- Nutraceuticals and Nutrition Supplements
- Clinical Nutrition
- Malnutrition and Undernutrition
- Dieticians and Nutritionists
- Obesity
- Public Health Research

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

About Vancouver

Vancouver locally is a seaside seaport city in Canada, situated in the Lower Mainland area of British Columbia. As the most crowded city in the area, the 2016 registration recorded 631,486 individuals in the city, up from 603,502 of every 2011. The Greater Vancouver zone had a populace of 2,463,431 of every 2016, making it the third-biggest metropolitan range in Canada.

The Vancouver School Board selects more than 110,000 understudies in its rudimentary, auxiliary, and post-optional establishments, making it the second-biggest school area in the region. There are five state funded colleges in the Greater Vancouver range, the biggest being the University of British Columbia (UBC) and Simon Fraser University (SFU), with a consolidated enrolment of more than 90,000 students, graduates, and expert understudies in 2008. UBC reliably positions among the 40 best colleges on the planet, and is among the 20 best state funded colleges. Vancouver Community College and Langara College are openly financed school level establishments in Vancouver, as is Douglas College with three grounds outside the city. International students and English as a Second Language (ESL) students have been significant in the enrolment of these public and private institutions. For the 2008–2009 school year, 53% of Vancouver School Board's students spoke a language other than English at home.
