4th European Otolaryngology-ENT Surgery Conference

August 15-17, 2019
Rome, Italy

SCIENTIFIC PROGRAM

DAY 1
Thursday, 15th August

08:30-09:00 **Registrations**

09:00-09:30 **Introduction**

09:30-09:50 COFFEE BREAK

09:50-11:50 Meeting Hall 01 **KEYNOTE LECTURES**

11:50-13:10	MEETING HALL 01	MEETING HALL 02
	Talks On: Otorhinolaryngology	**Talks On:** Rhinology
	Ear	Nose disorders
	Nose	Olfaction
	Throat	Nasal Irrigationx
	Base of the skull	Nose-blowing

13:10-13:15 GROUP PHOTO

13:15-14:00 LUNCH BREAK

14:00-16:00	MEETING HALL 01	MEETING HALL 02
	Talks On: Sinusitis	**Talks On:** Audiology
	sinus infection	Hearing Tests
	Air pollution	Hearing loss
	Asthma	Hearing aid
	Poor immune function	Cochlear implants
	Immunization	
	Energy storag	

16:00-16:20 COFFEE BREAK

MEETING HALL 01 (16:20-17:00)	MEETING HALL 01 (17:00-18:00)
Young Researchers in Pollution	Workshop

DAY 2
Friday, 16th August

09:00-10:30 Meeting Hall 01 — **KEYNOTE LECTURES**

10:30-10:50 COFFEE BREAK

10:50-12:50	MEETING HALL 01	MEETING HALL 02
	Talks On: Tinnitus	**Talks On:** Pediatric Otolaryngology
	Ear infections	Adolescents
	Meniere's disease	Neonatology
	Brain tumours	Primary care physicians
	Emotional stress	Infants

12:50-13:35 Head injury

13:35-15:55	MEETING HALL 01	MEETING HALL 02
	Talks On: Nasal Disorders	**Talks On:** Head, Neck and Oral Oncology
	Empty nose syndrome	Salivary glands
	Fungal sinusitis	Larynx
	Non allergic rhinitis	Radiation exposure
	Nose bleed	Tissue biopsy

15:55-16:15 COFFEE BREAK

MEETING HALL 01 (16:15-17:00)	MEETING HALL 01 (17:00-18:00)
Poster Presentations	Workshop

DAY 3
Saturday, 17th August

09:00-10:30 Meeting Hall 01

KEYNOTE LECTURES

10:30-10:50 COFFEE BREAK

10:50-12:50

MEETING HALL 01	MEETING HALL 02
Talks On: Snoring and obstructive sleep apnea	**Talks On:** Ear Disorders
Shallow breathing	Otomycosis
Tonsils	Otitis media
Sleep disorder	Ear canal
Excessive daytime sleepiness	Bony labyrinth
Infectious mononucleosis	Sound localisation
	Vertigo

12:50-13:35 LUNCH BREAK

13:35-15:55

MEETING HALL 01	MEETING HALL 02
Talks On: Nose Bleeding	**Talks On:** Laryngopharyngeal Reflux
Epistaxis	Silent reflux
Nostrils	Supra-esophageal reflux
Blunt trauma	Oropharynx

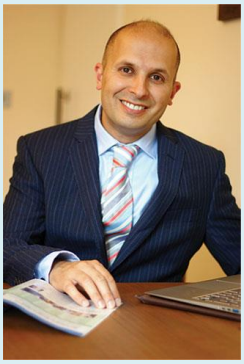

15:55-16:15 COFFEE BREAK

MEETING HALL 01 (16:15-17:00)	MEETING HALL 01 (17:00-18:00)
Young Researchers in Pollution control	Workshop

Awards & Closing Ceremony

Vik Veer

The Royal National Throat Nose & Ear Hospital, UK

Presentation Title: The Role of Surgery in the Treatment of Sleep Apnoea – Evidence from 1000 patients

Mr Vik Veer works at the Royal National Throat Nose & Ear Hospital, Central London, UK. He works alongside with Professor Kotecha at the Sleep Medicine Department. He is a co-founder of the British Association of Sleep Surgeons and works solely with OSA patients in his NHS practice at the RNTNE hospital. He has developed a new classification and technique for Drug Induced Sleep Endoscopy to improve its reliability and validity. The STAMP score is a new patient reported outcome measure for OSA developed by Mr. Vik Veer.

Sajidxa Mariño

Central University of Venezuela, Venezuela.

Presentation Title: Respira Libre®: Diode's Laser for In Office Endoscopic Surgery Center, a new type of ENT Center exclusive for patients with obstructive nasal diagnosis.

