6th International Congress on Gynecology & Gynecologic Oncology

JULY 23-24, 2018 | ROME, ITALY

Defying the Burdens of Gynecology to Create a Better Tomorrow for Today's Women

Title: Optimizing the management of advanced ovarian malignancy using cytoreductive surgery plus regional and systemic chemotherapy

Paul H. Sugarbaker

MD, Washington DC, USA

Director, Program in Peritoneal Surface Oncology, MedStar Washington Cancer Institute, Washington, DC, USA; Secretary General, Peritoneal Surface Oncology Group International

Title: Vulvovaginal reconstruction in vulvar cancer

Daniel U. Reimer

Austria

Daniel U Reimer finished his Medical study at Medical University Innsbruck in 1998. After a Post-doc position at the Division of Biochemical Pharmacology, MUI (1998-2001) he did his specialization in Obstetrics and Gynecology at the Department of Obstetrics and Gynecology, MUI. From 2008-2011, he performed an ESGO accredited sub-specialization in Gynecologic Oncology. After his habitation in 2012, he worked as Senior Consultant at the Department of Gynecology and Oncologic Surgery,Charité Berlin from 2012-2014. To date he is working as Senior Consultant in Gynecologic Oncology at the Department of Obstetrics and Gynecology in Innsbruck and as Senior Scientist at Charité Berlin

Title: Dual tracer FLT-FDG-PET/CT in the assessment of biological parameters for simulated treatment planning in patients with cervical cancer

Paulina Cegla

Greater Poland Cancer Centre, Poland.

Electro radiology Degree. In 2017 she started PhD at the same University. Since 2011 she works as a Nuclear Medicine Radiographer in Department of Nuclear Medicine in Greater Poland Cancer Centre. She presented over 20 scientific works in European and World Conferences of Nuclear Medicine and several articles in reputed journals.

Title: Preliminary results of nimotuzumab plus concurrent IMRT and chemotherapy on cervical cancer

Qu Ang

Peking University Third Hospital,China

She is presently working as a doctor and a researcher in Department of Radiation Oncology, Peking University Third Hospital, Beijing 100191, P R China.

Title: Clinical application of 192Ir HDR interstitial brachytherapy and 125I seeds LDR permanent implantation for recurrence of GYN after pelvic EBRT.

Ping Jiang

Peking University Third Hospital,China

She is presently working as a doctor and a researcher in Department of Radiation Oncology, Cancer Centre, Peking University Third Hospital, Beijing 100191, P R China.

Title: Knowledge Attitudes and Practices Regarding Cervical Cancer and Screening among Women Visiting Primary Health Care Centres in Bahrain

Ghufran Jassim

Royal College of Surgeons in Ireland Medical University of Bahrain

Dr Ghufran graduated in medicine from Arabian Gulf University in Bahrain. She was trained as a family physician and completed the Arab Board and Irish Board in family medicine. She has practiced as a Consultant Family Physician in Bahrain since then. She received her master's degree in health policy and Population Studies from Arabian Gulf University. She joined RCSI- Bahrain in 2008, and in 2014 she was awarded a PhD degree in General Practice from the Royal College of Surgeons in Ireland. In 2015 she has completed a one-year program in Global Clinical Scholars Research Training at Harvard medical school-Harvard University. Last year she graduated from the health education profession Diploma program at RCSI. Currently, she is a full time senior lecturer at Royal College of Surgeons in Ireland- Bahrain. Her research interests are child and women health, breast cancer, non-communicable diseases and evidence-based medicine. She has published many articles in International peer reviewed journals and presented in many international and local conferences. She is the chief editor of the Journal of Bahrain medical society. Recently, she has taken up a new role as the academic coordinator for career development for medical students.

Title: Reducing Inter and Intra Observer Differences Using Biomarkers in Histological Diagnosis of Invasive Cervical Cancers And Cervical Intraepithelial Neoplasia In Ghanaian Women.

