3RD INTERNATIONAL CONFERENCE ON
ENZYMOLOGY AND
MOLECULAR BIOLOGY
March 05-06, 2018 // London, UK

3rd International Conference on

Enzymology and Molecular Biology

London, UK

March 05-06, 2018

enzymology@conferenceseries.net

Enzymology & Mol. Biology 2018

Market Analysis Report of Enzymology:

The global enzymes market size was USD 8.18 billion in 2015 and is expected to witness significant growth over the next eight years on account of its increasing application in detergents, pharmaceuticals, and food & beverages.

Enzymes market is projected to show high gains in light of its extensive usage in food processing, germination in breweries, pre-digestion of baby food, fruit juice clarification, meat tenderization, cheese manufacturing, and conversion of starch into glucose. Also, favourable government policies by the U.S., Austria, France, Germany, Italy and Sweden to promote biodiesel production will fuel demand over the next eight years.

Growing product demand in various applications including paper, biofuels, rubber, photography, biological detergents, contact lens cleaners and molecular biology will promote industry expansion over the next eight years.

Increasing consumer awareness regarding the improved quality of food coupled with high population base and their dietary requirements is expected to create immense market potential over the next few years. Growing forensic and molecular biological research in the U.S. is projected to fuel the product demand over the next eight years.

The market for food enzymes is projected to reach USD 2.94 Billion by 2021, at a CAGR of about 7.4% from 2016. This market is fuelled by the growing awareness among consumers toward the health and nutritional benefits of food enzymes and the growth of end-use applications of food enzymes in the food and beverage industry.

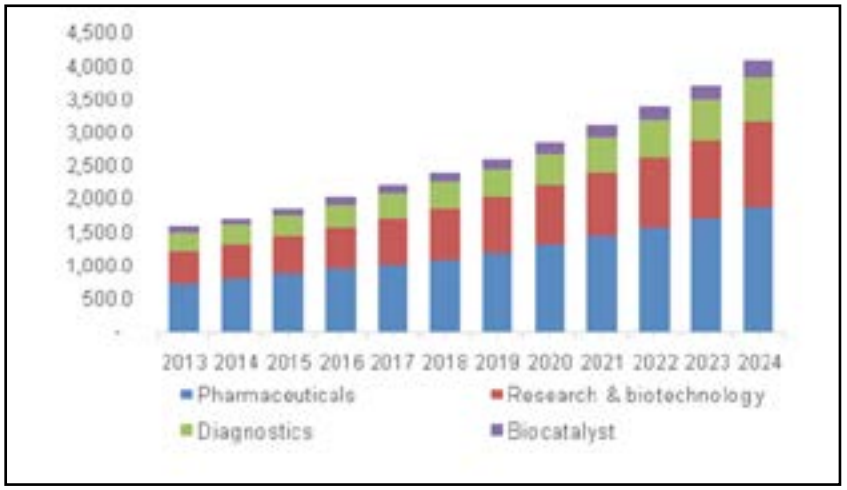

The technical enzymes market is projected to reach USD 1.27 Billion by 2021, at a CAGR of 3.4% from 2016 to

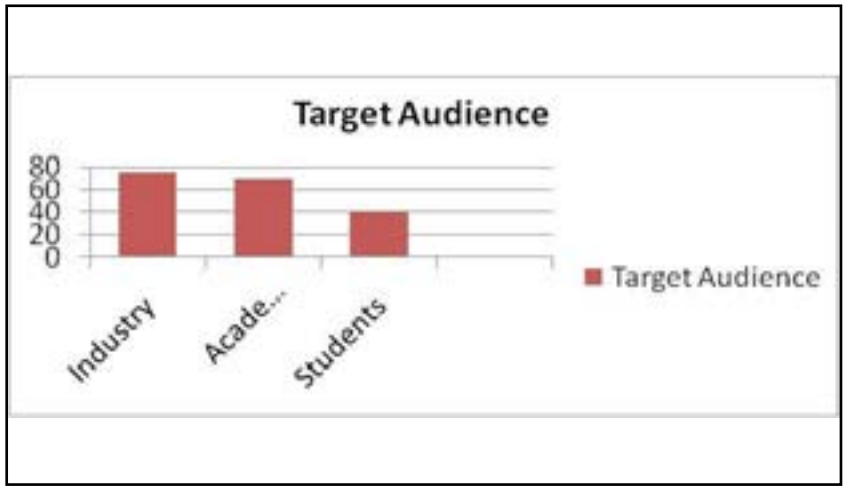

Continuation:

2021. The technical enzymes market is also segmented on the basis of region into North America, Europe, Asia-Pacific, and the Rest of the World (RoW).