Sajidxa Mariño is an Otolaryngologist, specialized in endoscopic surgery. In 2017 he created the Centro Respira Libre, dedicated exclusively to the treatment of nasal obstructions and snoring with diode laser in the office of any patient from 2 years of age. Show,Good Morning America and many other programs.

Karin Roberg

Linköping University, Sweden

Presentation Title: Predictive biomarkers for treatment response in Head and Neck cancer

Karin Roberg has worked at the Department of Otorhinolarygology in Linköping since 2003 and is a professor in Experimental Otorhinolaryngology. The research of her group is focused on biomarkers for treatment response in head and neck cancer.

Belén Terreros

Hospital de Clinicas, Argentina

Presentation Title: RHINOPLASTY IN HISPANIC NOSE

Belén Terreros, otorhinolaryngologist, with diploma in sleep medicine and roncopathy. Member of GELPO "Latin American study group olfactory pathology" Fellowship of one year in Rhinology and facial plastic at the Hospital de Clínicas (with Drs. Luis Chinski & Hernan Chinski- ARGENTINA).

Marin Šubarić

University North in Varaždin, Croatia

Presentation Title: Clinical implications of the nasal septal deformities

Marin Šubarić was born in 1955 in Zagreb, Croatia. He graduated from Zagreb University Medical School in 1979 and is an ENT specialist from 1990. In the field of rhinology he focused on the incidence of particular types of septal deformities according to Mladina's international classification. These studies under the leadership of prof.Mladina, confirmed dominantly inherited septal deformities type 5 and 6. Second research proved that type 6 of septal deformity stays in close relationship to the cleft lip/palate (CLP) occurrence in newborns. Thanks to his recent research, now we know that people carrying one of types 5 or 6, besides already well known proved factors, have a predilection factor for the onset of an acute coronary syndrome. He practiced for twenty years as Head of the ENT Clinic at Dubrava University Hospital in Zagreb. From 2017 he is a full time professor at University North in Varaždin, Croatia.

Stella Maris Cuevas

Hospital de Clinicas Jose de San Martin, Argentina.

Presentation Title: Olfactory Function on patients with CRS

Dr Cuevas is specialized in Smell disorders and has experience in Chronic Rhinosinusitis treatment and BAST- 24 management for the evaluation of Smell Disorders in Latin America. She has participated in several events in Europe, United States and South America being one of the referents in her area. President of Buenos Aires ENT Socitey. Currently she is working at Hospital de Clinicas Jose de San Martin in Buenos Aires, Argentina

Irina Meitel

National Scientific And Practical Center Of Children's Health, Russia

Presentation Title: Endoscopic technic of cartilage «slinky» myringoplasty in pediatric patients

Dr.Irina Meitel In 2015, finished I.M. Sechenov First MSMU, the centre for innovative educational programs "medicine of the future", specialty medical care. She completed 2015, 2016 - workshop on topical issues on otosurgery, with the course of dissection of the temporal bone, First MSMU named after I. M. Sechenov. She is interested in Surgical treatment of adults and children: endoscopic adenotomy, adenotonsillectomy, tonsillectomy, laser, radio-wave shunting of the tympanic cavity, septoplasty, correction of the inferior turbinates, including using a laser, functional endoscopic surgery of the paranasal sinuses. She won multiple prize-winner of competitions of scientific works, including 2014 IMSCNS - International Medical Students' Congress in Novi Sad, Serbia. And she is presently working as Ent-surgeon, researcher of Scientific Center of Children's Health, Moscow, Russia.

Claudio Ricardo Haissiner

FOUNDER University of Buenos Aires, Argentina.

Presentation Title: State of the art in diagnosis and treatment for snoring and sleep apnea

Dr. Claudio Ricardo Haissiner is ENT specialist in Buenos Aires. He is an associate profesor of Otolayngology at University of Buenos Aires. He is an active member of International Member of American Academy of otolaryngology, Regular Member Argentine Association of Otolaryngology, Regular member Buenos Aires Association of Otolaryngology. He is specialized in Snore surgical minimal invasive treatment

Ulrica Thunberg

university hospital of Örebro, Sweden

Presentation Title: Anti-Staphylococcal Humoral Immune Response in Patients with Chronic Rhinosinusitis

Ulrica Thunberg is specialized in otorhinolaryngology. She has been working in the field since 20 years and has her main research in rhinology. She is working at the university hospital of Örebro, Sweden.

Shama Shishodia

Pennine Acute NHS trust, UK

Presentation Title: Comparison between electrical stimulus levels and performance of cochlear implants when electrode array insertion is done via bony promontory cochleostomy vs round window cochleostomy: a Randomized controlled trial.

