8th World Congress on Epigenetics and Chromosome

November 23, 2021 | Webinar

About Conference

Epigenetics Congress 2021 invites all the participants from all over the world to attend 8th World Congress on Epigenetics and chromosome during November 23, 2021, Webinar. This congress focus on the theme "Exploring the field of Epigenetics." The main objective of this congress is to give a platform for the researchers in epigenetics and chromosome.

The Epigenetics is defined as the study of the Epigenotype, which deals with the properties of the pathways and processes that connect the genotype and Phenotype. Epigenetics Congress 2021 typically incorporates lectures, paper, and poster sessions, and panel discussions with prominent international experts and scholars. This webinar provides you with a unique opportunity to meet up with peers from both academic circle and industries level belonging to Epigenetics and have been designed in an interdisciplinary manner with a multitude of tracks to choose from every segment and it explore creative technologies regarding the role of epigenetics at the universal scale and aims to accomplish the targeted scientific sessions and recent advancements.

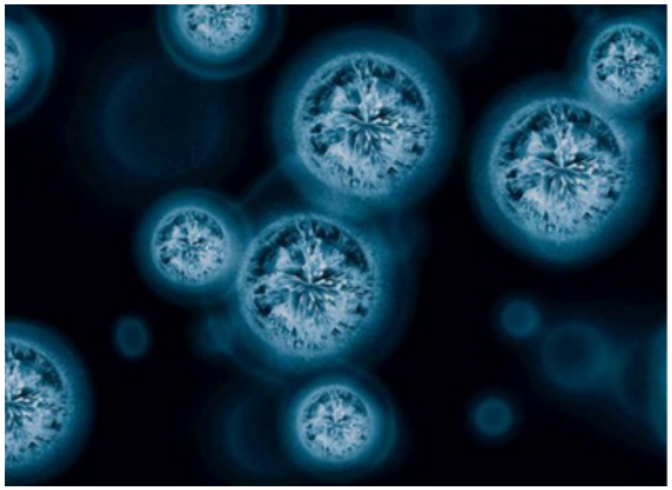

Brochure

Conference Highlights

- Epigenetics and Chromosome
- Epigenetic Disorders
- Cancer Epigenetics
- Human Genetics
- Medical genetics
- Genomics
- Chromatin and Chromosome Dynamics
- Epigenetics and Medicine
- Epigenetic Therapy
- Epigenetics in nervous system
- Cytogenetics
- Epigenetic in Aging
- Genomes and Epigenomes
- Nutriepigenomics
- Plant Epigenetics
- Transgenerational Epigenetics Inheritance

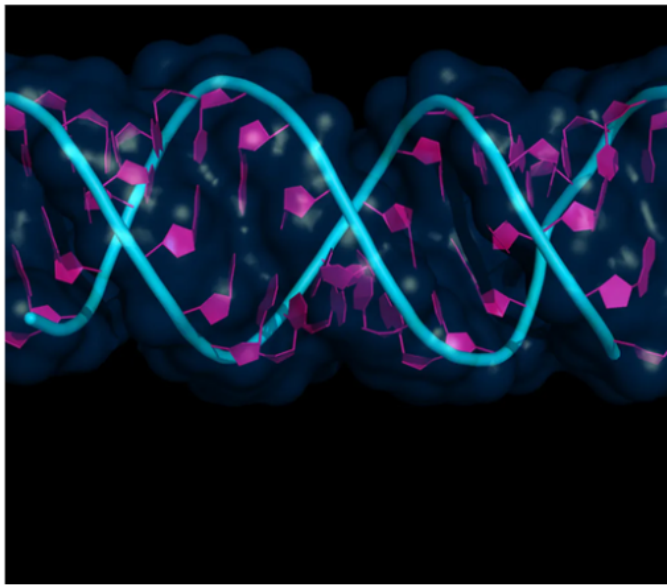

Target Audience

- Professors, Deans & Directors of Biology Universities and Institutes
- Scientists
- Biomedical companies
- Pharmaceutical companies
- Business Entrepreneurs
- Public wellbeing experts

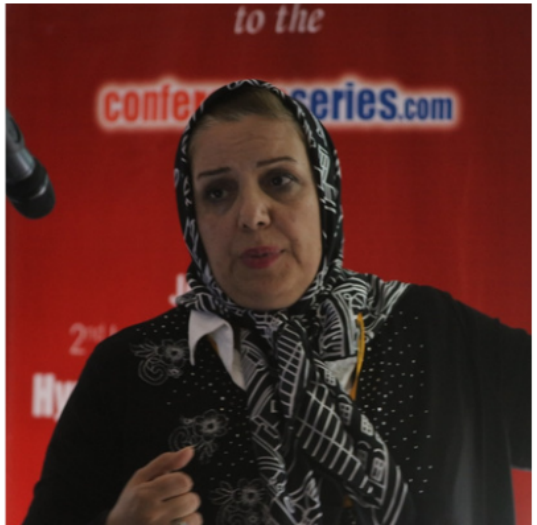

Reminiscence of Previous Conference

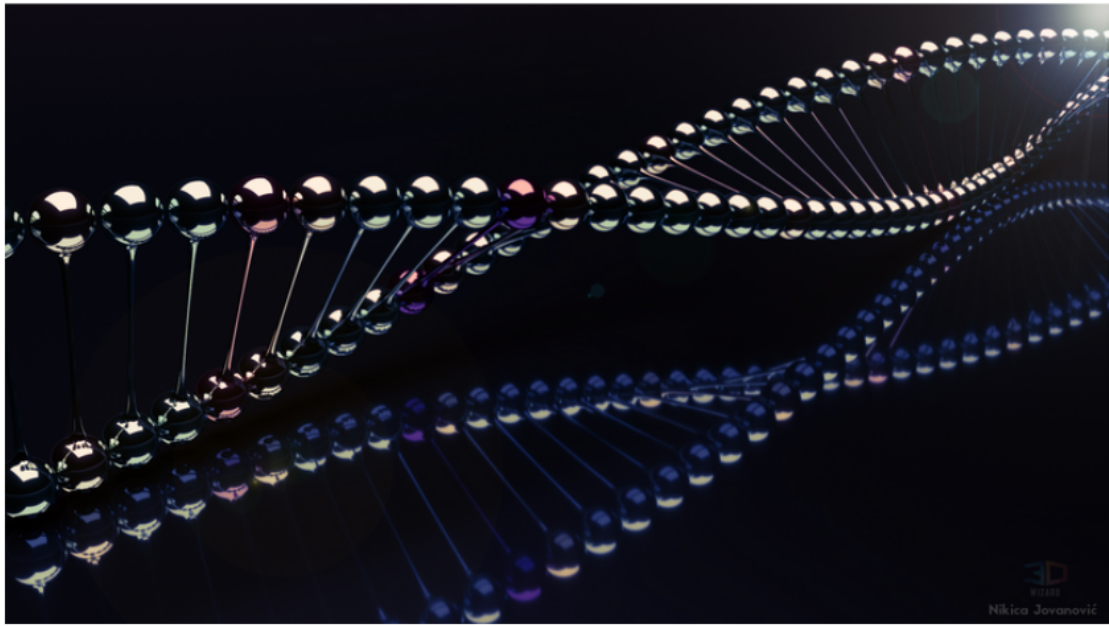

Be a Part and join us in our Webinar to explore the field of epigenetics