Ama Afrah

University of Ghana Medical School, Ghana

Presently She Is Working in Department of Pathology, College of Health Sciences, University Of Ghana Medical School, Legon

Title: Dosimetry and Efficacy Analysis of 125I Radioactive Seeds Implantation for Cervical Cancer with Pelvic Recurrent after Radiotherapy

Qu Ang

Peking University Third Hospital, China

She is presently working as a doctor and a researcher in Department of Radiation Oncology, Peking University Third Hospital, Beijing 100191, P R China.

Title: Clinical Application of 3D-printing individual template assisted HDR 192Ir interstitial brachytherapy for central recurrence of GYN after pelvic EBRT

Ping Jiang

Peking University Third Hospital, China

She is presently working as a doctor and a researcher in Department of Radiation Oncology, Cancer Centre, Peking University Third Hospital, Beijing 100191, P R China.

Title: Where are we in aesthetic genital surgeries for a better feminine life?

Süleyman Eserdağ

Cosmetic Gynecologist & Sexual Therapist, Istanbul, Turkey,

Dr. Süleyman Eserdağ is a Cosmetic Gynecologist and Sexual Therapist based in Istanbul, Turkey. He has 10 years of specialist experience in the biggest maternity hospital in Turkey, known as 'Zekai Tahir Burak Educational and Research Hospital'.

He is the Owner of the 3 clinics in the 3 biggest cities of Turkey, known as 'Hera Clinics'

He is a Sexologist Fellow by European Federation of Sexology (EFS) and European Society of Sexual Medicine (ESSM)

He is the Founder and the President of the International Society of Aesthetic Genital Surgery and Sexology (ISAGSS)

Title: Clinical Implication of Serial Neurophysiologic Study in Diagnosis of Chemotherapy Induced Peripheral Neuropathy

Sang IM

Yonsei University College of Medicine, Seoul, South Korea

Sang IM is a researcher in Yonsei University College of Medicine, Seoul 03722, South Korea

Title: Laparoscopic versus robotic hysterectomy in obese and extremely obese patients with endometrial cancer: a multi-institutional analysis

Giacomo Corrado

Department of Women and Children Health,Italy

Department of Women and Children Health, Gynecologic Oncology Unit

Title: Anti-Cancer Preparation Nsc-631570 (Ukrain) And Its Efficacy in the Treatment of Breast Cancer

Dr. Wassil Nowicky

"Nowicky Pharma"/ Ukrainian Anti-Cancer Institute, Vienna, Austria

Dipl. Ing., Dr. techn., DDDr. h. c., Director of "Nowicky Pharma" and President of the Ukrainian Anti-Cancer Institute (Vienna, Austria). Has finished his study at the Radio technical Faculty of the Technical University of Lviv (Ukraine) with the end of 1955 with graduation to "Diplomingeniueur" in 1960 which title was nostrificated in Austria in 1975. Dr. Wassil Nowicky became the very first scientist in the development of the anticancer protonic therapy and is the inventor of the preparation against cancer with a selective effect on basis of celandine alkaloids "NSC-631570". He used the factor that cancer cells are more negative charged than normal cells and invented the Celandine alkaloid with a positive charge thanks to which it accumulates in cancer cells very fast. Author of over 300 scientific articles dedicated to cancer research. Dr. Wassil Nowicky is a real member of the New York Academy of Sciences, member of the European Union for applied immunology and of the American Association for scientific progress, honorary doctor of the Janka Kupala University in Hrodno, doctor "honoris causa" of the Open international university on complex medicine in Colombo, honorary member of the Austrian Society of a name od Albert Schweizer. He has received the award for merits of National guild of pharmacists of America. the award of Austrian Society of sanitary, hygiene and public health services and others.

