- Advanced Techniques involved in STDs

Host City

Milan is the capital of the Lombardy region, and the most populous metropolitan area and the second most populous commune in Italy. The population of the city proper is 1.3 million, while its urban area, with a population estimated to be about 5.5 million, is the 4th-largest in the Europe. The wider Milan metropolitan area, known as Greater Milan, is a polycentric metropolitan region of 7 to 10 million people. Milan is the main industrial and financial centre of Italy and one of global significance. In terms of GDP, it has the 2nd-largest economy among Europe cities after Paris, and the largest among European non-capital cities. Milan is considered part of the Blue Banana and lies at the heart of one of the Four Motors for Europe.

Milan is a leading global city, with strengths in the arts, commerce, design, education, entertainment, fashion, finance, healthcare, media, services, research, and tourism. Its business district hosts Italy's Stock Exchange and the headquarters of the largest national and international banks and companies. The city is a major world fashion and design capital, well known for several international events and fairs, including Milan Fashion Week and the Milan Furniture Fair.

Market Analysis:

Increasing prevalence of HIV infection worldwide will majorly boost HIV diagnostics market growth over the forecast period. HIV infection is one of the leading causes of morbidity and mortality. As per the UNAIDS's data more than 36.7 million people across the globe were living with HIV in 2017. Around 1.8 million children aged below 15 years had HIV infection. Additionally, many were infected by their HIV-positive mothers during pregnancy, child birth or breast-feeding. Growing incidences of AIDS especially in the developing and underdeveloped economies will offer several growth opportunities in HIV diagnostics resulting in industry growth.

HIV Drug Market Analysis:

Human immunodeficiency virus (HIV) is one of the most infectious diseases with around 36.7 million people suffering by the end of 2015, according to The Joint United Nations Programme on HIV/AIDS (UNAIDS). Global HIV Drug Market was valued at $20,448 million in 2015 and is expected to garner $26,458 million by 2022. In 2017 the global HIV drugs market exceeded a value of US$ 17 Billion. Looking forward, the market value is expected to reach nearly US$ 21 Billion by 2023, expanding at a CAGR of more than 3% during 2018-2023.

HIV Infected Death Rate:

7, 80, 000 people died of HIV-related illnesses worldwide in 2018. Expanded access to antiretroviral therapy (ART) and a declining incidence of HIV infections have led to a steep fall globally in the number of adults and children dying from HIV-related causes. The estimated 770 000 people dying from HIV globally in 2018 were 56% fewer than in 2004 (the peak) and 33% fewer than in 2010 in spite of a period of substantial population growth in many high burden countries.

Nevertheless, there is no room for complacency. Countries need to live up to their commitment to end the AIDS epidemic as a public health threat by 2030 - a target included in the 2030 Agenda for Sustainable Development adopted by the United Nations General Assembly in September 2015. The immediate challenge is to reach the Fast-Track targets for 2020, as HIV-related deaths are still unacceptably high.

Global Data:

Since the beginning of the HIV epidemic, more than 70 million individuals were infected approximately with the HIV and about 35 million people died of HIV. Universally, 36.9 million people are living with HIV at the end of 2017. An expected 0.8% of adults aged 15–49 years affected with HIV, although the burden of the epidemic continues to vary considerably between countries and regions. The WHO African region remains most severely affected, with nearly 1 in every 25 adults (4.1%) living with HIV and accounting for nearly two-thirds of the people living with HIV worldwide.

Sponsorship and Exposure

Diamond

- Three workshop slots (audio visual included).
- Two complimentary exhibit booths with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Four complimentary registrations
- Logo recognition on congress website front page with link, sponsorship page
- One A4 color advertisement in the congress souvenir
- Three inserts provided by the sponsor in the congress delegate bags

Platinum

- Two corporate sponsored workshop slots
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Three complimentary congress registrations
- Logo recognition on congress website front page with link and logo recognition on congress sponsorship page
- One A4 color advertisement in the congress souvenir
- Two inserts provided by the sponsor in the congress delegate bags.

Gold

- Two complimentary congress registrations
- One corporate sponsored workshop slot
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Logo recognition on congress website sponsorship page
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages)
- One insert provided by the sponsor in the congress delegate bags
- Priority to purchase additional sponsorship items

Exhibition

- One complimentary congress registration
- Set up of one tailor-made exhibit booth (Booth Size 3x3 sqm)
- Logo recognition on congress website sponsorship page