Dr Shama Shishodia completed her postgraduate qualification in ENT from India from Sir Ganga Ram Hospital. Following which she did her senior residency in a Govt paediatric Hospital for a year and then moved to UK to pursue Mch Otorhinolaryngolgy from Edge Hill University and at present is working as a Clinical fellow in ENT in Pennine Acute NHS trust.

Tzanakakis Michail

ENT Head & Neck Surgeon Master in Rhinology & Rhinosurgery, Greece

Presentation Title: Non-allergic rhinitis: Misdiagnosing a common disease. Classification, Diagnosis, Treatment

Dr Tzanakakis Michail is an ENT Surgeon, specialized in Rhinology and has quite a few experience of rhinosurgery. He has a Master's Degree in Rhinology and Rhinosurgery and a PhD degree from the University of Crete. He is a member of the Greek ENT society and works in private since 2010 in collaboration with Chania General Clinic where he performs most of his surgeries.

Anna Pugh

The Hearing Care Partnership, UK

Presentation Title: Hearing Loss in Diabetes- an unrecognized co-morbidity

Anna Pugh is an experienced Hearing Therapist Audiologist working in the UK in the private sector. She is the UK Lead for The Audiology Project, an international collaboration of professionals and specialists working to raise the profile of the impacts of hearing loss with our patients with Diabetes and our colleagues, and influence strategic Diabetes Prevention and Education programmers.

Raid M. Al-Ani
University of Anbar, Iraq.

Presentation Title: Auricular schwannoma: a case report

Dr. Raid M. Al-Ani , I got MBChB from Kufa College of Medicine in 1989. He is working as a Otolaryngologist since 2000 when I achieved the Fellowship of Iraqi Board for Medical Specializations in Otolaryngology and Head and Neck Surgery. In 2015, he achieved the MRCS from Edinburgh. I got the fellowship of European board in Otolaryngology and Head and Neck Surgery in 2017. In addition to his practice as an Otolaryngologist and an instructor, he received many positions like a chief of department, Assistant Dean for Scientific affairs and Post graduate Studies and others.

Carla Nelide G. Z. Balderrama
APAE Matinhos PR and APAE Guaratuba PR, Brazil

Presentation Title: Vocal health: preventive speech and hearing

Educational and Clinical Speech and Hearing Therapist at the APAEs (Association of Parents and Friends of the Exceptional) Guaratuba and Matinhos in Brazil, graduating post in Neuropsychology, award winning highlight of the year on the coast for two consecutive times.

Shaimah Najmussaquib
Taiba Hospital, Kuwait.

Presentation Title: The Effect of Radiofrequency ablation and Mitomycin C in the surgical management of Human tymapnostomy, could it be the end of the Grommet era?

Shaimah najmussaquib graduated from the prestigious mahatma gandhi medical college and research center India , having a egyptian background she proceded to work at sheikh zayed hospital Egypt for 6 months pro-bono. Presently working at Taiba hospital she looks forward to learning and progressing her knowledge in the field of ENT.

Hadi Al-Hakami

KAMC-Jeddah, Saudi Arabia

Presentation Title: The Incidence of Thyroid Gland Invasion in Advanced Laryngeal Squamous Cell Carcinoma

Dr. Hadi Afandi Hommed Al-Hakami is presently working at Resident Training Program Director of Oto-rhino-laryngology Head & Neck Surgery @ KAMC-Jeddah. In 2018 he awarded as the best ORL-HNS Faculty chosen by medical students KSAU-HS. He is an active member of Asia-Pacific society of Thyroid Surgery, Saudi Board of Oto-rhino-laryngology-HN.

Hadi Al-Hakami

KAMC-Jeddah, Saudi Arabia

Presentation Title: Surgical complications after thyroid surgery: a 10-year experience in a single residency training program center

Dr. Hadi Afandi Hommed Al-Hakami is presently working at Resident Training Program Director of Oto-rhino-laryngology Head & Neck Surgery @ KAMC-Jeddah. In 2018 he awarded as the best ORL-HNS Faculty chosen by medical students KSAU-HS. He is an active member of Asia-Pacific society of Thyroid Surgery, Saudi Board of Oto-rhino-laryngology-HN.

Rohan Malla Baruah

Jain ENT Hospital, India.

