University of Bologna, Italy

Abdel Ghaly
Dalhousie University, Canada

GopalNathTiwari
Indian Institute of Technology, India

Martin J Pasqualetti
Arizona State University, USA

B. V. Babu
Galgotias University, India

Sufang Zhang
North China Electric Power University, China

Xincun Dou
Xinjiang Technical Institute of Physics & Chemistry, China

Program Announcement

Venue
Beijing, China

Important Dates
Abstract submission opens: March 16, 2015
Registration opens: March 17, 2015
Early bird registration: July 14, 2015
On spot registration: November 02, 2015

Accommodation
A large number of rooms have been reserved. Discounted room rates for Global Energy Summit 2015 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship
An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Energy Engineering.

About Beijing
Beijing is the capital of the People's Republic of China and one of the most populous cities in the world. The metropolis, located in northern china, is governed as a direct-controlled municipality under the national government, with 14 urban and suburban districts and two rural counties. Beijing is the second largest Chinese city by urban population after Shanghai and is the nation's political, cultural, and educational center. It is home to the headquarters of most of China's largest state-owned companies, and is a major hub for the national highway, expressway, railway, and high-speed rail networks. The Beijing Capital International Airport is the second busiest in the world by passenger traffic. People native to urban Beijing speak the Beijing dialect, which belongs to the Mandarin subdivision of spoken Chinese.

At the historical heart of Beijing lies the Forbidden City, the enormous palace compound that was the home of the emperors of the Ming and Qing dynasties. The Forbidden City hosts the Palace Museum, which contains imperial collections of Chinese art. Surrounding the Forbidden City are several former imperial gardens, parks and scenic areas, notably Beihai, Shichahai, Zhongnanhai, Jingshan and Zhongshan.

These places, particularly Beihai Park, are described as masterpieces of Chinese gardening art, and are popular tourist destinations with tremendous historical importance. From Tiananmen Square, right across from the Forbidden City, there are several notable sites, such as the Tiananmen, Qianmen, the Great Hall of the People, the National Museum of China, the Monument to the People's Heroes, and the Mausoleum of Mao Zedong. The Summer Palace and the Old Summer Palace both lie at the western part of the city; the former, a UNESCO World Heritage Site, contains a comprehensive collection of imperial gardens and palaces that served as the summer retreats for the Qing imperial family.
