Euro Women's Health 2020

3rd Annual Congress on

Womens Health, Wellness and Reproductive Medicine

August 19-20, 2020 | Milan, Italy

https://womenshealth.annualcongress.com/

Invitation

Dear Colleagues,

Euro Women's Health 2020 cordially welcomes you to attend the 3rd World Congress on Women's Health, Wellness & Reproductive Medicine which is going to be held in Milan, Italy during August 19-20, 2020. We would like to invite all the participants who are interested in sharing their knowledge and research in the area of Women's Health & Reproductive Medicine.

The conference anticipates more than 500 participants around the globe with thought provoking keynote lectures, oral presentations and poster presentations. This is an excellent opportunity for the delegates from universities and institutes to interact with the world class scientists and share their researches.

The main theme of the conference is"Empowerment of Women's Health & Wellness".The interested participants can confirm their participation by registering for the conference along with your colleagues.

We look forward to see you in Milan, Italy this August.

Sincerely,
Euro Women's Health 2020
Organizing Committee

What is Euro Women's Health 2020

The Women's Health Congress aims to discuss the comprehensive overview of the latest developments, innovations, challenges and strategies in the arena of Women's Health ranging from Reproductive Medicine, Gynecology, Gynecologic Oncology, Maternal & fetal health, female infertility, In Vitro Fertilization (IVF), Intrauterine insemination (IUI), operative gynecology and many more.

Sexually transmitted infection
Autoimmune Diseases
Labor and Birth
Postpartum
Endometriosis
Urogynecology

Supporting Journals

- Breast Cancer: Current Research
- Journal of Carcinogenesis & Mutagenesis
- Journal of Cancer Science & Therapy

Host City

Milan is a city in northern Italy, capital of Lombardy, and the second-most populous city in Italy after Rome. It's continuously built-up urban in the European Union. The wider Milan metropolitan area, known as Greater Milan, is a polycentric metropolitan region. Milan is considered a leading alpha global city with strengths in the field of the art, commerce, design, education, entertainment, fashion, finance, healthcare, media, services, research and tourism. Milan is considered part of the Blue Banana and one of the "Four Motors for Europe". The city has been recognized as the world's fashion capital and the world's design capital thanks to several international events and fairs. The city is served by a large number of luxury hotels and is the fifth-most starred in the world by Michelin Guide.

Milan is home to some of Italy's most prominent educational institutions. Milan offers a major assortment of structures, landmarks and historical centres. The most imperative church is the Cathedral which is the third biggest church on the planet. It is general made of marble, with colossal statues, curves, columns, apexes. From the rooftop you can encounter a delightful display of the city. Santa Clause Maria delle Grazie was worked somewhere around 1466 and 1490 and changed by Bramante. In the Refectory there is a standout amongst the most well-known works of art of Leonardo da Vinci: the "Last Supper". Milan has numerous noteworthy palazzos like the Palazzo Reale (Royal Palace) which is arranged in the south side of Piazza Duomo.

Registrations

Choose your category of registration based on your profile and specialization. Visit conference website for more details on discounts and offers.

Vision & Plan

International Market Approach

The global gynaecological devices market is marked by a high degree of fragmentation due to the presence of numerous large manufacturers, reports Transparency Market Research (TMR) in a new business intelligence study. This leaves ample scope for market consolidation in the near future. Top companies like Boston Scientific Corporation, Cooper Surgical, and Olympus Corporation hold distinction on account of their widespread product portfolio and geographical outreach. These companies are struggling to introduce non-invasive devices to serve a larger consumer base which will eventually help expanding their geographical outreach.

The increasing demand for medical help for women- centric health issues is bringing in immense scope for growth in the gynaecological device market. The small regional players play an important role and hold a significantly higher share in the gynaecological device market. The increasing entry barriers and stringent rules and regulations for approval of a product are limiting the entry of new companies. Insufficient funding from venture capitalists is also creating a challenging situation for the entrance of newer companies.