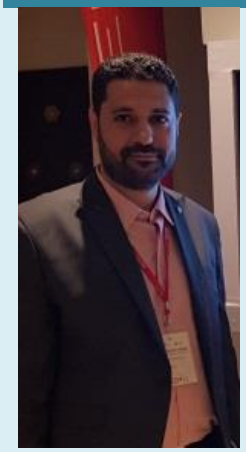

Presentation Title: Effect of adenoidectomy in children in the management of paediatric Rhinosinusitis and associated diseases

Dr. Rohan Malla Baruah has done Master degree in ENT from Vydehi institute of medical sciences & Research centre in 2016. After Post graduation he had training in Jain Ent Hospital, Jaipur (largest ENT centre in the private sector in the country) and done fellowship in Otology and Rhinology. Dr. Rohan malla baruah has attained great knowledge and skills in such a short span of time that the people of nalbari (INDIA) and Guwahati (INDIA)are indeed lucky to have such a good surgeon serving the populous.

Mohammed Elmoursy Kasem

Al-Azhar university, Egypt

Presentation Title: Vestibular and radiological evaluation of hearing impaired children with delayed Motor development

Dr. Mohammed Elmoursy Kasem presently works at Assiut College of Medicine at Al-Azhar university, Egypt. He completed his Doctorate in Department of Audiology in Assiut University. He perform different vestibular rehabilitation exercise.

M-Basel Alassi

Medcare Hospital, UAE

Presentation Title: The Sensitivity and Specificity of the Extratympanic Electrocochleography (ECochG) in Meniere's disease

Dr. M-Basel Alassi has completed his Master Degree in Otorhinolaryngology Head & Neck Surgery from Aleppo University, Syria in 2011 and got a Professional Diploma in Advanced Vestibular Sciences from University of Sharjah, United Arab Emirates in 2018. He did also a 3 years training with La Sapienza University of Rome, Italy from 2007-2009 in Occupational Medicine He practiced in Syria as an Otolaryngologist, and he is practicing now as an Otolaryngology Specialist in Medcare Hospital in Duabi, United Arab Emirates since 2016. He has published 2 papers in Aleppo University Medical journal.

Nir Avrameto

Bnai-Zion Medical Center, Israel

Presentation Title: Is there a Reasonable Body of Evidence to Discard Mandatory Brain Imaging in Acute Mastoiditis? A Meta-analysis

Dr.Nir Avrameto is 3rd year Resident physician at Bnai-Zion Medical center in Haifa - Israel. Department of Otorhinolaryngology Head and Neck Surgery, affiliated with The Ruth and Bruce Rappaport Faculty of Medicine at the Technion (Israel Institute of Technology) Clinical tutor of medical students at their rotations in ENT. Graduated medical school from Sapienza university of Rome, La Facoltà di Medicina e chirurgia at 2013. Achieved his medical license in Italy at 2014 and in Israel at 2015. 2014 – Internship at Policlinico Umberto I hospital of Rome affiliated to the Faculty of Medicine and Surgery at the Sapienza Università di Roma, Italy.

Abdul Juratli

Leicester Uni- versity Hospitals, UAE

Presentation Title: Twisted nose & Valvuloplasty New classification

Dr. Juratli is a fellow to the Royal College of Surgeons of England; he carries the intercollegiate fellowship degree for the four Royal College of Surgeons of UK & Ireland. Dr. Juratli worked as a Consultant Otorhinolaryngologist, Head and Neck Surgeon at University Hospitals of Leicester, UK. Leicester Royal Infirmary "LRI" for 12 years from the 5th of January 2004 until the 1st of May 2016. He was one of the lecturers and examiners in the final OSCE exam at Leicester Medical School. Dr. Juratli also worked as an Associate professor and examiner at Damascus University and Al Moasat Hospital between 1995 and 2003.

S.K.Kashyap

M.L.B Medical college, India

Presentation Title: Various types of ossiculoplasty with sculptured Spine of Henle

Professor Dr. S.K.Kashyap is specialized in field of Otorhinolaryngology, head, neck and Skull base surgery with a very vast experience. He is currently heading the chair as the Head of department of ENT and Head Neck surgery at M.L.B. Medical College, Jhansi, India.

Md. Abdus Sattar

BSM Medical University,Bangladesh.

Presentation Title: Carcinoma of Unknown Primary (CUP) - Does Outcome vary in searching primary by conventional method compared with standard guideline?

Dr. Mohammed Abdus Sattar is Associate Professor Head-Neck Division Department of Otolaryngology & Head-Neck Surgery at BSM Medical University, Dhaka, Bangladesh.

He is an active member of Social Welfare Secretary- Bangladesh Society of Head-Neck Surgeons. He did his M.B.B.S in 1995 Sir Salimullah Medical College, Dhaka,Bangladesh.

