conferenceseries.com

10th Euro-Global Conference on Infectious Diseases

September 27-29, 2018
Rome, Italy

SCIENTIFIC PROGRAM

DAY 1
Thursday, 27th September

08:30-09:00 **Registrations**

09:00-09:30 **Introduction**

09:30-09:50 COFFEE BREAK

09:50-11:50 Meeting Hall 01 **KEYNOTE LECTURES**

MEETING HALL 01

11:50-13:10 **Talks On:**

- Viral Infectious Diseases
- Bacterial Infectious Diseases
- Fungal Infectious Diseases
- Epidemiological Diseases
- Dermatological Infectious Diseases

13:10-13:15 GROUP PHOTO

13:15-14:00 LUNCH BREAK

MEETING HALL 01

14:00-16:00 **Talks On:**

- Neurological Infectious Diseases
- Respiratory Infectious Diseases
- Ophthalmological Infectious Diseases
- Heart and Cardiovascular Infectious Diseases

16:00-16:20 COFFEE BREAK

MEETING HALL 01 (16:20-17:00)

Group Discussion

DAY 2
Friday, 28th September

09:00-10:30 Meeting Hall 01 — **KEYNOTE LECTURES**

10:30-10:50 COFFEE BREAK

10:50-12:50 — **MEETING HALL 01**

Talks On:

- Pediatric Infectious Diseases
- Tropical Infectious Diseases
- Antiviral, Antibacterial, Antifungal and Antimicrobial agents
- STD And HIV infection
- Infection, Immunity and Inflammation

12:50-13:35 LUNCH BREAK

13:35-15:55 — **MEETING HALL 01**

Talks On:

- Pharmacology and Infectious Diseases
- Infectious Diseases of the Male and female Genital tract
- Communicable and Non communicable Infectious Diseases
- Veterinary Infectious Diseases

Antibiotics

15:55-16:15 COFFEE BREAK

MEETING HALL 01 (16:15-17:00)

Poster Presentations

DAY 3
Saturday, 29th September

09:00-10:30 Meeting Hall 01 — **KEYNOTE LECTURES**

10:30-10:50 COFFEE BREAK

10:50-12:50 — **MEETING HALL 01**

Talks On:

- Vaccines
- Public Health practice
- Preventing Infectious Diseases

12:50-13:35 LUNCH BREAK

13:35-15:55 — **MEETING HALL 01**

Talks On:

- Computational and systems medicine
- Market Trends of Infectious Diseases

15:55-16:15 COFFEE BREAK

Awards & Closing Ceremony

Organizing Committee Members

Stef Stienstra

Dutch Armed Forces/Royal Dutch Navy

Netherlands

Huseyin Kayadibi

Hitit University

Turkey

Fekadu Abebe

University of Oslo

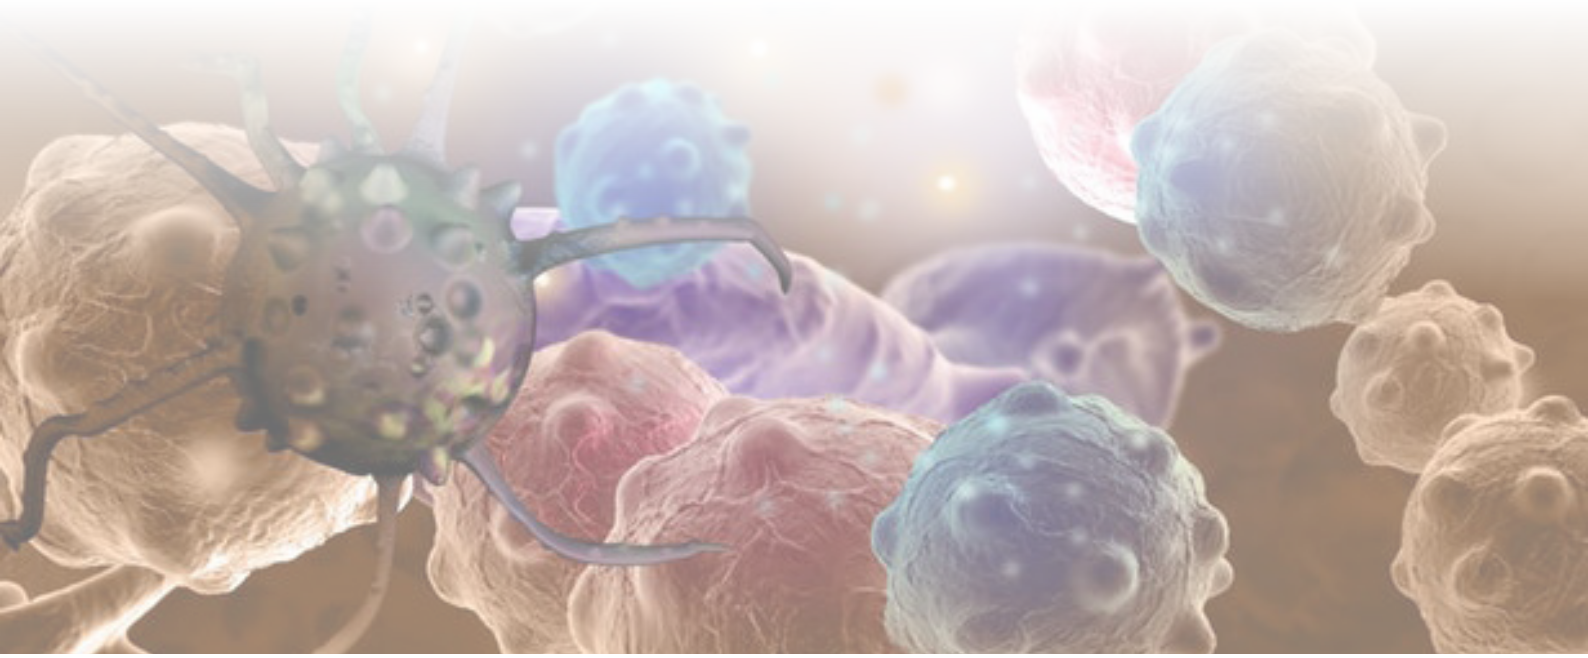

Norway

Refat Sadeq

Port said University

Egypt

Rome Attractions

Euro Infectious Diseases Reminisce

Glimpses of Euro Vaccines 2017

10th Euro Global Conference on Infectious Diseases

SEPTEMBER 27-29, 2018 | ROME, ITALY

AGENDA

Title: The economic effects of epidemics of contagious diseases, Bioterrorism and/or on the consequence management after an outbreak of a very contagious disease.

Stef Stienstra
Dutch Armed Forces
Netherlands

Dr.Stef Stienstra Works internationally for several medical and biotech companies as scientific advisory board member and is also an active reserve-officer of the Royal Dutch Navy in his rank as Commander (OF4). For the Dutch Armed Forces he is CBRNe specialist with focus on (micro) biological and chemical threats and medical- and environmental functional specialist within the 1st CMI (Civil Military Interaction) Battalion of the Dutch Armed Forces. For Expertise France he is now managing an EU CBRN CoE public health project in West Africa.

Title: The Role of Intestinal Microbiota in the Pathogenesis of Nonalcoholic Steatohepatitis

Huseyin Kayadibi
Hitit University
Turkey

Huseyin Kayadibi was born and raised in Istanbul, Turkey. He received a Degree in Medicine from the GATA School of Medicine (Turkey) in 2000. He is an Associate Professor in Medical Biochemistry at Hitit University School of Medicine, where he is the head of Medical Biochemistry. He worked at Pasarow Mass Spectrometry Laboratory, University of California Los Angeles in 2012 as a visiting scholar. He has been a co-investigator on NIH and other international projects about metabolomic, proteomic and lipidomic analysis. He is the member of EFLM Working Group Test Evaluation and IFCC Working Group Cerebrospinal Fluid Proteins.

Title: Synergy (not polarization) between Th1 and Th2 responses against Mycobacterium tuberculosis infection: evidence from an endemic setting

Fekadu Abebe
University of Oslo
Norway

Dr. Fekadu Abebe is a scientist at the Faculty of Medicine, University of Oslo, Norway. He obtained his PhD in immunology from the Department of Immunology and Transfusion Medicine, Ulleval University Hopsital, University of Oslo. After completion of his PhD training, he was employed as a postdoctoral fellow at the Faculty of Medicine, University of Oslo. He received his BSC (Biology) and MSc (Parasitology) from the Faculty of Natural Sciences, Addis Ababa University, Ethiopia. He has been a researcher and lecturer at Aklilu Lemma Institute of Pathobiology, Addis Ababa University for many years.

