

4th International Conference on

FOOD CHEMISTRY & NUTRITION

July 26-27, 2019 | Vancouver, Canada

https://foodchemistry.conferenceseries.com/

Invitation

Dear Attendees,

We are glad to announce the 4th International Conference on Food Chemistry & Nutrition to be held in Vancouver, Canada from July 26-27, 2019 organized by Conference Series LLC Ltd in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This conference is a unique international platform that's a confluence of all academicians, chemists, scientists, dietitians, nutritionists, engineers, technologists from all over the world to exchange their knowledge and experience on food and nutrition research. This Food Chemistry 2019 conference will focus on the theme "*Exploring recent advancements and its application in the field of food chemistry & nutrition*".

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Food Chemistry Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Vancouver, Canada.

Sincerely,
Food Chemistry 2019
Organizing Committee

About Conference

Food Chemistry 2019 Conference website is attracting 25000+ Food technologists, Nutritionists online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series Conferences differs from others?

3000+ Conferences across the globe in 70+ countries Annually
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
Participation by Stalwarts from various international societies
Internationally renowned speakers and scientists representation
Career guidance for early career researchers and students
Interesting scientific deliberations and discussions
Perfect platform for Global Networking

Food Chemistry 2018 salient features

Meet Academia and Industry visionaries to get inspired
Expand your knowledge and find solutions to problems
Knowledge, Bench marking and Networking offered at one place
Forge connections and for global networking
Highly Organized and Structured Scientific programs
Poster presentations and world class exhibitions
Meet with new vendors and suppliers

About Conference

Purpose

4th International Conference on Food Chemistry & Nutrition is an arena for interdisciplinary exchange among professionals in the fields of Food technology & Nutrition.

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through bringing together the world's scientific experts to catalyze and advance scientific knowledge about Food Chemistry & nutrition present the most recent research findings, and promote and enhance scientific collaborations around the world.

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to elderly population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

Discuss emerging issues in Food Chemistry and Nutrition
Discuss and apply recent research findings related to Food Technology
Reflect on the place of critical distance in Food Science

About Conference

Who should attend

4th International Conference on Food Chemistry & Nutrition is exclusively designed for Food Scientist, Food Technologists, Food Chemists, Food Engineer, Nutritionists, Dietitian, Researchers, Academicians, Practitioners, Early Career Scholars, students along with Industries and others engaged in endeavors related to Food Chemistry & Nutritional research and business.

About hosting Organization

Conference Series LLC Ltd is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Cross ref

Major Sessions

- Food biochemistry and food processing
- Chemistry and biochemistry of nutrition
- Recent Innovation in Food Chemistry
- Antioxidants and lipid oxidation in foods
- Food safety, security and control
- Food microbiology
- Biocatalysis and agricultural biotechnology
- Industrial biotechnology in food industry
- Neutraceuticals
- Nutrigenomics
- Current Research in Nutrition and Dietetics
- Economy of world food marketing and agri-business: Report, global issues and challenges
- Food and bioprocessing engineering
- Food Toxicology
- Food and drug analysis

