INVITATION

Dear Attendees,

We are glad to announce the Global Summit on Environmental Health to be held in during October 10-11, 2022 in Stockholm, Sweden organized by Conference series LLC Ltd in collaboration with generous support and cooperation from enthusiastic academicians and editorial board members.

This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Environmental Sciences like Global warming, Environmental pollution, Environmental toxicology, Pollution research, Environmental hazards, Environmental economics, Biodiversity, Health care management, Environmental health and toxicology, Ecology conservation, Doctors & Experts in Environmental health, biologists, ecologists, biochemists, Researchers, students and delegates and Entrepreneurs Investment Meet. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts. Life is full of give and take. Make it count in your professional life. Attend the Environmental Health to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to our Conference!

Sincerely,
Environmental Health 2022
Organizing Committee

ABOUT VENUE

STOCKHOLM, SWEDEN

Stockholm, the capital of Sweden, includes 14 islands and more than 50 bridges on an extensive Baltic Sea archipelago. The cobblestone streets and ochre-colored buildings of Gamla Stan (the old town) are household to the 13th-century Storkyrkan Cathedral, the Kungliga Slottet Royal Palace and the Nobel Museum, which emphases on the Nobel Prize. Ferries and tourism boats shuttle passengers between the islands. Stockholm's location looks in Norse sagas as Agnafit, and in Heimskringla in fitting together with the legendary king Agne. The earliest written mention of the term Stockholm dates from 1252, by which time the mines in Bergslagen completed it an important site in the iron trade. The first part of the name (stock) capitals log in Swedish, although it may also be connected to an old German word (Stock) denotes fortification. The second part of the name (holm) means islet and is supposed to refer to the islet Helgeandsholmen in central Stockholm.

Stockholm is famed for its iconic city hall, the world's major open-air museum and the fabulous Abba museum. But there are amply of little-known facts about this city that even some locals might not be aware of – including an unusual story about Frank Zappa. Stockholm is a very safe home with low levels of petty crime, and even lower levels of serious crime. It's one of the harmless capital cities in all of Europe.

What are 5 interesting facts about Sweden?

Swedes have a whopping 480 paid parental days off.

Sweden is the 4th largest country in Europe by land area.

Same sex relationships have been legalised since 1944.

Sweden is the 6th oldest country in Europe.

North Korea has an unpaid 2.7 billion SEK debt to Sweden.