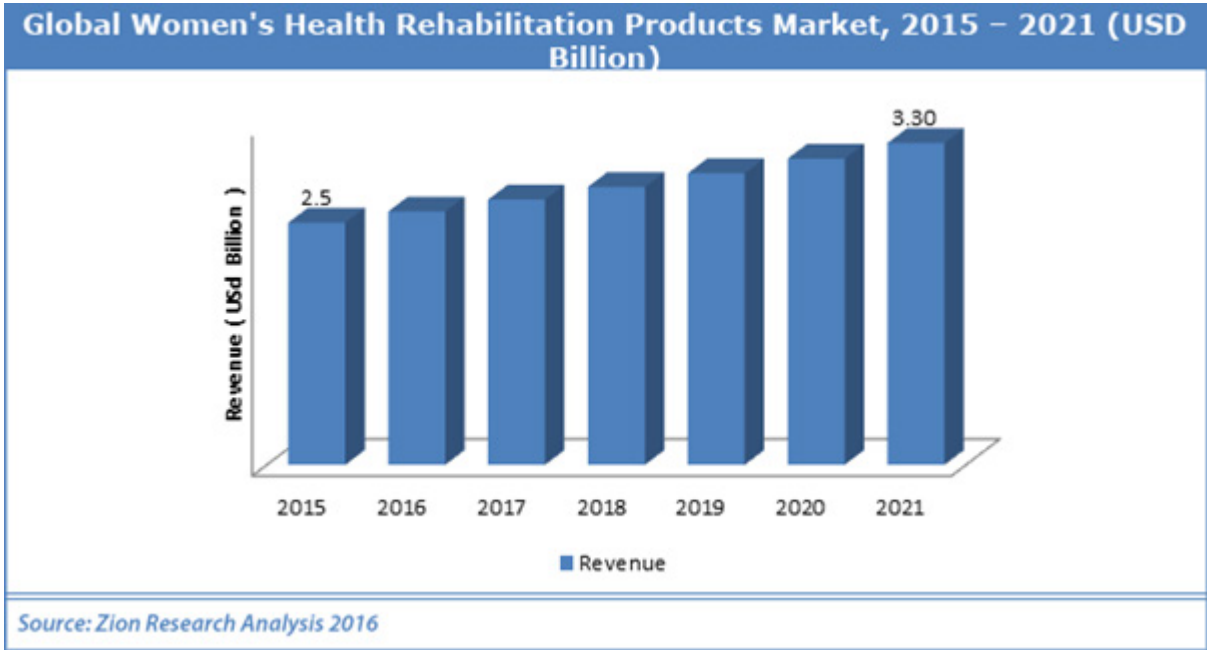

As per projections of a TMR report, the global gynaecological devices market will clock 4.8% CAGR between 2017 and 2023. This will translate opportunities in the market to generate revenue of US$22,589.9 mn by 2023 from US$17,015.9 mn in 2017. In terms of device type, gynaecological surgical devices hold prominence in the market. Rising prevalence of single incision laparoscopic surgeries and advances in conventional endoscopic surgeries account for advances in gynaecological surgical instruments. Geography-wise, North America is a lucrative market for gynaecological devices due to the early adoption of advanced gynaecological devices.

Product Insights

Global market for Women's Health

Based on the product type, the global market is segmented into gynecological imaging devices, surgical devices, and hand instruments. In 2016, surgical devices dominated the market with largest share. High usage of endoscopy devices and female contraceptives is the factor which can be attributable to the largest share.

The need for highly durable and easily autoclavable surgical instruments has been growing increasingly owing to the growing number of surgical procedures globally. Advancement in technology and introduction of highly efficient devices which can provide quick and accurate diagnosis and minimize the operating time are the factors expected to give boost to the market growth in the upcoming years..

Sponsorship and Exposure

Diamond

- Three workshop slots (audio visual included).
- Two complimentary exhibit booths with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Four complimentary registrations
- Logo recognition on congress website front page with link, sponsorship page
- One A4 color advertisement in the congress souvenir
- Three inserts provided by the sponsor in the congress delegate bags

Platinum

- Two corporate sponsored workshop slots
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Three complimentary congress registrations
- Logo recognition on congress website front page with link and logo recognition on congress sponsorship page
- One A4 color advertisement in the congress souvenir
- Two inserts provided by the sponsor in the congress delegate bags.

Gold

- Two complimentary congress registrations
- One corporate sponsored workshop slot
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Logo recognition on congress website sponsorship page
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages)
- One insert provided by the sponsor in the congress delegate bags
- Priority to purchase additional sponsorship items

Exhibition

- One complimentary congress registration
- Set up of one tailor-made exhibit booth (Booth Size 3x3 sqm)
- Logo recognition on congress website sponsorship page
- Color Advertisement in Congress souvenir
- Inclusion of your company's leaflet/insert in the congress delegate bags
- An exclusive online promotion on all our social Networking Sites
- Shape and raise your corporate image through logo branding
- Press Release on behalf of your company
