Global Cancer 2017

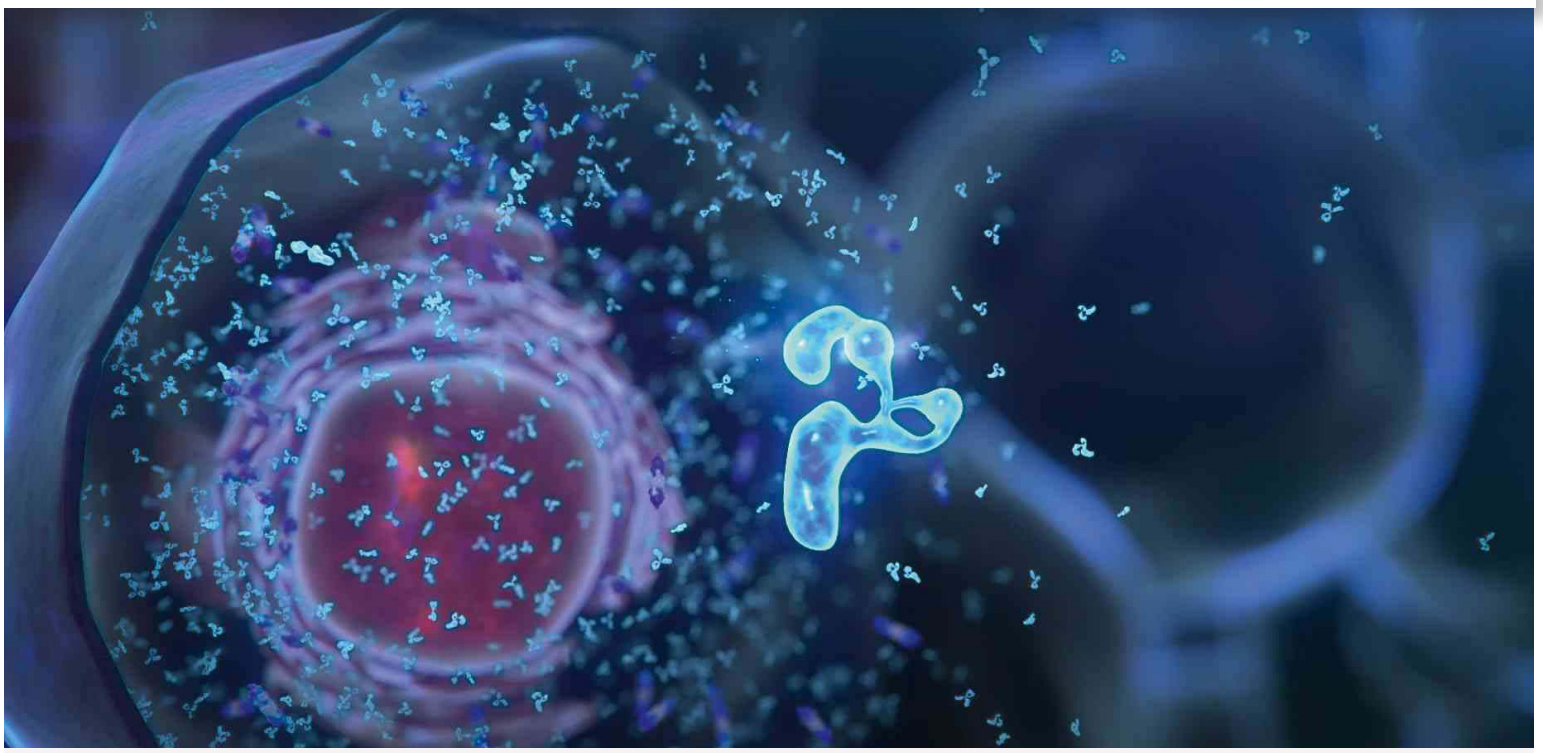

Tentative Program

Global Summit on

Oncology & Cancer

May 25-27, 2017 Osaka, Japan

Theme: "To Say Cancer is a Challenge But Not an End"

For available speaker slots

globalcancer@oncologymeet.com

300+ Participation

- **14+** Interactive Sessions
- **15+** Keynote Lectures
- **75+** Plenary Lectures
- **5+** Workshops

Conference Secretariat

5716 Corsa Ave., Suite 110, West Lake, Los Angeles, CA 91362-7354, USA

Tentative Agenda

May 25-27, 2017
Registrations
Opening Ceremony
Introduction
Keynote Forum
Keynote Presentations
Introduction
Leung KN, Chinese University of Hong Kong, China
Keynote Slots Available
Track 1: Oncology Track 2: Cancer Cell Biology Track 3: Cancer Epidemiology Track 4: Cancer Causes and Preventions
Frequency of Her2/neu Expression in Colorectal Adenocarcinoma: A Study from Developing South Asian Country
Asma Shabbir, Jinnah Sindh Medical University,Pakistan
Perception of Risks and Benefits of Smoking among Adolescents of Glacier International College, Nepal
Bibha Dhungel, Nepal Cancer Relief Society, Nepal
Raman spectroscopy colorectal- Diagnostic Accuracy of Raman spectroscopy for Colorectal Cancer: A Meta-analysis
Chenjing Zhu, Sichuan University, China
CEUS -DLBCL- Contrast-enhanced ultrasound (CEUS) in the therapeutic assessment of diffuse large B-cell lymphoma (DLBCL): a case report
Xuelei Ma, Sichuan University, China
Assessment of the Level of Knowledge about Breast Cancer, Related Symptoms and Treatment
Raghad Hamed Almusfir, king saud university, Riyadh
Long non-coding RNA Loc441461 modulates colorectal cancer cell growth through inducing cell cycle arrest at G1 phases
Kuo-Wang Tsai, Kaohsiung Veterans General Hospital, Taiwan
Loss of ETV6 expression results in aggressive prostate cancer progression: modeling through prostate cancer cell lines
Yen-Nien Liu, Taipei Medical University, Taiwan
Epigenetic silencing of miR-200 family is associated with regulation of ZEB1/ZEB2 in gastric cancer metastasis
Dong Yi Kim, Chonnam National University Medical School, Korea
Track 5 : Cancer Diagnosis and Cancer Diagnostics Track 6 : Cancer Treatment and Cancer Therapeutics Track 7 : Cancer Types Track 8 : Cancer staging Track 9 : Cancer Biomarkers Track 10 : Cancer Prognosis
Study of Momordica Charantia l. Seeds as an Alternative Cervical Cancer Prevention
Amalia Tri Utami, Islamic State University Maulana Malik Ibrahim Malang, Indonesia
The potential of Circulating Tumor Cells (CTCs) in personalized management of breast cancer: A systematic review
Fatemeh Khatami, Tehran University Of Medical Sciences, Iran
Ligand-targeted, vehicle-free microRNA replacement therapy
Andrea L. Kasinski, Purdue University, USA
High expression of Pyruvate Dehydrogenase Kinase in Cholangiocarcinoma patients
Surangkana Sanmai, Khon Kaen University, Thailand
Serum apurinic/apyrimidinic endodeoxyribonuclease 1 in cholangiocarcinoma patients
Doungdean Tummanatsakun, Khon Kaen University, Thailand

Methanolic extract of Pistacia lentiscus (MEPL) reveals anti-cancer activity and increases chemosensitivity in primary high-grade serous ovarian cancer cells
Imane Charid, University of Bejaia UAMB, Algeria
Overexpression of Cofactor of BRCA1 in HepG2 Cells: A Step Towards Understanding the Role of COBRA1 in Hepatocellular Carcinoma
Razan Jamil Masad, American University in Cairo, Jordan
High expression of apoptosis-inducing factor, mitochondrion-associated 3 (AIFM3) in human cholangiocarcinoma
Daraporn Chua-on, Khon Kaen University, Thailand
Targeted CT contrast agents for Molecular Imaging of Cancer based on Cathepsins' Elevated Activity
Darya Tsvirkun,Hebrew University of Jerusalem, Israel
Investigation of LRRC24, a putative negative regulator of ErbB receptor tyrosine kinases
Amber Andrews, Hampton University, USA
Track 10 : Cancer and Pharmacology **Track 12 : Cancer Prognosis** **Track 13 : Oncology Nursing** **Track 17 : Complementary and Alternative Medicine** **Track 18 : Oncology Case Reports**
Adverse events (AEs) After First-Line Target Therapy for Advanced Non-Small Cell Lung Cancer Patients in a Case Management Model
Zhi-Xuan Lin, Chi Mei Medical Center, Taiwan
Effect of early use of glutamine on prevention of severity oral mucosity by concurrent chemoradiotherapy in patients with head and neck cancer
Tzu-Hsuan Lin, Chung Shan Medical University, Taiwan
Apoptotic effect of Prunus spinosa fruit extract on HT-29 colon cancer cell line
Egzona Qipa,Trakya University, Turkey
Intranasal Condyloma Acuminatum With Malignant Transformation
Tengchin Wang, Tainan municipal hospital, Taiwan
The prognostic value of STIP1 and FOXE1 expression in papillary thyroid carcinoma
Ola A. Harb, Zagazig University, Egypt
Speaker slots available

Note: Tentative Program has been designed with the projected Speakers Names and Titles

Major Scientific Sessions

- Oncology
- Cancer Cell Biology
- Cancer Epidemology
- Cancer Causes and Preventions
- Cancer Diagnosis and Cancer Diagnostics
- Cancer Treatment and Therapeutics
- Cancer : Types
- Cancer Staging
- Cancer Biomarkers
- Cancer and Pharmacology
- Gynecologic Oncology
- Cancer Prognosis
- Oncology Nursing
- Cancer Vaccines
- Cancer and Pharmaceutics
- Cancer Genomics and Metabolomics
- Complementary and Alternative Medicine
- Oncology Case Reports
- Entrepreneurs Investment Meet

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

About Japan

Japan is a world apart – a cultural Galápagos where a unique civilization blossomed, and today thrives in contrasts of traditional and modern. The Japanese spirit is strong, warm and incredibly welcoming. Japan is a leading nation in scientific research, particularly technology, machinery and biomedical research. Japan leads the world in robotics production and use.

Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the "Nation's Kitchen". With a population of 2.5 million, Osaka is Japan's third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries.

The city's west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky buildingand the TempozanHarbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world.Osaka's culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade.In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture.

The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre. The Museum of Oriental Ceramics holds more than 2,000 pieces of ceramics, from China, Korea, Japan and Vietnam, featuring displays of some of their Korean celadon under natural light.The Osaka Museum of History, opened in 2001, is located in a 13-story modern building providing a view of Osaka Castle. Its exhibits cover the history of Osaka from pre-history to the present day. Osaka Museum of Natural History houses a collection related to natural history and life.

Plan your Trip to Osaka, Japan