The key players in the market are BASF SE (Germany), E.I. du Pont de Nemours and Company (U.S.), Associated British Foods plc (U.K.), Koninklijke DSM N.V (The Netherlands), and Novozymes A/S (Germany) among others. The industrial enzymes market was valued at USD 4.2 Billion in 2014 and is projected to grow at a CAGR of 7.0% from 2015 to 2020. In 2014, the market was dominated by North America. The Asia-Pacific region is projected to grow at the highest CAGR from 2015 to 2020.

Target Audience of Enzymology

Invitation

Dear Attendees,

We are glad to announce the **3rd International Conference on Enzymology & Molecular Biology** to be held in **London, UK** from **March 05-06, 2018** organized by **Conference Series LLC,** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia,Researchers, Innovators, Regulators – coming together to present and discuss current topics in Recombinant DNA Technology, Epigenetics, Enzymology & Biochemistry, Enzyme Kinetics, Clinical Enzymology, Structural Enzymology, Molecular Enzymology, Enzymology in Drug Discovery, Computational Enzymology, Industrial Applications of Enzymology, Enzymology & Thermodynamics

Industrial fermentation processes for enzymes and Enzymology in Food Processing & Technology.

As the arch event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Join the Enzymology & Mol. Biology 2018 Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level..

We look forward to personally welcoming you to **London** this March.

Sincerely,
Enzymology & Mol. Biology 2018
Organizing Committee

About Us

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+** facebook Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- **Robust on-line publicity** for all the speakers and organizing committee members
- **Career Guidance** Workshops for students and early career researchers
- **Accepted Abstracts** will be published in various **indexed journals**
- **Accepted abstracts** will be labeled with a **Digital Object Identification Number** (DOI) provided by **Cross Ref**
- **Creation** of speakers and abstracts pages in Google
- **Opportunity** to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be published inrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Enzymology & Mol. Biology 2018 Conference website is attracting **25000+** Enzymologists, Biochemists online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Enzymology & Mol. Biology 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

Purpose

3rd International Conference on Enzymology and Molecular Biology is an arena for interdisciplinary exchange among professionals in the fields of Enzymology & Molecular Biology.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference are to provide a transformative professional development experience through “Disentangling diversity in complex enzymes”.
- Bringing together the world’s scientific experts to catalyse and advance scientific knowledge about enzymology and molecular biology present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Enzymology & Molecular Biology
- Discuss and apply recent research findings related to Enzymology & Molecular Biology
- Reflect on the place of critical distance in Enzymology & Molecular Biology

About Conference

Who should attend

3rd International Conference on Enzymology and Molecular Biology is exclusively designed for Enzymologists, Molecular Biologists, Biochemists, Research Directors, Pharmacists, attorneys, philosophers and others engaged in endeavours related to Enzymology & Molecular Biology research and business.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies.** All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the **DOI** provided by Crossref

Major sessions

- Enzymology & Biochemistry
- Molecular Enzymology
- Clinical Enzymology
- Structural Enzymology
- Recombinant DNA Technology
- Epigenetics
- Enzyme Kinetics
- Enzymology in Drug Discovery
- Computational Enzymology
- Industrial Applications of Enzymology
- Enzymology & Thermodynamics
- Industrial fermentation processes for enzymes
- Enzymology in Food Processing & Technology

About Conference

Supporting Journals

- Journal of Enzyme Engineering
- Journal of Proteomics & Bioinformatics
- Journal of Transcriptomics
- Journal of Molecular Biology
- Journal of Metabolomics

Reminiscence of Previous Conferences

About London

London is the capital city of England and the United Kingdom. It is the most populous city in the United Kingdom with a metropolitan area of over 13 million inhabitants. Standing on the River Thames, London has been a major settlement for two millennia. London has a diverse range of peoples and cultures, and more than 300 languages are spoken within Greater London. London is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transport all contributing to its prominence., London became a Centre for the worldwide youth culture, exemplified by the Swinging London subculture associated with the Kings Road, Chelsea and Carna by Street. London is the seat of the Government of the United Kingdom. The city is split by the River Thames into North and South, with an informal central London area in its interior. London has a temperate oceanic climate, similar to much of southern Britain. The Monument in the City of London provides views of the surrounding area while commemorating the Great Fire of London, which originated nearby. With increasing industrialization, London population grew rapidly throughout the 19th and early 20th centuries, and it was for some time in the late 19th and early 20th centuries the most populous city in the world until overtaken by New York City in 1925. London is the most populous city and metropolitan area of the European Union and the second most populous in Europe.
