B2B Meetings

Dear Attendees,

We are glad to announce the 4th International Congress on Epigenetics & Chromatin at London, UK during September 03-05, 2018 organized by Conference Series llc LTD in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. The live format of this educational activity will be accredited with CME and CPD Credits.

This conference provides “the focal hub” for people to present their research and exchange ideas in a European venue. The organizing team assembles top speakers covering the latest advances in the field, incorporating diversity in every sense (gender, geography etc.).

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Epigenetics 2018 Congress to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to London this September.

Sincerely,
Epigenetics 2018
Organizing Committee

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be
published inrespective Conference Series llc LTD Journals
Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Epigenetics 2018 Conference website is attracting 25000+ Epigenetics, Genetics, Cancer Science Professionals, Drug Discovery/Development Scientists, Molecular Biologists, Principal Investigators, Cell Biologists, CEO's and R&D Heads from Industries, Directors, Head of office, Professors and Students from Academia in the exploration of Genetics and Cancer Sciences online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Epigenetics 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- Laudable talks by the choice of the worldwide academic group
- Sterling workshop sessions
- Remarkable Awards and Global Recognition to worthy Researchers
- Global Networking with 50+ Countries
- Novel Techniques to Benefit Your Research
- Global Business and Networking Opportunities
- Exquisite Platform for showcasing your items and International Sponsorship

B2B Meetings

Epigenetics 2018

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Epigenetics, Genetics and Cancer Sciences
- Discuss and apply recent research findings related to Epigenetics, Genetics and Cancer Sciences
- Reflect on the place of critical distance in Epigenetics, Genetics and Cancer Sciences

Who should attend

Epigenetics Conference is a novel discussion to unite overall recognized scholastics in the field of Genetics, Genomics and Proteomics Researchers, Public wellbeing experts, Scientists, Academic researchers, Industry specialists, Scholars to trade about condition of the Research and Development. Point of this gathering is to fortify new views for treatment that will be valuable over the range of Epigenetics. A Unique Opportunity for Advertisers and Sponsors at this International occasion.

Target Audience

Business delegates, Industrial Leaders, Drug Discovery/Development Scientists, Molecular Biologists, Principal Investigators, Cell Biologists, CEO's and R&D Heads from Industries, Directors, Head of office, Professors and Students from Academia in the exploration of Genetics..

About hosting organization

Conference Series llc LTD is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

Epigenetics 2018

Past Conference Glimpse

Epigenetics 2017 | Nov 6-8, 2017 | Frankfurt, Germany

With the unique feedbacks from our past conference, we would like to announce the commencement of the 4th International Congress on Epigenetics & Chromatin during September 03-05, 2018 at London, UK

Theme: Epigenetics: The Science of Change

Ageing, Animal, Cancer, Cardio, Environment, Forensic, Genetics, Medical, Neuroscience, Plant, Reproductive

The analysis of the conference evaluation forms shows that the event was very well received as a valuable and stimulating.

The majority of delegates who completed the conference evaluation forms rated the conference as a whole as “excellent” or “very good”.

The conference was initiated with the Honorable presence of the Keynote forum. The list includes:

David S Schrump, National Cancer Institute, USA

Identification of novel epigenetic targets in lung cancer using an induced pluripotent stem cell model

Kari Stefansson, deCODE genetics, Iceland

The epigenetics of common diseases

Alyssa Alabassi, Royal College of Surgeons of Edinburgh, UK

Reporting from the field; how epigenetics, genomics, big data and predictive analysis technology are impacting the everyday practice of healthcare

Bernd Kaina, University Medical Center, Germany

Transcriptional and epigenetic regulation of DNA repair

Mario Bauer, Helmholtz Centre for Environmental Research– UFZ, Germany

Cell type-specific methylation pattern: A chance to minimize cohorts for epigenome-wide studies

Albert Jeltsch, University of Stuttgart, Germany

Setting of DNA methylation – biological and technical approaches

All the presentations were rated “excellent” by the majority, some attracted comments such as “great keynote”– really interesting and fascinating speaker”

The choice of venue was also very popular with the delegates: the majority rated the convenience of the location, its comfort and facilities and the catering as “excellent”

Of course, an enormous amount of effort goes into planning a conference such as this, and we owe thanks to all involved. First we are very grateful to the conference Exhibitor Sponsors **Zymo Research Corporation and Diagenode**

A special vote thanks is due to our speakers, moderators, chairs, student rapporteurs, for their contributions on the day, as well as the hard work devoted to preparing for their roles.

Discover the epigenetic innovations of the future. Learn, collaborate and be inspired.

Past Conference Glimpse

Epigenetics and Cancer 2017| Oct 26-28, 2017| Osaka, Japan

The conference was embarked with an opening ceremony followed by Keynote sessions and followed by series of lectures delivered by both Honorable Guests and members of the Keynote forum. The adepts who promulgated the theme with their exquisite talk were:

Dr. Suraiya Rasheed, University of Southern California, United States

Dr. Jenny Wang, University of New South Wales, Australia

Dr. Manal H. Al Khanbashi, Higher College of Technology, Oman

Dr. Pedro Sanchez Rovira, Xanit International Hospital, Spain

Mr. David A Ligon, Oncology Fox, United States

Dr. Atsushi Kaneda, Chiba University, Japan

Dr. Glenn Deng, Stanford University School of Medicine, United States

Dr. Ladan Teimoori-Toolabi, Molecular Medicine Department, Pasteur Institute of Iran, Iran

Dr. Sang Hyun Lee, Duke-NUS Medical School, Singapore

Dr. Jose Perez del Palacio, MEDINA Foundation, Spain

Dr. Safana Salim Al Saidi, Ministry Of Health, Muscat

Dr. In-Hye Jung, University of Ulsan College of Medicine, Seoul, South Korea

The conference was focused on learning about Oncologists with the theme “From Novel therapies to Revolutionary Strategies, Diagnosis and Treatment”. The conference mainly directs towards addressing main issues like Prevention, Diagnosis, and Treatment diseases of the Organ-related Cancers and its innovative techniques.

About London

London is the capital city of England and the United Kingdom, and the largest city, urban zone and metropolitan area in United Kingdom, and the European Union by the most measures. Located on the River Thames, London has been a major settlement for two millennia, its history going back to its founding by the Romans, who named it Londinium. It is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, profession al services, research and development, tourism and transport all contributing to its prominence. London has been described as a world cultural capital.

London has been described as a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport system measured by passenger traffic. London's 43 universities form the largest concentration of higher education in Europe. In 2012, London became the first city to host the modern Summer Olympic Games three times. A multicultural city, London has a diverse range of peoples and cultures, and more than 300 languages are spoken within its boundaries. London has four World Heritage Sites: the Tower of London, Kew Botanic Garden, the Palace of Westminster, and St Margaret's Church, National Maritime Museum, and the historic settlement of Greenwich Observatory.

Other famous landmarks are Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square, and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, they are the British Museum, National Gallery, British Library and 40 West End theatres. The Railway of London Underground is the oldest underground railway network in the world.