Sunil J

Kerala ENT Research, India

Presentation Title: Coblation vs Conventional Thyroidectomy

Dr Sunil J completed MS from Madras Medical College in the year 2001, and started working in the District hospital at Kollam, Kerala. By 2006, completed fellowship in Rhinology from Adelaide, Australia under Prof. P J Wormald. By 2007, he started a hospital specializing exclusively in ENT named Kerala ENT Research Foundation (KERF). He is specialized in Rhinology, and has vast experiences in Otology, Laryngology and Head and Neck Surgeries. He has also conducted various Live Surgical workshop and hands on Temporal bone workshops under the wings of KERF. It has become one of the Pioneer ENT center in South India now.

Vidya Bhushan R

Mazumdar Shaw Cancer Centre, India.

Presentation Title: ENDOSCOPE-ASSISTED APPROACH TO INFRA-TEMPORAL FOSSA CLEARANCE IN HEAD AND NECK CANCER – TECHNIQUE AND ONCOLOGICAL OUTCOMES

Dr Vidya Bhushan R finished his MBBS and MS – ENT, Head and Neck Surgery from St. Johns Medical College, Bangalore India in 2014. With his keen interest in Head and Neck Oncology, he pursued Fellowship in Head and Neck Surgical Oncology in Mazumdar Shaw cancer Centre. Thereafter, he was trained in Endoscopic Skull base surgery from Christian medical college, Vellore. Presently he is practicing as consultant in Mazumdar Shaw cancer Centre, Bangalore India. His area of specialization is Endoscopic Skull Base OncoSurgery.

Sekhar Bandyopadhyay

N.B.Medical College & Hospital, India

Presentation Title: Paeditric Aerodigestive Foreign Bodies: 10 Year Retrospective Study in a Tertiary Care Hospital

DR. Sekhar Bandyopadhyay is working at Specialist Medical Officer, Deptt.Of Otolaryngology, N.B.Medical College & Hospital, Darjeeling, India. He completed his MBBS in Calcutta University in 1985. His special interest is Otology, Thyroid Surgery, Bronchoscopy & Oesophagoscopy

Ashwini Shenoy
Sri Ramachandra medical college and research Institute, India.

Presentation Title: DECODING VESTIBULAR MIGRAINE FOR EASIER DIAGNOSIS

Ashwini Shenoy is an ENT specialist with keen interest in balance. She was in-charge of the neurootology clinic at St John's Medical college Bangalore India and then moved on to Sri Ramachandra Medical College & Research Chennai , India Institute where she established the balance clinic in 2014. She has been invited faculty to national neurootology conferences across India. She currently is a clinical fellow in ENT working with the Pennine Acute Trust, Manchester, UK

SAMEER ALI BAFAQEEH
King Saud University, Saudi Arabia.

Presentation Title: Long-term result of middle vault reconstruction after hump reduction

Mr. SAMEER ALI BAFAQEEH is a university professor in King Saud University, College of Medicine, Otolaryngology Department, Past Program director of KSU Facial Plastic fellowship, Facial Plastic Division Chairman & Chairman annual international Rhinoplasty & Otoplasty courses. Received higher surgical training from University Hospital of George August (Gottingen West Germany), He has trained as a clinical fellow in facial plastic surgery in Oregon Health Sciences University (Portland, Oregon, USA) Under supervision of Prof. Ted Cook. He has invited for lectures in various national & international facial plastic surgery meetings and published many scientific papers as well as authored chapters related to facial plastic surgery in reference books.

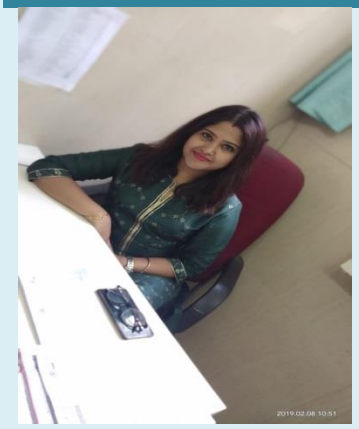

SAMEER ALI BAFAQEEH
King Saud University, Saudi Arabia.

Presentation Title:Avoiding Frequent Rhinoplasty complications and surgical solutions.

Mr. SAMEER ALI BAFAQEEH is a university professor in King Saud University, College of Medicine, Otolaryngology Department, Past Program director of KSU Facial Plastic fellowship, Facial Plastic Division Chairman & Chairman annual international Rhinoplasty & Otoplasty courses. Received higher surgical training from University Hospital of George August (Gottingen West Germany), He has trained as a clinical fellow in facial plastic surgery in Oregon Health Sciences University (Portland, Oregon, USA) Under supervision of Prof. Ted Cook. He has invited for lectures in various national & international facial plastic surgery meetings and published many scientific papers as well as authored chapters related to facial plastic surgery in reference books.

Alfiya Ray
Priocare Health Services LLP,India.

