Throat
- Sinusitis-Types and Treatment
- Surgical Approaches for Ear, Nose and Throat
- ENT Infectious Diseases
- Anesthesia in Ear, Nose and Throat Surgery
- Pediatric Otolaryngology
- Speech Language Pathology

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

About Rome

Rome is considered to be one of the oldest cities in the world and is the capital city of Italy. It is the largest city in Italy estimated to dwell about 2.8 million inhabitants and is included among the highly populous cities of Europe occupying the 4th place. It is known for the Vatican City and has a history which roots back into thousands of years. The city has religious and educational facets as it is considered as a major pilgrimage for Christians and is a global center for higher education. The largest European University and the second largest in the world (Sapienza University of Rome), is located here and has been a major center for scientific information.

Its historic centre is listed by UNESCO as a World Heritage Site. Monuments and museums such as the Vatican Museums and the Colosseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year. Rome hosted the 1960 Summer Olympics. Although associated today only with Latin, ancient Rome was in fact multilingual. In highest antiquity Sabine tribes shared the area of what is today Rome with Latin tribes. The Sabine language was one of the Italic group of ancient Italian languages, along with Etruscan, which would have been the main language of the last three kings who ruled the city till the founding of the Republic in 509 BC. Urganilla, or Plautia Urgulanilla, wife of Emperor Claudius, is thought to have been a speaker of Etruscan many centuries after this date, according to Suetonius' entry on Claudius. However Latin, in various evolving forms, was the main language of classical Rome, but as the city had immigrants, slaves, residents, ambassadors from many parts of the world it was also multilingual.
