Glimpses of Forensic Research Series Conferences

Glimpses of Forensic Research 2016

About Houston

Houston is a dynamic mix of imagination, talent and first-class attractions which makes it a world-class city. It is always alive with energy and is rich in diversity. When you think about Houston, Texas, you probably picture massive oil refineries, oppressive humidity, and a sub-par baseball team - a far cry from one of the nation's most up-and-coming cities. Home to a vibrant economy, beautiful surroundings and a population full of optimism and spirit, it's no wonder that Houston is a popular international destination. The Bayou City is an economic juggernaut. It's by far the country's No. 1 job creator and home to 500 companies. It has a medical centre larger than downtown Dallas. Add a thriving restaurant and cultural scene, and you've got a winning case for Houston as the best city in America.

Major Scientific Sessions

- Digital Forensics
- Computational Forensics
- Forensic Accounting
- Forensic Anthropology
- Forensic Chemistry
- Forensic DNA Analysis
- Forensic Engineering
- Forensic Geology and Geophysics
- Forensic Pathology
- Forensic Psychology and Forensic Psychiatry
- Forensic Toxicology
- Wildlife Forensic Science
- Forensic Sociology
- Vehicle Forensics
- Forensic Odontology
- Forensic Nursing
- Forensic Entomology
- Forensic Medicine
- Forensic Genetics
- Entrepreneurs Investment Meet

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors
