# Our **Invitation**

**Dear Collegues,**

Conference Series LLC Ltd. is delighted to welcome you to Nice,France for **Euro Biomaterials 2019**.

The conference will focus on **"Advanced concepts and Frameworks for Biomaterials and Applications"**. We are confident that you will enjoy the scientific sessions of this upcoming conference.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Biomaterials Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to see you in Nice,France this March.

Sincerely,
**Euro Biomaterials 2019**

# About **Conference**

The main goal of Euro biomaterials 2019 is to spread knowledge and share the new ideas amongst professionals, industrialist and students from research backgrounds in the field of biology, chemistry ,physics, material science and engineering to share their research experiences and have an interactive sessions and discussions at this event. It is a great platform for companies as well as institutions to represent their research services, products ,innovations and Research results.

## Euro Biomaterials 2019 Salient Features.

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

## How Conference Series llc LTD Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

## Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Biomat 2019 Conference present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

## Objectives

- After participating in this meeting, attendees should be able to Discuss emerging issues in Biomaterials.
- Discuss and apply recent research findings related to Biomaterials.
- Reflect on the place of critical distance in Biomaterials.

# Vision & Plan

- Biomaterials & Nanotechnology
- Advanced Biomaterials
- Bioactive Glasses
- Biomaterials in Spinal Surgery
- Cardiovascular Biomaterials
- Metallic Biomaterials
- Orthopaedic Biomaterials
- Biomaterials in Tissue Engineering and Regenerative Medicine
- Biophotonics
- Dental Biomaterials
- Liquid Metal Biomaterials
- 3D Printing of Biomaterials

## Market Analysis of Biomaterials

There is a market growth of more than US$ 149.17 Billion by 2021 at a CAGR of 16% in the given forecast period of biomaterials global market is expected. Growing of geriatric inhabitants worldwide, increase in incidence of diseases, graft transplant surgeries; medical implants and technological advancements will drive the market growth. Adverse reactions of biomaterials and strict regulatory requirements are the hampering factors favouring the market growth. Biomaterials market includes major driving factors like increase in demand of dental demands, increase in knee and hip replacement surgeries, research interest and development of biomaterials and advancement in medical innovation. Biomaterials is also having a high demand in wound healing technology and in surgeries.

The glue market and global bone cement is predictable to achieve USD of 993.0 Million by 2022 from USD of 322.6 Million in 2017, at a CAGR of 5.9% The market development is primarily driven by the rising prevalence of sports injuries and ac

# Host **City**

Nice is the capital of Alpes-Maritimes and it is the fifth most well-liked town in France. Terra Amata, is the current area of Nice having an archaeological site which displays evidence of a very early use of fire. The strategic location and port of this area significantly contributed to its maritime strength. The Promenade des Anglais is the main seaside of the city owes its name to visitors to the resort.  The beauty of Nice can be expressed through its nickname Nice La Belle, which is also the title of the unofficial anthem of Nice, written by Menica Rondelly in 1912.  Place Masséna is the main area of the city. Prior to the Paillon River was covered over; the Pont-Neuf was the only way between the old town and the modern one. The Place Garibaldi also known for its architecture and history. It is named after Giuseppe Garibaldi, hero of the Italian unification. It has a crossroads between the Vieux Nice (old town) and the town centre. One of the finest municipal botanical garden located at 78 avenue de la corniche Fleurie, Nice.
