About the conference

The 5th Global Summit on Public Health is a premier event scheduled for November 22-23, 2024, in the vibrant city of Paris, France. This summit is set to bring together leading experts, researchers, policymakers, and practitioners in the field of public health from around the world.

The conference aims to foster interdisciplinary discussions and collaborations on a wide range of topics crucial to improving global public health. Key themes include epidemiology, infectious diseases, chronic diseases, environmental health, healthcare management, and policy development. Participants will have the opportunity to engage in insightful presentations, panel discussions, and workshops led by prominent figures in public health.

Moreover, the summit will provide a platform for attendees to share their latest research findings, innovative approaches, and best practices. It serves as an excellent opportunity for networking and forging new partnerships across borders.

Why to attend the conference

The 5th Global Summit on Public Health, set for November 22-23, 2024, in Paris, France, offers a unique platform for professionals, researchers, and policymakers to converge and discuss pressing health challenges. Attending this summit provides an unparalleled opportunity to engage with thought leaders and experts in public health, facilitating the exchange of innovative ideas and best practices. Participants can expect to explore a wide range of topics, from epidemiology and disease prevention to health policy and global health security. Additionally, the summit fosters networking, collaboration, and partnerships that can drive impactful public health initiatives worldwide. Set against the backdrop of Paris, a hub of culture and innovation, this event promises not only professional enrichment but also an inspiring environment for creative thinking. Don't miss the chance to be part of a transformative dialogue that aims to shape the future of global health.