Title: Outcome of staging laparotomy in ovarian mass in limited resource centre

Sristee Shrestha Prajapati

Bhaktapur Cancer Hospital, Nepal

She is a gynecologic oncologist in Bhaktapur Cancer Hospital, Nepal

Title: Neo adjuvant chemotherapy (NACT) followed by radical surgery in locally advanced cancer cervix (LACC): a retrospective study

Sristee Shrestha Prajapati

Bhaktapur Cancer Hospital, Nepal

She is a gynecologic oncologist in Bhaktapur Cancer Hospital, Nepal

Title: Development of Novel targeted therapies for Ovarian Cancers

Bulent Ozpolat

Associate Professor, M.D., Ph.D.,
MD Anderson Cancer Centre-
The University of Texas-Houston
Department of Experimental
Therapeutics Houston, USA

Dr. Bulent Ozpolat is serving as a Professor at the Department of Experimental Therapeutics at MD Anderson Cancer Center, The University of Texas-Houston, TX, USA. After getting his M.D. degree from The University of Dokuz Eylul University Medical School, Izmir, Turkey, Dr. Ozpolat received his Ph.D. degree in Immunology from the Graduate program at The M. D. Anderson Cancer Center—The University of Texas. Dr. Ozpolat completed his post-doctoral training at MD Anderson Cancer Center at Houston Medical Center and specialized in Cancer biology, Genetics, Gene therapy, Nanotechnology and development of highly targeted therapeutics.

Dr. Ozpolat' s laboratory at MD Anderson currently focuses on 1) identification of molecular targets in highly aggressive cancers such as breast, pancreatic ovarian 2) Development of highly targeted therapeutics (including gene silencing therapies and small molecule inhibitors) for EF2K and other targets. Dr. Ozpolat is a member of Center for Targeted Therapy (CTT) and Non-Coding RNA center at MD Anderson Cancer Center and Graduate School of Biomedical sciences at The University of Texas.

Title: Nano particle formulation paclitaxel (Nanoxel) – Alternative to conventional Paclitaxel in the treatment of advanced epithelial ovarian cancer as Neo adjuvant chemotherapy

Roshan Prajapati

Medical Oncologist
Department of Medical Oncology
Bhaktapur Cancer Hospital

Roshan Prajapati is a Medical Oncologist in the Department of Medical Oncology in Bhaktapur Cancer Hospital

Title: Ovarian cancer: Single Institutional based data

Roshan Prajapati

Medical Oncologist
Department of Medical Oncology
Bhaktapur Cancer Hospital

Roshan Prajapati is a Medical Oncologist in the Department of Medical Oncology in Bhaktapur Cancer Hospital

Title: 'Picking the black hat in the ovarinoma's ' - Imaging differentiation of the malignant and benign ovarian lesions

Avni K P Skandan

Radiologist, Aster MIMS, Kottakkal, India

Avni K P Skandan is a Radiologist, Aster MIMS, Kottakkal, India researching on radiologics oncology.

Title: 'Light at the end of the Tunnel' - Role of Imaging in Female Infertility.

Avni K P Skandan

Radiologist, Aster MIMS, Kottakkal, India

Avni K P Skandan is a Radiologist, Aster MIMS, Kottakkal, India researching on radiologics oncology.

Title: Vaginal Radical Hysterectomy (Shauta's Operation) with Laparoscopic Assistance

Todua Irakli

Innova Medical Centre, Tbilisi, Georgia

Professor Mamdouh I. Nassar was born on 15 April 1957 in AL-Fayoum, Cairo –Egypt. In 1983 he graduated from Entomology Department, Faculty of Science, Cairo University. Receive his M.Sc. degree (Insect control) in 1989 from the same University.

Ph. D (Channel system) from University of Maryland College Park (USA) 1995, (Insect Control). Since he studies of his M.Sc. and Ph.D. explored the field of interdisciplinary materials for integrated control in USA (Florida and Maryland Universities), Egypt (Cairo University) and Saudi Arabia (King Abd-Alziz, Jazan, and King Khalid Universities) by application of natural toxins, botanical insecticides, biological control, bacterial control, cyanobacteria (Blue green Algae), insect growth regulators (IGR's), bee venom, irradiation and novel chemical compounds against Medical and Agriculture insects.