SPEAKER SLOTS AVAILABLE

Title: Predictors used to assess Virological Response to direct acting anti –HCV therapy treatening infections

Refat Sadeq
Port said University
Egypt

Refat Sadeq, Prof. and Head of Medical Microbiology and Immunology Department, Faculty of Medicine, Port said University, Egypt. He has been on microbiology field over 40 years. He has started and graduated in Zagazig Faculty of Medicine for M.Sc. and Ph.D.

Title: IVIG in sepsis: review article and case report of three critically ill patients with sepsis discharged in health

Reza Nejat
Bazarganan Hospital

He is Chief of Khatam-ol-Anbia Hospital, Mashhad University of Medical Sciences, 1992-1994, Taibad City, Khorasan Province, Iran. Emergency Dept of Tehranpars General Hospital 1994-2009. Emergency Dept of Iranmehr General Hospital 1997-2000. Chief of Imam Khomeini Firuzkuh Hospital, Shahid Beheshti University of Medical Sciences, 2006-2007, Firuzkuh, Tehran Province, Iran. Directing Manager of Biotourism, Consultant to Deputy of Therapeutics, Shahid Beheshti University of Medical Sciences, 2007 to March, 2008.

Title: An exploratory study of the factors influencing the acceptability of indoor residual spraying (IRS) in upper western Ghana.

Vitalis Mwinyuri
Flinders University
Australia

Vitalis Mwinyuri is a researcher whose interests span between public health promotion and rural development, with a special desire to promote empowerment through malaria control and prevention. He has considerable field experience in malaria control, specifically, on indoor residual spraying intervention. This ignited his passion to undertake further research in malaria prevention. As a young researcher, Vitalis is currently a PhD student at Flinders University, Australia where his research skills is undergoing considerable improvement.

SPEAKER SLOTS AVAILABLE

Title: Efficacy and safety of vaginally administered lyophilized Lactobacillus crispatus IP 174178 in the prevention of bacterial vaginosis recurrence

Joane Benhamou
IPRAD
France

Experienced Scientific Affairs Manager with a demonstrated history of working in the pharmaceuticals industry. Skilled in Vaccines, Oncology, Biotechnology, Medical Information Systems, and Infectious Diseases. Strong professional with a Doctor of Pharmacy (Pharm.D.) focused in Pharmacy from Université Paris Sud (Paris XI).

Title: Preclinical Multimodal Imaging of Bacterial Infections and the Potential for Clinical Translation

Kevin Francis
UCLA
USA

Kevin Francis joined Xenogen Corporation, now part of PerkinElmer, in January 1999, and is currently a Fellow within this organization. In this role he is responsible for coordinating collaborative research efforts with both academic and industrial partners, and helps to promote PerkinElmer's suite of preclinical imaging platforms. In February 2008 Kevin was awarded an Honorary Professorship in the Department of Surgery at the University Medical Center Groningen, and currently holds Visiting Professorships in the Department of Orthopedic Surgery at UCLA and in the Department of Microbial Pathogenesis and Immunology at Texas A&M.

Title: A Case Report on Listeria Monocytogenes Meningoencephalitis/Cerebritis, Acute Disseminated Encephalomyelitis, and Cytomegalovirus Bacteremia In An Immunocompromised Patient on Steroid Therapy

ROBERTO P. SALVINO
Asian Hospital and Medical Center
Philippines

Roberto is an Attending Physician at the Asian Hospital and Medical Center and is actively involved in the training of Internal Medicine residents. He was a former member of The Board of Council of the International Society for Infectious Diseases (2008-2014). He is a Diplomate of the American Board of Internal Medicine. He is a member of various medical societies such as the American College of Physicians, European AIDS Clinical Society , American Society for Microbiology, Philippine Society for Microbiology, Philippine Society for Microbiology and Infectious Diseases.

SPEAKER SLOTS AVAILABLE

Title: Preoperative Nasopharyngeal Decolonization using Mupirocin and Chlorhexidine in Preventing Surgical Site Infection: A Meta-Analysis

Michelle Jane Buaron
St. Luke's Cancer Institute
Philippines

Dr. Buaron has completed her specialty training in Internal Medicine at St. Luke's Medical Center-Quezon City, Philippines and passed her Diplomate examination at the age of 29. She is currently on her last year of Fellowship Training in Pulmonary Medicine in the the same institution.

