About the conference

The 35th Euro Dentistry Congress, taking place on June 16–17, 2026 in the magnificent city of Paris, France, is one of the most anticipated global gatherings in the field of dentistry and oral healthcare. With the visionary theme “Reimagining Global Dentistry: Innovation, Integration, and Impact,” this prestigious event serves as a multidisciplinary platform for the exchange of knowledge, expertise, and innovation in every corner of dental practice and research.

As dentistry continues to evolve in the face of emerging technologies, patient-centric care models, and global health challenges, the 35th Euro Dentistry Congress aims to drive progress by uniting thought leaders, clinicians, academics, researchers, and industry pioneers from across Europe, Asia, North America, the Middle East, and Africa. Together, we will explore cutting-edge technologies, evidence-based practices, and transformative strategies to improve oral health outcomes on a global scale.

This two-day congress will feature high-level scientific sessions, interactive panel discussions, live clinical demonstrations, and hands-on workshops, creating a dynamic environment for collaboration and professional development. Participants will delve into the latest trends in digital dentistry, laser dentistry, AI in dental diagnostics, biomaterials, 3D printing, minimally invasive procedures, and regenerative oral therapies.

Title : Reimagining Global Dentistry: Innovation, Integration, and Impact

Why to attend the conference

Attending the 35th Euro Dentistry Congress is more than just participating in a scientific event—it’s about being at the forefront of global dental innovation and shaping the future of oral healthcare. Here’s why you can’t afford to miss this world-class conference:
Cutting-Edge Knowledge & Clinical Insights
Gain exclusive access to the latest research, clinical advancements, and technological breakthroughs in modern dentistry. Learn from top-tier experts as they share real-world case studies, surgical techniques, and innovative patient management strategies.