Presentation Title: TEAM APPROACH IN REHABILITATION OF INFANTS WITH SPEECH AND HEARING IMPAIRMENT

Mrs.Alfiya Ray- SLP and Audiologist Consultant at Ovum hospital,Koshys hospital,Vikram hospital and Hosmat hospital.Bangalore. A qualified Speech and Language Pathologist with more than 4 years of experience in the field of speech and language pathology. A first rank holder and gold medalist from Bangalore University in the year 2015 for her excellent performance in the academic programme.

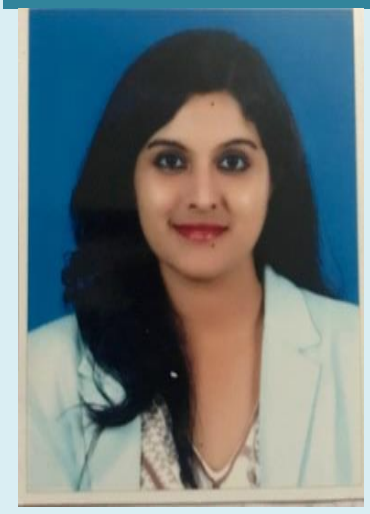

Rashmika Rajendran
Sri Ramachandra Institute of Higher Education and Research, India.

Presentation Title: Expression of marker PAK1 in sinonasal polyposis

Dr.Rashmika Rajendran is a final year postgraduate student in Sri Ramachandra Medical College and Research Institute, Chennai. She is interested in head and neck surgery and is keen in pursuing research. She was the coordinator for the Tamil Nadu Chief Minister Cochlear Implant Scheme for 2.5 years with more than 50 children aged 1-6 benefiting. She has won the Best Paper award in the Regional Meeting of Association of Otolaryngologists of India.

Deepthi NS
Sri Ramachandra Institute of Higher Education and Research, India.

Presentation Title: CLINICAL OUTCOMES IN MIDDLE EAR RECONSTRUCTION WITH AND WITHOUT TENSOR TYMPANI TENOTOMY - A COMPARATIVE STUDY

Dr Deepthi NS is currently a final year MS ENT Head and Neck Surgery post graduate student in Sri Ramachandra Medical College and Research, India. She has a keen aptitude for medical research and has been working towards developing recent advances in technical skills through her research in the institute of current interest. She also has strong oratory skills and has won several accolades in her past endeavors in the past as an undergraduate medical student. She has presented several papers and poster at national and regional conferences and is also the budding author of several papers for review in international journals. She also has served as the organizing administrator for conducting workshops at her alma mater from 2017 to 2019.

Ishita Grotra
Sri Ramachandra Institute of Higher Education and Research, India.

Presentation Title: A MICROBIAL STUDY ON TRACHEOSTOMY TUBES AND ITS CLINICAL CORRELATION-A HOSPITAL BASED STUDY

Ishita Grotra is a final year MS ENT resident at Sri Ramachandra Institute of Higher Education and Research. She has a keen interest in Paediatric Otorhinolaryngology and airway disorders. She has presented several research papers in national conferences and has also received the best paper award at Indian Association for Surgeons for Sleep Apnoea in March 2018. She has served as an organising secretary for hands on dissection workshop held at her alma mater in 2019.

Sashikanth. Jonnalagadda
American Oncology Institute,India.

Presentation Title: Tubed supraclavicular flap reconstruction of total pharyngectomy defects for carcinoma hypopharynx

Dr. Sashikanth. Jonnalagadda has completed M.S (ENT) from Bangalore Medical College in 2005. Later he received Clinical Fellowship training in Rhinology at Lahey clinic, Boston, Massachusetts, (USA) and Clinical fellowship in Head and Neck surgery from Southern Illinois University, Springfield, Illinois (USA). Since 2012 he is working as Consultant and Head, Department of Head and Neck Oncology and ENT in American Oncology Institute, Hyderabad, India. His interests include Thyroid and parathyroid surgeries, Reconstruction in head and neck and endoscopic skull base surgery.

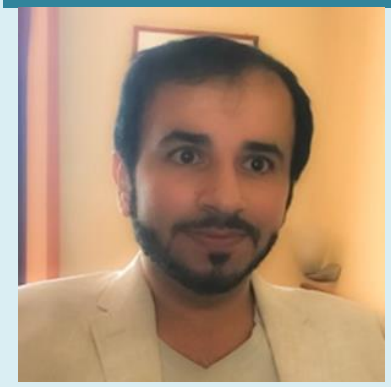

Marina Budkovaia Aleksandrovna
St. Petersburg Research Institute of Ear, Throat and Speech, Russia.