Title: Quantifying the impacts of built environ Characterization of human papillomavirus (HPV) genotypes among patients referred to gynecology clinics, Laleh hospitalment and surface properties on temperature

Seyed Mohammad Jazayeri

Dept Virology School of Public Health Tehran University of Medical Sciences Tehran-Iran

He is a professor in Department of Virology, School of Public Health, Tehran University of Medical Sciences, Tehran,Iran

Title: Clinical Success and Quality of Life in Fistula Patients Post-Operative Vesicovagina Reconstruction in RSCM Since January 2012-December 2016

Surahman Hakim

Obstetrics and Gynecology Department, Faculty of Medicine University of Indonesia, Jakarta

He is a professor in Obstetrics and Gynecology Department, Faculty of Medicine University of Indonesia, Jakarta

Title: Biomarkers in HPV-related cancers

F.M. Buonaguro

Molecular Biology & Viral Oncology (MBVO) Div, Ist Naz Tumori "Fond. Pascale", Naples, Italy

FM Buonaguro completed his MD at the age of 25 years from Federico II University in Naples and postdoctoral studies from Argonne Natl Lab, Chicago, IL and FHCRC, Seattle,WA-USA. He is the director of Mol Biol & Viral Oncol Division at the INT of Naples-IT. He has published more than 150 papers in indexed journals and has been serving as editorial board member of high-impact journals (including J. Carcinogenesis and Mutagenesis). He is founder and Editor in Chief of Infectious Agents and Cancer.

Title: Prevalence and factors associated with VIA (Visual Inspection of the Cervix After Acetic Acid Application) positive result among female civil servants and wives of civil servants in Special Capital Region of Jakarta in October 2017

Lady Margaretha Febriany Sirait

Division of Disease Prevention and Control, Provincial Health Office of DKI Jakarta, Indonesia

Lady Margaretha Febriany Sirait works in the Division of Disease Prevention and Control, Provincial Health Office of DKI Jakarta, Indonesia

Title: Couples' psychological adjustment related to perceptions of the fertility problem

Fahimeh Molaahmadi

Professor
Department of Endocrinology and Female Infertility, Royan Institute for Reproductive Biomedicine, Tehran, Iran

Fahimeh Molaahmadi is a Professor in Department of Endocrinology and Female Infertility, Reproductive Biomedicine Research Center, Royan Institute for Reproductive Biomedicine, ACECR, Tehran, Iran

Title: Pseudomyxoma Peritonei Revisited: A Case Report

Mary Grace Cheng

Affiliation

She is a researcher in Medical Center, Quezon City, Philippines

Title: Accuracy of mRNA HPV Tests for Diagnostic of Precursor Lesions and Cervical Cancer: A Systematic Review and A Meta-Analysis

Maria Inês Rosa

Laboratory of Biomedicine Translacional at University of Extremo Sul Catarinense, Criciúma, SC, Brazil

She is a professor and researcher in Laboratory of Biomedicine Translacional at University of Extremo Sul Catarinense, Criciúma, SC, Brazil

Title: Cesarean Scar Pregnancy: “A Rarity No More?”.

Denise Elaine A. Reyes

R.N., M.D.,Far Eastern University-Dr. Nicanor Reyes Medical Foundation, West Fairview, Philippines

Dr. Denise Elaine A. Reyes received the Doctor of Medicine degree in Far Eastern University- Dr. Nicanor Reyes Medical Foundation, Philippines. She graduated with the honor of cum laude and is currently having her Obstetrics and Gynecology residency training on the same institute. She is a strong advocate of women’s health and aims to help achieve the World Health Organization’s fifth millennium developmental goal which is to improve maternal health.

