Europathology 2017

Invitation

Dear Attendees,

We are glad to announce the **13th European Pathology congress on pathology** to be held in Milan, Italy from August 2-3, 2017 organized by Conference Series LLC, USA in collaboration with generous support and cooperation from Prof. Giuseppe Scalabrino, M.D. and editorial Board Members.

Welcome Note By **Prof. Giuseppe Scalabrino, M.D.**

To cope with the well-known big explosion in information flow of the modern medicine, an enormous number of meetings are continuously organized in the world. Frequently, the interdisciplinary nature of the meetings can offer the participants an opportunity to discuss problems of common interest approached from different standpoints. I trust that people attending the **Euro Pathology 2017** will be rewarded, insofar as all of the presentations will be of the highest quality and will be justly appreciated. Nevertheless, I realize that most of the topics of the Meeting will disclose a number of problems much larger than the number solved: many points and/or questions will remain still obscure even after a deep debate in the different sessions of the Meeting. However, this a certain way to generate ultimately important ideas and practical advances in doing new research, although all of us are aware that the positive outcome of our research is also linked to extrascientific factors. I would like to conclude with Wittgenstein's statement from his Tractatus logico-philosophicus (6. 52): "Wir fuehlen, dass, selbst wenn alle moeglichen wissenschaftlichen Fragen beantwortet sind, unsere Lebensprobleme noch gar nicht beruehrt sind. Freilich bleibt dann eben keine Frage mehr; eben dies ist die Antwort". "We feel that even when all possible scientific questions have been answered, the problems of life remain completely untouched. Of course, there are no question left, and his itself is the answer".

Sincerely,

Giuseppe Scalabrino, M.D.
Former Professor of General Pathology
Faculty of Medicine and Surgery
University of Milan - MILANO (Italy)

Market Analysis

The worldwide pathology statistical surveying report gives point by point data about the business in light of the income (USD MN) for the estimate time frame. The examination study is a spellbinding investigation of this market underscoring the market drivers and restrictions that administer the general market development. The patterns and future prospects for the market are likewise incorporated into the report which gives a scholarly comprehension of the pathology business. Besides, the report measures the piece of the overall industry held by the real players of the business and gives a top to bottom perspective of the aggressive scene. This market is characterized into various fragments with point by point investigation of each regarding geology for the review time frame.

Study period considered for research of global pathology market:

Base Year: 2016

Estimated Year: 2017

Forecast Till: 2022

A glimpse of the major drivers and restraints affecting the pathology market is mentioned below:

Drivers

- Rise in adoption of pathology to enhance lab efficiency
- Increasing application of pathology in drug development and companion diagnostics
- Ease of consultation enabled by pathology
- Growing initiatives by governments and industry players
- Growing number of research projects establishing the efficacy of pathology

Restraints

- Higher cost of pathology systems
- Regulatory concerns
- Dearth in standard guidelines
- Reluctance among pathologists to adopt advanced technologies

Market Analysis

The report offers an esteem chain examination that gives a complete standpoint of the pathology advertise. The engaging quality investigation of this market has additionally been incorporated in order to assess the fragments that are expected to be beneficial amid the gauge time frame.

The pathology advertise has been divided in light of item, for example, scanner, programming, correspondence framework, and capacity framework. The review joins intermittent market gauges and estimates. Every item has been dissected in view of the market estimate at provincial and nation levels. The pathology advertise has been divided in light of sorts, for example, human pathology, and creature pathology. The review joins intermittent market gauges and estimates. Every sort has been dissected in view of the market estimate at local and nation levels.

The pathology advertise has been sectioned in light of uses, for example, teleconsultation, infection determination, medicate revelation, and instruction and preparing. The report gives conjecture and gauges to every application as far as market size amid the review time frame. Every application has been further dissected in light of provincial and nation levels.

The pathology advertise has been portioned in view of end client, for example, pharmaceutical, biotechnology organizations and CRO'S, doctor's facility and reference labs, and scholastic and government inquire about foundation. The review fuses intermittent market gauges and figures. Every end client has been examined in view of the market measure at territorial and nation levels.

Geologically, the pathology showcase has been fragmented into districts, for example, North America, Europe, Asia Pacific, and Rest of the World. The review points of interest nation level angles in view of every fragment and gives gauges as far as market size.

The report likewise concentrates the aggressive scene of the worldwide market with organization profiles of players, for example, Leica Biosystems Nussloch GMBH, Ventana Medical Systems, Inc., Hamamatsu Photonics K.K., 3dhistech Ltd., Philips Healthcare, Apollo Enterprise Imaging Corp.

Market Analysis

Xifin, Inc., Definiens AG, Visiopharm A/S, Omnyx, LLC, and Corista LLC. A nitty gritty portrayal of each has been incorporated, with data regarding central command, commencement, stock posting, up and coming limits, key mergers and acquisitions, budgetary diagram, and late improvements. This investigation gives an intensive thought regarding the focused situating of market players. The report likewise gives data of pathology market's mergers/acquisitions, organizations, coordinated efforts, new item dispatches, new item advancements and other industry improvements.

METHODOLOGY:

A combination of primary and secondary research has been used to determine the market estimates and forecasts. Sources used for secondary research include (but not limited to) Paid Data Sources, Company Websites, Technical Journals, Annual Reports, SEC Filings and various other industry publications. Specific details on methodology used for this report can be provided on demand.

