WELCOME ADDRESS

Dear Attendees,

The Euro Virology 2025 Organizing Committee is absolutely delighted to welcome you to the **17th International Virology Summit** which will be held in **Paris, France** on **July 28-29, 2025,** where we will be shining a spotlight on *"Virology Research and Innovation"*.

We are looking forward to providing you with a superb environment in which to present, discuss and advance your infectious diseases research. The world class scientific programme will consolidate existing knowledge while at the same time increase your awareness of leading edge and forward looking advances in the field.

The congress is to be held in one of the world's most important global cities which is crossed by the Seine, Oise, and Marne rivers, which is called as Paris. Paris is positioned at the centre of the Île-de-France region. Paris is a city of endless possibilities with a rich history, stunning architecture, world-renowned cuisine, and a vibrant cultural scene.

We look forward to seeing/welcoming you in 2023 for an experience of a lifetime.

With Regards
Euro Virology 2025

ABOUT PARIS

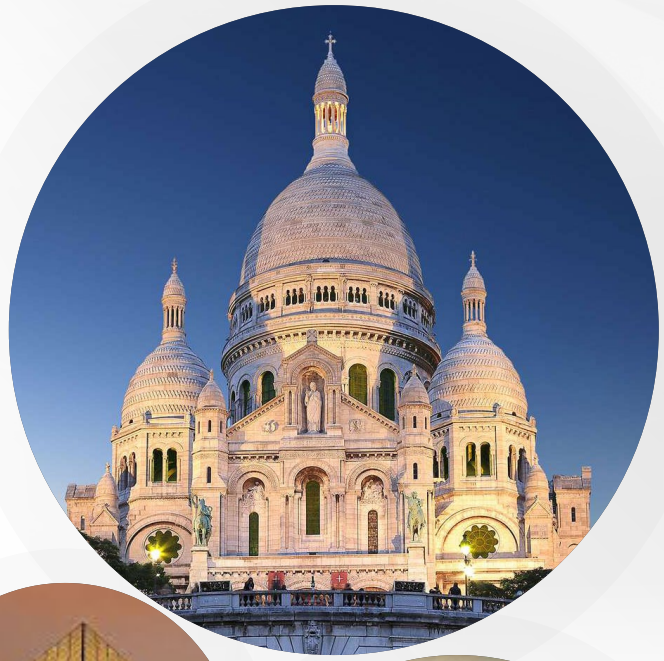

Paris, city and capital of France, situated in the north-central part of the country. People were living on the site of the present-day city, located along the Seine River some 233 miles (375 km) upstream from the river's mouth on the English Channel (La Manche), by about 7600 BCE. The modern city has spread from the island (the Île de la Cité) and far beyond both banks of the Seine.

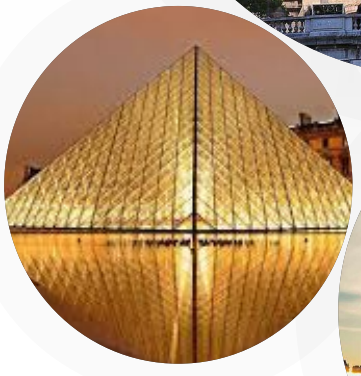

In its location on the western side of Europe and in a plain relatively close to the sea, Paris benefits from the balmy influences of the Gulf Stream and has a fairly temperate climate. The weather can be very changeable, however, especially in winter and spring, when the wind can be sharp and cold. The annual average temperature is in the lower 50s F (roughly 12 °C); the July average is in the upper 60s F (about 19 °C), and the January average is in the upper 30s F (about 3 °C). The temperature drops below freezing for about a month each year, and snow falls on approximately half of those days. The city has taken measures to decrease air pollution, and a system of water purification has made tap water safe for drinking.

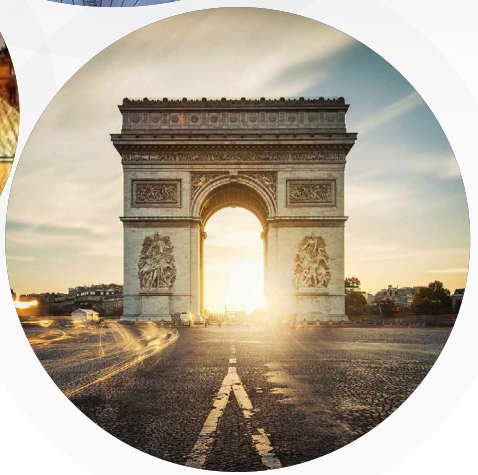

Paris is one of the most popular tourist destinations in the world, offering a wealth of cultural, historical, and artistic attractions. Here are some of the top attractions that you should not miss on your trip to Paris:

1. Eiffel Tower: One of the most iconic landmarks in the world, the Eiffel Tower is a must-visit attraction in Paris. You can take the elevator to the top to enjoy panoramic views of the city.

2. Louvre Museum: Home to some of the world's most famous art masterpieces, including the Mona Lisa and the Venus de Milo, the Louvre Museum is a cultural treasure trove that should not be missed.