Presentation Title: Nasal obstruction: a modern view of the problem

Marina Budkovaia Aleksandrovna is specialized in otorhinolaryngology. She deals with the diagnosis, conservative and surgical treatment of patients with pathology of the upper respiratory tract. She is now working in the department of development and implementation of high-tech methods of treatment of the St. Petersburg Research Institute of Ear, Throat and Speech.

Mohamed A. Al-Ali
UAE University, UAE.

Presentation Title: A rare case of Camel bite to the face resulting in injuries to parotid duct, facial nerve, and globe

Dr. Mohamed Al-Ali has completed his residency training in Otolaryngology, Head & Neck Surgery from the Sahlgrenska University Hospital, the University of Gothenburg, Sweden in 2014. He is a fellow of the European Board of Otolaryngology- Head and Neck Surgery. He works as an Assistant Professor at the department of Surgery/ Otolaryngology, College of Medicine and Heath Sciences, UAE University. He is a consultant Otolarngologist in Al Ain Hospital, Abu Dhabi, UAE.

Tejaswini Patel
Narayana Health City, India.

Presentation Title: Vestibular Profile in Auditory Neuropathy Spectrum Disorder (Ansd)

Dr.Tejaswini Patel is an ENT surgeon who has done a fellowship in Audio-vestibular medicine and is very passationately pursuing neurotology. She has given talks on Neurotology in various National and International forums. She is currently working as a consultant Neurotologist at Narayana Health City, Bangalore, India.

Usha Manjunatha
Kasturba Medical College, India.

Presentation Title: Immediate effects of Ocean breathing on aerodynamic, acoustic and self-perception parameters of voice in professional voice users

Dr. Usha M, Speech Language Pathologist currently pursuing PhD final year in Manipal Academy of Higher Education, Manipal, India. I have completed my graduation in Speech and Hearing, and Post graduation in Speech Language Pathology form All India Institute of Speech and Hearing, Mysore, India in 2015. I am a certified yoga practitioner and my area of interest being Voice & its Disorders, currently working on a Department of Science and Technology project – “Effects of Yoga and Pranayama on voice”. Also working in the field of voice rehabilitation for professional voice users with hyperfunctional voice disorders. I have got three international publications in this field and have presented more research works in national and international conferences and symposiums. Also have delivered talks on importance of Yoga-Pranayama and its therapeutic effects in the field of Speech and Hearing.

Sara Rostami
Imam Ali Hospital, Iran.

Presentation Title: Comparison of brain CT angiography/venography and temporal bone HRCT scan findings in patients with subjective pulsatile tinnitus in affected side and unaffected side

Dr.Sara Rostami is specialized in ear,nose & throat and head&neck surgery. interested in Otology.working at Imam Ali Hospital as ENT surgeon.

Pournima Wagh
Pennine Acute NHS trust, UK .

Presentation Title: A study of hearing loss among hyperbilirubinaemic neonates.

Dr Pournima Wagh completed her postgraduate qualification in ENT from B.J. Medical College and Sassoon Hospital, Pune, India. She then did her senior residency in IGGMC, Nagpur after which she was working in a private hospital as and junior consultant for a year. She moved to the UK in September 2018, to pursue Mch Rhinology and Facial Plastic Surgery from Edge Hill University and at present is working as a Clinical fellow in ENT in Pennine Acute NHS trust.

Giannecchini, Taísa
University of São Paulo, Brazil

Presentation Title: Oromyofunctional Management of Allergic Patient after Adenoidectomy

Dr. Giannecchini, Taísa is a Clinical Speech-Language Pathologist, PhD in Speech-Language Pathology and Audiology, PhD in Speech-Language Pathology - Speech Disorders - University of São Paulo, Campus Bauru, and expert in Language by the Federal Council of Speech Therapy - Brazil, professor of improvement and specialization courses in several centers in Brazil and Portugal.

Rosario sano
Polyclinic Mendez Gimón, Venezuela

Presentation Title: VOCAL FOLD LEUCOPLAKYA : WHAT TO DO ?

Dr.Rosario sano is working in a department of otorhinolaryngology at Polyclinic Mendez Gimón. She is a vice President of the Board of Directors of the Venezuelan Society of Otolaryngology and Teaching Coordinator of the ORL Postgraduate Hospital Vargas de Caracas. She is a specialist doctor in otorhinolaryngology and head and neck surgery graduated from the post graduate university of Ent of the central university of Venezuela, hospital dr. domingo luciani

Nikhil J
All India Institute of Speech and Hearing,India

Presentation Title: (Central) Auditory Processing tests and importance of considering factors like Diurnal changes to Audiological test findings.