Pathology Research Institutes in Europe continent:

- London
- UK
- Rest of Europe

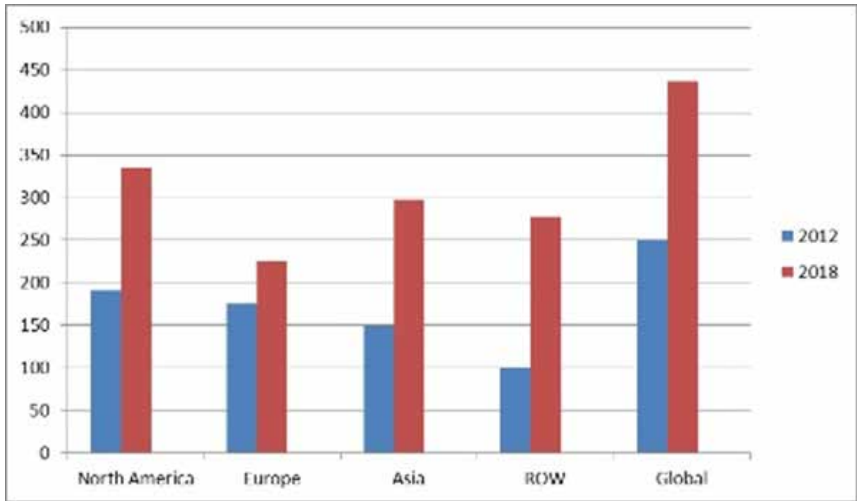

Market Analysis

Global Market on Pathology

The Global Pathology Market is assessed to be $191.00 million in 2012, and is ready to develop at a CAGR of 12% to reach $336.61 million by 2017.

This report thinks about the worldwide computerized pathology market over the conjecture time of 2013 to 2018. The business sector was assessed at $250.2 million in 2013 and is relied upon to reach $437 million by 2018, developing at a CAGR of 11.8% from 2013 to 2018. This report covers the definition, portrayal, and estimate of the computerized pathology market regarding items and applications. In view of items, the computerized pathology market contains scanners, investigation, stockpiling, and correspondence. The application business sector is sorted into human and creature pathology. Human pathology is sectioned into pharmaceutical and biotech organizations, doctor's facilities and reference labs, and preparing and training focuses, while creature pathology is portioned into pharmaceutical and biotechnology organizations, contract research associations and scholarly and government research foundations.

About Us

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+** facebook fans Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- **Robust on-line publicity** for all the speakers and organizing committee members
- **Career Guidance** Workshops for students and early career researchers
- **Accepted Abstracts** will be published in various **indexed journals**
- **Accepted abstracts** will be labeled with a **Digital Object Identification Number** (DOI) provided by **Cross Ref**
- **Creation** of speakers and abstracts pages in Google
- **Opportunity** to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be published inrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by Crossref

About Conference

"Euro Pathology 2017" aims to provide a forum for discussion of the latest findings and technologies in different fields of Pathology and give opportunities for future collaborations. We hope it will be an appreciated platform for sharing knowledge and experiences in the fields of Pathology. The Major scientific sessions of this congress are Surgical Pathology, Clinical Pathology, Diagnostic Pathology, Oncopathology, Digital Pathology, Breast Pathology, Reproductive Pathology, Dermatopathology, Head & Neck Pathology, Pulmonary Pathology, Forensic Pathology, Microbial Pathology, Paediatric Pathology, Speech and language pathology, Veterinary pathology, Neuropathology, Plant pathology, Immunopathology etc.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Europathology 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

Purpose

13th European Pathology congress is a field for interdisciplinary trade among experts in the field of Pathology.

Goals

- The gathering program underlines confirm based practice, instructive advancement, handy application, and distributed systems administration and joint effort. The objectives of the gathering is to give a transformative expert advancement encounter through
- Uniting the world's logical specialists to catalyze and progress logical information about general pathology and pathological anatomy present in the latest research discoveries, and advance and improve logical joint efforts around the globe.
- Uniting people group pioneers, researchers, and strategy pioneers to advance and upgrade automatic joint efforts to all the more successfully address local, national and nearby reactions to Elderly Population around the globe and beat hindrances that restrict access to mind and services.

Objectives

- In the wake of taking an interest in this meeting, participants ought to have the capacity to Discuss rising issues in general pathology and pathological anatomy
- Discuss and apply late research discoveries identified with general pathology and pathological anatomy
- Reflect on the place of basic separation in general pathology and pathological anatomy

About Conference

Who should attend

Euro Pathology 2017 will be the world best and the first platform for all the doctors, medical practitioners, students and clinical research organizations to encourage and explore the modern technologies in the eternal field of pathology.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies.** All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the **DOI** provided by Crossref

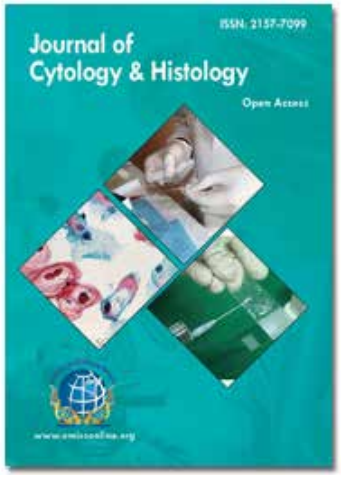

Major sessions

- **Cancer Cytopathology**
- **Comparative Pathology**
- **Head & Neck Pathology**
- **Renal Pathology**
- **Hematopathology**
- **Surgical Pathology**
- **Experimental Pathology**
- **Clinical Pathology**
- **Diagnostic Pathology**
- **Oncopathology**
- **Digital Pathology**
- **Breast Pathology**
- **Reproductive Pathology**
- **Dermatopathology**
- **Veterinary pathology**
- **Neuropathology**
- **Plant pathology**
- **Immunopathology**
- **Histopathology**
- **Speech & language pathology**