Title: Effect of Nigella Sativa and placebo on sexual dysfunction in menopausal women

Mehrnaz Valadan

Tehran University of Medical Sciences, Tehran, Iran

Mehrnaz Valadan is a professor in Tehran University of Medical Sciences, Tehran, Iran

Title: The impact of obesity on seminal fluid in patients with male infertility Syndrome

Ahmed T Alahmar

College of Pharmacy, University of Babylon, Iraq

Ahmed T Alahmar ia professor in College of Pharmacy, University of Babylon, Iraq

Title: Molecular classification of breast cancer in a moroccan population: A retrospective, pathological and statistical study of 1351 patients

Laïla Akhouayri

Laboratory of Genetics and Pathological Anatomy, Faculty of Medicine and Pharmacy, Hassan II Casablanca University, Casablanca,

Laïla Akhouayri is a rsearcher in Laboratory of Genetics and Pathological Anatomy, Faculty of Medicine and Pharmacy, Hassan II Casablanca University, Casablanca, Morocco

Title: Persistent Cervical Cancer Presenting as Superior Vena Cava Syndrome: A Case Report

Marella Bugarin

Phillipines

Marella Bugarin is a researcher and professor of gynecologic oncology from Phillipines

2nd International Congress on

Contemporary Issues in Women Cancers & Gynecologic Oncology

August 29-30, 2017 London, UK

Conference Series llc LTD
47 Churchfield Road, London, W3 6AY
Toll Free: ++0-800-014-8923

Day 1 August 29, 2017

08:30-09:10 Registrations

Endeavour

conferenceseries.com 09:10-09:40 **Opening Ceremony**

Keynote Forum

09:40-09:45	**Introduction**
09:45-10:25	**Title: Ovarian cancer screening and the clinical surveillance of ovarian abnormalities** **Edward J Pavlik,** University of Kentucky, USA
10:25-11:05	**Title: The challenge of targeted therapies in epithelial ovarian cancer** **Kwong Kwok Wong,** University of Texas, USA

Networking and Refreshments Break 11:05-11:30 @ Breakout Areas

11:30-12:10	**Title: Ultrasound screening of breast and gynecologic cancers** **Annina N Wilkes,** Thomas Jefferson University, USA
12:10-12:50	**Title: Combination epigenetic therapy for recurrent platinum-resistant-platinum refractory epithelial ovarian cancer** **Samir A Farghaly,** Cornell University, USA

Group Photo

Lunch Break 12:50-13:50 @ RBG

Sessions: Gynecologic Cancers | Ovarian Cancer | Cervical Cancer | Uterine Cancer

Session Chair: Samir A Farghaly, Cornell University, USA

Session Introduction

13:50-14:15	**Title: Knowledge and practice regarding hereditary cancer syndromes among Colorado family physicians** **Joseph De Nagy,** State University of New York at Buffalo, USA
14:15-14:40	**Title: Rho GTPases: A therapeutic target for the treatment of ovarian carcinoma** **Yang Zhao,** The First Affiliated Hospital of China Medical University, China
14:40-15:05	**Title: Knowledge and attitudes regarding cervical cancer and screening among women visiting primary health care centers in Bahrain** **Ghufran Jassim,** Royal College of Surgeons in Ireland-Medical University of Bahrain, Bahrain
15:05-15:30	**Title: Benign leiomyoma metastasizing to multiple organs and literature review** **Polonsky Ariel,** Jersey City Medical Center, USA

Sessions: Endometrial Cancer | HPV Virus | Diagnosis

Session Chair: Joseph De Nagy, State University of New York at Buffalo, USA

15:30-15:55	**Title: Multimodal counseling interventions: Effect on human papilloma virus vaccination acceptance** **Oroma Nwanodi,** A.T. Still University, USA