Nikhil J is specialized in Audiology, and has vast experience in the field of Audiology and Vestibular science. He has contributed to vast majority of population suffering from hearing and vestibular science. His prime focus recently has been in the area of Central Auditory Processing and is currently working as Audiologist Grade 1 at All India Institute of Speech and Hearing, India. He is currently working on bringing the importance of Central Auditory Processing tests and integrating it to Neuro-Audiology and how brain processes Speech. He has various national and international publications to his name.

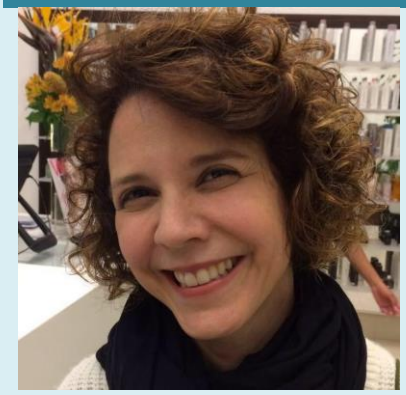

Srijan Sharma
North Delhi Municipal Corporation Medical College & Hindu Rao Hospital, India

Presentation Title: Importance of Tumor Thickness in Assessing Nodal Metastasis in Oral Cavity Malignancy

Dr. Srijan Sharma is an ENT surgeon, completed his DLO and DNB degrees from 2 different medical colleges. After his post graduation, he has worked in BARC Hospital , where he was involved in teaching post graduate student. Currently, working in North Delhi Municipal Corporation Medical College, where he is involved in teaching undergraduate students.

Roseane Rebelo S. Meira
University of Campinas, Brazil.

Presentation Title: The Impact of Gastroesophageal Reflux on Breastfeeding and the Development of Oral Functions

Dr Roseane Rebelo S. Meira is a speechtherapist specialized in swallowing disorders with several international courses. She has been seeing baby pacients for 27 years with large experience in breastfeeding and cheewing issues. She has been teaching in neonatology courses for speechtherapists for 15 years, contributing to the training of new professionals.

Sandra Nunes Alves Viacelli
Federal University of São Paulo, Brazil

Presentation Title: Evaluation and acoustically-controlled auditory training of school children with central auditory processing disorder

Dr.Sandra Nunes Alves Viacelli, speech-languagepathologist (Faculdade Nossa Senhora de Fátima), specialist in Audiology (Federal Councilof Speech Therapy). Specialization in Audiology (UNIFESP_EPM), Master in Otorhinolaryngology Sciences (UNIFESP_EPM), PhD student by the Human Communication Disorders Program of UNIFESP_EPM.SENA Speech Therapist.Professor of the Language Specialization Course (FaculdadeFiNAMA).Coordinator and professor of the Improvement in Auditory Processing Course (FonoCursos Brasília).Coordinator and professor of the Extension Course in Auditory Rehabilitation (Fonoaudiálogo). Researcher of central and visual auditory functions.Audiological Services in Clinical Audiology: evaluation of Central Auditory Processing, Auditory Rehabilitation (hearing aids, acoustically controlled auditory training), Visual Processing, Audiological evaluation of infants, children and adults.

Manisha Choudhury
Amity University Haryana, India.

Presentation Title: IMPACT ON QUALITY OF LIFE AMONG OLDER ADULTS WITH TINNITUS IN INDIAN CONTEXT.

Ms. Manisha Choudhury is specialized is an Audiologist and Speech Language Pathologist currently working as Assistant Professor at Amity University Haryana (India), and has quite a few experiences of cochlear implant mapping along with several audiological rehabilitation services . She also contributed in diagnosis and treatment of pediatric and geriatric hearing impaired and neurogenic communication disorder population.

Manisha Choudhury
Amity University Haryana, India.

Presentation Title: PSYCHOSOCIAL IMPACT OF HEARING LOSS ON ADULTS USING HEARING AIDS AND SIGN LANGUAGE USERS-ICF FRAMEWORK.

Ms. Manisha Choudhury is specialized is an Audiologist and Speech Language Pathologist currently working as Assistant Professor at Amity University Haryana (India), and has quite a few experiences of cochlear implant mapping along with several audiological rehabilitation services . She also contributed in diagnosis and treatment of pediatric and geriatric hearing impaired and neurogenic communication disorder population.

George Kuruvilla
Lourdes Hospital, India.

Presentation Title: PEDIATRIC SLEEP QUESTIONNAIRE AS A SCREENING TOOL TO PREDICT SURGICAL INTERVENTION IN PEDIATRIC SLEEP RELATED BREATHING DISORDERS – A PROSPECTIVE STUDY