Title: Risk Factors of Multi-Drug Resistant Tuberculosis Among Pediatric Patients: A Retrospective Cohort Study

Raziel Vina S. Espino
East Avenue Medical Center
Philippines

Raziel Vina S. Espino, MD has completed her Doctor of Medicine degree at the age of 23 years from University of the East Ramon Magsaysay Memorial Medical Center in the Philippines. She finished her Pediatric Residency Training at East Avenue Medical Center

Title: A Study on the Prevalence of Adverse Ocular Manifestations in Pediatric Patients Receiving Ethambutol in the Revised National Tuberculosis Control Program at East Avenue

Anna Sophia R. Lim
East Avenue Medical Center
Philippines

Anna Sophia R. Lim, MD has completed her Doctor of Medicine degree at the age of 27 years from University of Perpetual Help, Binan Laguna, Philippines. She finished her Pediatric Residency Training at East Avenue Medical Center, Philippines.

SPEAKER SLOTS AVAILABLE

Title: Sepsis associations with HLA- DR and -DQ genes.

Linda Bridina
Riga Stradins University
Europe

Linda Bridina is the 3rd year resident of Family medicine at Riga Stradins University and 2nd year full time doctoral student at Riga Stradins University in the Devision of Doctoral Studies.

Title: Obscure cause of muscle weakness in H7N9 infected patients- lectures from two cases

Chao-Nan Jin
Zhejiang University
China

Chao-Nan Jin is studing for her master's degree from Zhejiang University in China. She has one review article accepted by European Journal of Gastroenterology & Hepatology.

Title: Epidemiological Characterization of Influenza Viruses Detected from Acute Respiratory Patients in Korea during 2012-2016

Yea Eun Lee
Gyeonggi Province Institute of Health and Environment

She has completed her MD from College of Veterinary Medicine, Chungbuk University (Republic of Korea). She is D.V.M. and research scientist for the public health in Gyeonggi Province Institute of Health and Environment, Republic of Korea. She has published variable domestic papers(subjects; infectious disease, microbiology) in reputed journals and serving as an co-worker in various field.

SPEAKER SLOTS AVAILABLE

Title: A study on genomic diversity of norovirus using deep sequencing approach

InSun Joo
National Institute of Food and Drug Safety Evaluation

InSun Joo is working at a national institute of food and drug safety evaluation in a food microbiology division. She has been charged with investigation of food poisoning causes related foodborne virus and waterborne protozoa.

Title: Blocking 4-1BB signal ameliorates the progression of Japanese encephalitis via divergent type I innate responses

Seong Kug Eo
Chonbuk National University

Seong Kug EO's lab has focused on unveiling how hosts response to pathogen infection. They have used various infectious models to prove host responses upon pathogenic infection. In recent, EO's lab has found the detailed pathway that IFN-I signal pathway orchestrated environments to provide effective protection against mucosal viral infection (PLoS Pathog., 2016). Moreover, EO's lab is expert on viral acute encephalitis caused by flaviviral infection

Title: Indispensible role of TLR2 and TLR9 in regulating protection against mucosal

Seong Kug Eo
Chonbuk National University

Seong Kug EO's lab has focused on unveiling how hosts response to pathogen infection. They have used various infectious models to prove host responses upon pathogenic infection. In recent, EO's lab has found the detailed pathway that IFN-I signal pathway orchestrated environments to provide effective protection against mucosal viral infection (PLoS Pathog., 2016). Moreover, EO's lab is expert on viral acute encephalitis caused by flaviviral infection

SPEAKER SLOTS AVAILABLE

Title: Molecular association of lncRNA-uc003wbd and lncRNA-AF085935 expression with a genetic variant profile in Egyptian patients with hepatocellular carcinoma and HBV

Tarek Mohamed Kamal Mohamed Metawie
Cairo University

Dr Tarek Mohamed Kamal Mohamed Metawie, Professor of Biochemistry, Faculty of Pharmacy, Cairo University. Egyptian, date of birth 6/3/1955. Ph.D. in Pharmaceutical Sciences, 1984; M.Sc. in Pharmaceutical Sciences, 1979; B.Sc. in Pharmaceutical Sciences, Faculty of Pharmacy, Cairo University, 1976. Professional experience: Instructor; 1976, Lecturer Assistant; 1980, Lecturer, 1984; Assistant Professor, 1989; Professor,1994; Head of the Department of Biochemistry, Faculty of Pharmacy, Cairo:- 2008-2014.