Networking and Refreshments Break 15:55 -16:20 @ Breakout Areas

16:20-16:45	**Title: The role of three dimension power doppler angiography in the prediction of endometrial histo-pathological pattern in women with post menopausal bleeding** **Ahmed Mohamed Mostafa Abdel Wahab Khalil,** Medway Maritime Hospital, UK
16:45-17:10	**Title: Robot assisted surgical staging for endometrial carcinoma** **Sabhyata Gupta,** Medanta - The Medicity, India

17:10-17:35	**Title : Accuracy of CT-scan versus laparoscopy and laparotomy on large bowel involvement in stage III-IV epithelial ovarian cancer (AOC), a multicentric prospective trial** **Raffaella Giannice,** Oxford University Hospital, UK
17:35-18:00	**Title: Eliminating Andean Region health disparities via human papilloma Virus vaccination administration programs implementation** **Oroma Nwanodi,** A.T. Still University, USA
	Panel Discussion

Day 2 August 30, 2017

Endeavour

Keynote Forum

09:25-09:30	**Introduction**
09:30-10:10	**Title: Cytologic abnormalities detected with Glacial Acetic Acid (GAA) treated thin preps for satisfactory cervical cancer screening** **Kim Geisinger,** University of Mississippi, USA
10:10-10:50	**Title: Role of PI3K/AKT/mTOR-signalling pathway in the context of gynaecological cancer: Reasons of chemoresistance and chance for therapy** **Jens Claus Hahne,** The Institute of Cancer Research, UK
	Networking and Refreshments Break 10:50 -11:15 @ Breakout Areas
11:15-11:55	**Title: Influence of Hyperthermic Intraperitoneal Chemotherapy (HIPEC) on morbidity and start of adjuvant chemotherapy in patients with ovarian cancer** **Michael Friedrich,** HELIOS Hospital, Germany
11:55-12:35	**Title: Truncated isoform Vav3.1 is highly expressed in ovarian cancer stem cells and clinically relevant in predicting prognosis and platinum-response** **Daniel U. Reimer,** Medical University Innsbruck, Austria
	Sessions: Women Cancers | Treatment and Therapy | Prevention and Management | HPV Vaccine
	Session Chair: Jens Claus Hahne, The Institute of Cancer Research, London
	Session Introduction
12:35-13:00	**Title: Progestin intrauterine devices and metformin: Endometrial hyperplasia and early stage endometrial cancer medical management** **Oroma Nwanodi,** A.T. Still University, USA
	Lunch Break 13:00-14:00 @ RBG
14:00-14:25	**Title: Uncertainties in cervical cancer radiotherapy and management strategies** **Gemma Eminowicz,** University College London Hospitals NHS Trust, UK
14:25-14:50	**Title: mRNA expression of chemokines, cytokines and growth factors in epithelial ovarian cancer FIGO stage IIIC microenvironment versus normal tissue: Interim analysis** **Raffaella Giannice,** Oxford University Hospital, UK
14:50-15:15	**Title: MicroRNA-505 functions as a tumor suppressor in endometrial cancer by targeting TGF-α** **Shuo Chen,** The First Affiliated Hospital of China Medical University, China
15:15:15:40	**Title: Attitudes towards human papilloma virus vaccination in the Latin American Andean Region** **Oroma Nwanodi,** A.T. Still University, USA
15:40-16:00	**YRF: Adolescent premalignant cervical disease and delayed HPV vaccination** **Carolann Risley,** University of Mississippi, USA
	Networking & Refreshment Break 16:00-16:25 @ Breakout Areas
16:25-16:45	**YRF: Knowledge and attitude towards cervical cancer screening among first year female students on the Howard college campus at the university of KwaZulu-Natal** **Oluwatosin Rotimi,** University of KwaZulu-Natal, South Africa

16:45-17:05	**YRF: Conventional Pap Technique (CPT) in comparison to the Modified Emergency Method (MEM) in the diagnosis of cytology specimens** **ODIGIE Bolaji Efosa,** University of Benin, Nigeria

