Dear Colleagues!!

On behalf of Conference Series,We would like to take an immense pleasure and honor to welcome you towards upcoming 7th International Conference On Forensic chemistry during Sept, 26-27, 2018, Chicago, USA. The purpose of this 2 day conference is to bring together high profiled researchers, doctors scholars, eminent personalities, Pathologists, therapists, delegates and students from both academic and industrial fields throughout the world under single roof.

Theme: Emerging research in forensic chemistry and science

As we know, in this present world day to day latest innovations and discoveries are going on. Based on such issues we came forward to correlate our conference subject with reference to forensic science, research and forensic technology. Members from forensic science, chemistry, biochemistry, molecular biology, recombinant DNA technology, Pharmacology and pathology departments will grab a best opportunity to reach the largest assemblage of eminent scholars and expert scientists.

Accordingly, we would be delighted if you would share with us your views on new innovations in research and development and science education issues. You are happy to participate in Keynote Sessions, Workshops & Symposiums, Oral talks and Poster presentations. Forensic chemistry 2018 international conferenceconference also holds several types of sponsorships in proving greater benefits to the members participating from pharmaceutical sectors, lab centers and other market dealers. Our international conference also provides a great support to the business entrepreneurs to promote their products or organization promotion in our conference hall Chicago by exhibiting booths.

Finally, we will be highly obliged to see you in Chicago, Forensic chemistry 2018. Thank You!!

With Best Regards

Why Chicago, Illinois?

Chicago is the third largest and most populous city in the United States, with a population of nearly 3.0 million people. It is also the most populous city in both the state of Illinois and the Midwestern United States and considered one of the most important business centers in the world. The metropolitan area of Chicago often referred to as Chicago-land, has often been called a global architecture capital. Positioned along Lake Michigan, the city is an international hub for technology, commerce, industry, finance, telecommunications, and transportation. Chicago has the third-largest gross metropolitan product in the U.S about $670 billion according to 2015 estimates. The city has one of the world's largest and most diversified economies with no single industry employing more than 15% of the workforce. In last year, Chicago hosted a record 55.0 million domestic and international visitors, making it one of the most visited cities in the United States. There are many colleges and universities in the Chicago area.

Why to Attend?

7th international conference on Forensic Chemistry provides a great platform for forensic professors, researchers, doctors, pathologists, chemists, lab technicians, students, contributors, business professionals and industrialists to exchange ideas, communicate, discuss and explore your research work and innovations in the respective fields. Many scientists, professors, doctors, researchers, and world's renowned experts will participate in this 2day conference. This conference is focusing on all the major fields of Forensic Science and Research. Conduct demonstrations, distribute information, meet with current and potential customers, make a splash with a new product line, and receive name recognition at this 2-day event. World-renowned speakers, the most recent techniques, tactics, and the newest updates in Forensic Science and Research fields are hallmarks of this conference.

Who should Attend?

Professors, Scientists, DNA analyzers, Fingerprint analyzers, Forensic science technicians, Forensic doctors, Research Associates, Forensic Investigators, Forensic Pathologists, Forensic chemists and others engaged in endeavors related to Forensic science, research and technology.

Willis Tower

The Willis Tower, built as and still commonly referred to as the Sears Tower in Chicago, Illinois, United States. The Willis Tower is the second-tallest building in the United States and the 16th-tallest in the world. More than one million people visit its observation deck each year, making it one of Chicago's most popular tourist destinations. The Willis Tower observation deck, called the Skydeck, located on the 103rd floor of the tower.

Millennium Park

Millennium Park is a public park located in the Loop community area of Chicago and originally intended to celebrate the third millennium. Millennium Park is successful as a public art venue in part due to the grand scale of each piece and the open spaces for display. Millennium Park has four major artistic highlights: the Jay Pritzker Pavilion, Cloud Gate, the Crown Fountain, and the Lurie Garden.

Navy Pier

The Navy Pier currently encompasses more than fifty acres of parks, gardens, shops, restaurants, family attractions and exhibition facilities and is the top leisure destination in the Midwestern United States drawing nearly nine million visitors annually. It is one of the most visited attractions in the entire Midwest and is Chicago's number one tourist attraction. There are many outdoor attractions at the Navy Pier Park, such as the Pepsi Wave Swinger, Light Tower Ride, Remote Control Boats and the Carouse.