Title: Influenza A H1N1 Pneumonia in a pregnant lady complicated with ARDS: A case study

Abeer M. Rawy
Benha university

Dr. Abeer Mohamed Rawy (M.D. 2010), is an associate professor of chest diseases in faculty of medicine, Benha university, Egypt. She is interested in infectious respiratory diseases, bronchoscopy and obstructive airway diseases including asthma and COPD. She has a teaching experience of chest topics for undergraduates and postgraduate medical students. She is a member in Egyptian society of chest diseases and tuberculosis. She supervises many research theses. She published many articles in field of respiratory medicine.

Title: Medical and microbial applications of controlled shape of silver nanoparticles prepared by ionizing radiation

Mohamed Nasr Fathi Shaheen
National Research Center

He is Doctoral Researcher at Environmental Virology Lab, Water Pollution Research Department, Environmental Research Division, National Research Centre, Giza, Egypt. In 2011, He had traveled to institute national de la santé et de la recherché medicale (Inserm), Lyon, France for training course in the context of the HepaCute FP7 framework program. During, I have gained an excellent experience in amplification of 6.02 kb fragments of hepatitis C virus (HCV) genome using patient serum. Also, production of HCV pseudoparticles, a surrogate viral model system that allow the study the function mediated by the HCV glycoproteins E1 and E2, including HCV cell entry and humoral immune response.

SPEAKER SLOTS AVAILABLE

Title: Exploration of the impact of climate change on schistosomiasis transmission dynamics

Tayo Alex Adekiya
University of Zululand

Tayo Alex Adekiya is currently pursuing his postgraduate studies in the department of Biochemistry at the university of Zululand. Presently, he is the secretary general of postgraduate student's association at the university.

Title: Lyssavirus Surveillance in Dogs in South-East Nigeria: Application of Molecular and Immunological assays.

Anene, Maduka Boniface
University of Nigeria

Professor Anene, Maduka Boniface was born on the 15th of September, 1954 in Oba, Idemili South Local Government Area of Anambra State. He had his primary education at Golf Course Primary School, Aba, his secondary education at Baptist High School Port Harcourt, Rivers State and Merchants of Light School, Oba, Anambra State and then his tertiary education at the University of Ibadan, Oyo State, bagging the Doctor of Veterinary Medicine (DVM) degree in 1980. He also obtained his Master of Science (M.Sc.) and Doctor of Philosophy (PhD) degrees in Small Animal medicine from the University of Nigeria, Nsukka (UNN) in 1987 and 1997, respectively.

Title: Evaluation of Hematological Parameters and Inflammatory Mediators' Gene Expression in Diabetic Albino Rats Treated With Ruzu Herbal Bitter

Sunday Adeola Emaleku
Adekunle Ajasin University

Sunday Adeola Emaleku is currently undertaking his Ph.D. program in Food & Nutrition Biochemistry at Adekunle Ajasin University, Akungba-Akoko, Ondo State. He completed his M.Sc. Biochemistry at the age of 33 years from University of Lagos and bagged his First Degree (B.Sc. Biochemistry) from Adekunle Ajasin University, Akungba-Akoko, Ondo State. He is currently an Assistant Lecturer in the Department of Biochemistry, Adekunle Ajasin University, Akungba-Akoko, Ondo State. He has published at least three papers in reputable Journals

SPEAKER SLOTS AVAILABLE

Title: Cytomegalovirus infection and coronary artery disease: a single center serologic study in north-western Iran

Zakieh Rostamzadeh Khameneh
Urmia University of Medical Sciences

Zakieh Rostamzadeh Khameneh is an Associate Professor at the Urmia University of Medical Sciences, Iran

Title: Tunga penetrans infestation in south-western Nigeria: Prevalence, health impacts, knowledge and management practices

Babamale, Olarewaju Abdulkareem
University of Ilorin

Babamale, Olarewaju Abdulkareem has completed his MSc in 2014 from University of Ilorin and currently doing his PhD in immuno-parasitology in the same University. He is a Lecturer in the Department of Zoology, Faculty of life sciences, University of Ilorin. He has published more than 15 papers in reputed journals.

Title: Detection of Lyssavirus Antigen and Assessment of the Levels of Anti-rabies Antibodies in Unvaccinated, Apparently Healthy and Rabies-Suspect Dogs in South Eastern Nigeria.