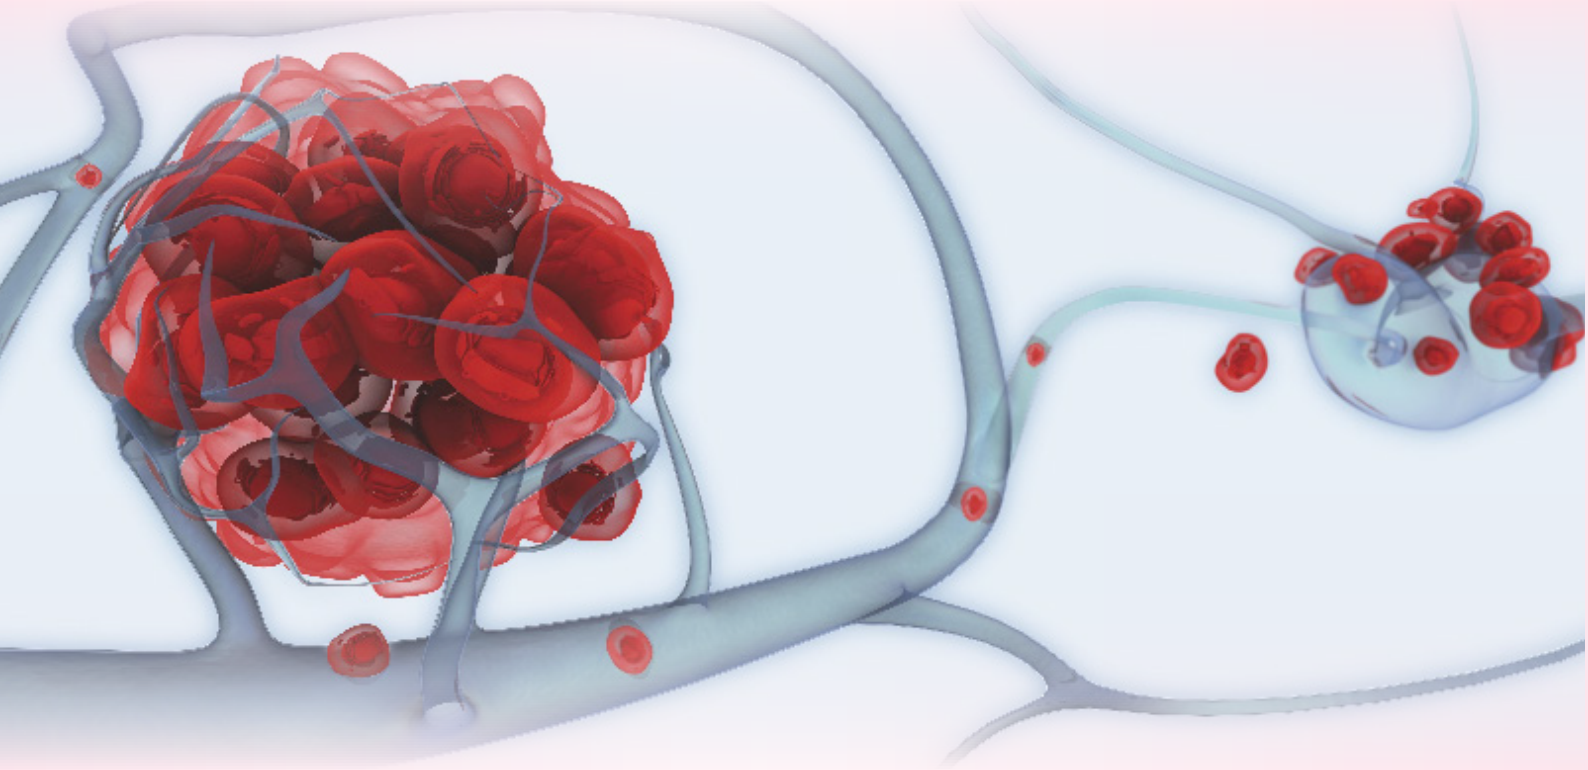

Poster Presentations @ Meeting Hall 17:05-17:30

Poster Judge: Kim Geisinger, University of Mississippi, USA

CP 1	**Title: Should post menouposal women be screened only by HPV testfor cervical cancers?** **Sema Zergeroglu,** Zekai Tahir Burak Women Health Educational and Research Hospital, Turkey
CP 2	**Title: Chemokines mRNA expression in epithelial ovarian cancer FIGO stage IIIC microenvironment versus normal tissue: Preliminary results** **Raffaella Giannice,** Oxford University Hospital, UK
CP 3	**Title: Improving cervical cancer screening in Ghana using biomarkers** **Ama Afrah,** University of Ghana, Ghana
CP 4	**Title: Breast self-examination knowledge and practice among Kuwaiti women** **Maha Al-Sejari,** Kuwait University, Kuwait
CP 5	**Title: A comparative situation analysis on pre-cancerous lesions among slum and brothel dwelling women and average housewives who fall within the reproductive age group and living in Bangladesh** **Samiya Mahmood,** Marie Stopes Bangladesh, Bangladesh

Lunch

Major Sessions on

Gynecologic Cancers | Gynecologic Cancer Treatment| HPV | Gynecology Oncology Research

Session Chair: Jianyu Rao, University of California, USA

Session Chair: Maria Lina Tornesello, Istituto Tumori Napoli Fondazione G. Pascale, Italy

Session Introduction

Title: Primary HPV genotyping with reflex Pap cytology for cervical cancer screening
Alex Ferenczy, Mc Gill University, Canada
Title: Clinical outcome of recurrent locally advanced cervical cancer (LACC) submitted to primary multimodality therapies
Francesco Legge, F Miulli General Regional Hospital, Italy
Title: Clinico-pathological and molecular aspects of stage I ovarian carcinoma: Could we have a new diagnostic and therapeutic approach
Liane Deligdisch, Mount Sinai School of Medicine, USA
Title: Genetic alterations are frequent and hetrogenously distributed in HPV-related carcinoma of different anatomical sites
Maria Lina Tornesello, Istituto Tumori Napoli Fondazione G. Pascale, Italy

Networking & Refreshment Break

Title: Uterine leiomyosarcoma: A clinical challenge for gynecologist and oncologist
Angiolo Gadducci, University of Pisa, Italy
Title: Pinostrobin inhibits human cervical cancer cell proliferation and induces apoptosis by modulating the GSH/NO/ROS signaling pathways
Alka Jadaun, Jawaharlal Nehru University, India
Title: Cervical cancer stem cells and stem cell-related transcriptional factors in cervical carcinogenesis
Peng-Sheng Zheng, Xi'an Jiaotong University
Title: The uptake of cervical cancer screening services by nurses of Thika Level 5 Hospital, Kiambu County in Kenya
Ngutiku Joseph Murith, Mathare Medical Training College, Kenya

Poster Session

Introduction

Title: Cervical Cancer screening
Mandana Vahabi, Rayerson University, Canada

Networking and Refreshments Break

Title: Effect of NBS1 gene polymorphism on the risk of cervix carcinoma in northern Indian population
Shekari M, Punjab University, India
Title: Cervical cancer: Ethiopia's outlook
Netsanet Abera Asseffa, Wolaita Sodo University, Ethiopia
Title: The importance of re-examination with deep biopsies in diagnosing cervical malignancies despite multiple negative pathology reports: A case report
Azadeh Memarian, Iran University of Medical Sciences, Iran
Title: Prevalence and factors associated with VIA positive result among clients screened at Family Guidance Association of Ethiopia, south west area office, Jimma model clinic, Jimma, Ethiopia 2013: A cross-sectional study
Zewdie Mulissa, Columbia University-ICAP, Ethiopia

Panel Discussion
