32nd World Neonatal, Pediatric and Family Medicine Conference

May 02-03, 2023

London, UK

About Conference:

We cordially invite everyone from around the world to the "32nd World Neonatal, Pediatric and Family Medicine Conference," which will take place in London, UK, on June 19–20, 2023.

This conference offers a stable forum for experts in the domains of pediatrics and family medicine as well as other relevant fields, including scientists, researchers, professors, engineers, and directors of various companies. We also much like hosting a variety of professionals from various nations throughout the globe.

Faneotrics 2023 is a global forum for developing research projects, medicinal discoveries, and pediatric-related illnesses.

- Pediatric Pulmonology
- Infectious Diseases
- Neonatal Intensive Care Unit
- Neonatal Dermatology

Reminiscence of Past Conference

Come on let's fly to the Beautiful City

The list includes Big Ben, the Tower of London, Buckingham Palace, the London Eye, and many more. There is no finer city in the world to shop than London, whether you have money burning a hole in your wallet or you just want to look through some windows. Londoners put in a lot of work, but they also play hard. The capital has everything a night owl could possibly desire, including traditional pubs, stylish clubs, unique dive bars, and theatres crowded with Hollywood stars gracing the stage. The history of London is extremely lengthy and compelling. You'll learn more than you can possibly recall if you visit this city because it was where so much of our nation's culture was born. So come on lets fly to the beautiful city London and visit everything over there.