Eze Ukamaka Uchenna
University of Nigeria

Dr. Ukamaka Uchenna Eze is a native of Ngwo in Enugu North L.G.A. Enugu State. I attended Queen's School Enugu from 1995-2001 where I obtained Senior Secondary School Certificate. I graduated with Doctor of Veterinary Medicine (DVM) and Master of Science (Small Animal Medicine) certificate from University of Nigeria, Nsukka in 2009 & 2013 respectively. Currently I have enrolled for Ph.D in small animal medicine in the same University. My current research interest is in mocecular diagnosis and other alternative diagnostic procedures for diagnosis of rabies in small animals.

SPEAKER SLOTS AVAILABLE

Title: Patterns of Joints Involvement in Post-Acute Chikungunya Viral Infection: An Experience of Dhaka Outbreak

Md Rockyb Hasan
Dhaka Medical College

I have completed USMLE step 1 and Step 2 ck this year.I am currently in Dhaka medical college in my MD cardiology course(33 rd BCS).I also take classes in GRE center,lalmatia for USMLE step 1.

Title: Molecular genotyping of Giardia duodenalis in preschool children

Molouk Beiromvand
Ahvaz Jundishapur University

Molouk Beiromvand has completed her PhD from Tehran University of Medical Sciences, Tehran, Iran. She is a assistant Professor at Department of Parasitology, School of Medicine, Ahvaz Jundishapur University of Medical Sciences, Ahvaz, Iran.

Title: Probiotics for amphibians: advances in the selection of lactic acid bacteria for chytridiomycosis control.

Sergio E. Pasteris
INSIBIO-CONICET

Sergio E. Pasteris has his expertise in the study of lactic acid bacteria (LAB) metabolism as well as in the isolation and evaluation of its beneficial properties to design probiotics for amphibians´ culture. Taken into account the development of resistant bacteria, some LAB strains represent an alternative instead chemotherapeutics to prevent epizootics in bullfrog systems breeding. Since bullfrog is a carrier of the etiological agent of chytridiomycosis, probiotics by using native LAB from bullfrog skin are being developed to be applied during the ex situ breeding of endangered amphibian species.

SPEAKER SLOTS AVAILABLE

Title: Clonal analysis and virulence-associated traits of native Escherichia coli from urethra of gilts and natural/artificial pregnant sows.

Sergio E. Pasteris
INSIBIO-CONICET

Sergio E. Pasteris has his expertise in the study of lactic acid bacteria (LAB) metabolism as well as in the isolation and evaluation of its beneficial properties to design probiotics for amphibians´ culture. Taken into account the development of resistant bacteria, some LAB strains represent an alternative instead chemotherapeutics to prevent epizootics in bullfrog systems breeding. Since bullfrog is a carrier of the etiological agent of chytridiomycosis, probiotics by using native LAB from bullfrog skin are being developed to be applied during the ex situ breeding of endangered amphibian species.

Title: In vitro and In vivo Anti-malarial Activity of Extracts from Terminalia mantaly (combretacéae).

Mariscal B. Tchatat Tali
University of Yaoundé

Mariscal Brice Tchatat Tali is a Ph.D. Student at the Laboratory for Phytobiochemistry and Medicinal Plants Studies, AntiMicrobial and BioControl Agent Unit at University of Yaounde I. He is working on Bioguided search of inhibitors of asexual and sexual stages of Plasmodium falciparum from selected Cameroonian medicinal plants. He has expertise in both in vitro and in vivo evaluation the activity of natural products against parasitic disease especially plasmodium falciparum.

Title: 3-hydroxy-3-methylglutaryl coenzyme A reductase (HMGR) from Leishmania donovani is indispensible for the parasites as depicted by gene knockdown studies

Sushma Singh
NIPER

Dr. Sushma Singh has done her Ph.D on 'Characterization of polyamine biosynthetic enzymes from Leishmania donovani' in 2008 from Jawaharlal Nehru University (JNU), New Delhi, India. Later she joined National Centre for Cell Science (NCCS), Pune as Research Scientist and worked on MAP kinases of Leishmania donovani. She has expertise in Molecular Biology, Biophysics and Biochemistry. After joining in National Institute of Pharmaceutical Education and Research (NIPER), SAS Nagar, Punjab, India she had worked extensively on identification and functional characterization of novel drug targets. She has also been working on therapeutic switching strategies for Leishmaniasis.

SPEAKER SLOTS AVAILABLE

Title: Luminal K+ channels blocker - a superior therapeutic intervention over Zinc in Secretory Diarrhea.

Joydeep Aoun
NICED

Joydeep Aoun is professor at Molecular Pathophysiology Division, National Institute of Cholera & Enteric Diseases, Beliaghata, Kolkata, India.