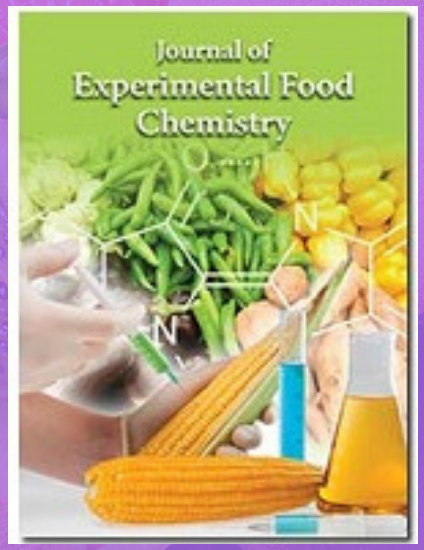

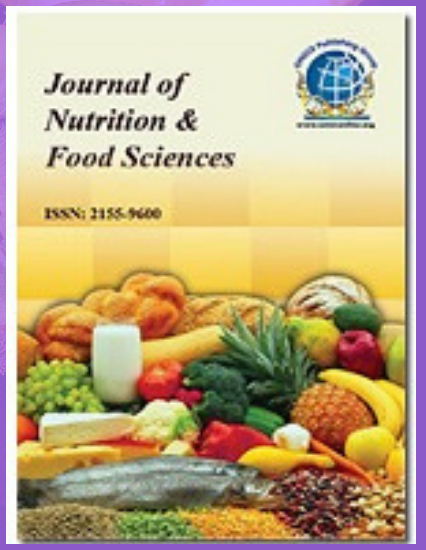

Supporting Journals

- Journal of Experimental Food Chemistry
- Journal Food Processing & Technology
- Journal of Nutrition & Food Sciences

Welcome to Vancouver

With its scenic views, mild climate, and friendly people, Vancouver is known around the world as both a popular tourist attraction and one of the best places to live.

Vancouver is also one of the most ethnically and linguistically diverse cities in Canada with 52 percent of the population speaking a first language other than English.

Vancouver has hosted many international conferences and events, including the 2010 Winter Olympics and 2010 Winter Paralympics.

Vancouver is Canada's 3rd largest city with an area population of just under 3 million. It has the mildest climate (along with Victoria) in Canada. Unlike most Canadian Cities, Vancouver is divided into several self-governing municipalities. (Vancouver city itself only has a population of about 565,000). The generic term for Vancouver and its environs is the "Lower Mainland" or "Greater Vancouver".

-Vancouver is North America's second largest Port (in tonnage & physical size - after New York) and one of the world's major cruise ship ports. I believe it is the 4th largest cruise ship terminus in the world.

-Vancouver has the highest proportion (per capita) of Asians of any North American city. This makes for a great selection of Oriental restaurants. It has one of the largest and oldest Chinatowns in North America.

-Related to the above, Vancouverites dine out more than in any other North American city.

Welcome to Vancouver

Vancouver is the second or third largest film production center in North America. It is second to LA in Television production & third behind LA & NYC in Feature film production. This is due to favourable tax concessions to the industry, the year round mild climate, and Vancouver's wide variety of locales. There are currently 3 film Studios (Lions Gate, Bridge and Paramount) and another large one is in the planning stage.

-Vancouver has 3 professional major league sport teams, all of them lousy. The BC Lions (CFL Football), Vancouver Canucks (NHL Ice Hockey), and the Vancouver Whitecaps WhitecapsFC (Soccer).

-Vancouver has over 1 million automobiles, almost one for every 2 people. Combine this with the fact downtown is essentially an island, and you have one of the worst traffic nightmares in North America.

-Vancouver contains the wealthiest neighbourhoods in Canada. The wealthiest is West Vancouver where the "average annual household income is over $60,000. This is an average, the area has tons of millionaires."

-The West End of Vancouver is the most densely populated area in North America.
-Vancouver is probably the only place in the world where it is possible to ski, play golf, and go sailing all in the same day.
-Some Famous Vancouverites: Jason Priestly, Yvonne de Carlo, James Doohan (Scotty on Star Trek), John Ireland. We will also claim Raymond Burr, Pamela Anderson, Michael Buble & Michael J Fox. Raymond Burr was born in a Vancouver suburb, Michael Fox grew up here and Pamela Anderson is from Vancouver Island. (not Victoria Island, as Americans seem to call it)
-The concept of Open Line radio originated in Vancouver in the 50's with the late Pat Burns (who had a copyright on the term "hotline"). It also had the first rock'n'roll radio station in Canada (CKWX) in the early 50's and the first rock FM station (CKLG) in 1967.

Registration

Academic

Only Registration: USD 699
Package A (Registration + 2 nights' Accommodation): USD 999
Package B (Registration + 3 nights' Accommodation): USD 1149

Business

Only Registration: USD 799
Package A (Registration + 2 nights' Accommodation): USD 1099
Package B (Registration + 3 nights' Accommodation): USD 1249

Student

Student Oral: USD 399
Student Poster: USD499 (USD 399 + USD 100 for Poster)
Student Delegate: USD 299

E-poster: USD 99

Important Dates:

Abstract submission opens: May 27, 2018
Registration opens: May 27, 2018
Early bird registration: June 30, 2018

On spot registration: July 26, 2019
