# INVITATION

## HEALTH & NUTRITION 2026

Dear Attendees,

The 8th World Summit on Health Nutrition cordially invites you to attend the upcoming conference scheduled to take place on November 26–27, 2026, in Paris, France under the theme "Innovations and Strategies for Global Health & Nutritional Well-being." This prestigious international summit is expected to bring together nutritionists, dietitians, healthcare professionals, researchers, academicians, clinicians, public health experts, wellness specialists, and industry leaders from across the globe.

The scientific program will feature keynote lectures by distinguished speakers, oral presentations by leading experts, poster sessions by young researchers and students, and interactive discussions covering the latest advancements in health nutrition, public health, clinical nutrition, dietary science, and wellness research. The conference will highlight innovative approaches, evidence-based practices, and emerging strategies aimed at improving global health and nutritional well-being.

The 8th World Summit on Health Nutrition aims to provide a dynamic platform for sharing scientific knowledge, discussing current challenges, and promoting collaboration among healthcare professionals, researchers, academic institutions, and industry experts. The conference will also offer valuable opportunities for international networking and professional exchange with renowned experts in the field.

We look forward to welcoming you to Paris for an enriching scientific and professional experience.

Warm regards,
Christian Lauren | Program Manager

# ABOUT VENUE

Paris is widely regarded as the most romantic city in the world and is home to many world-famous landmarks often featured in travel magazines, films, and works of art. As the capital of France, Paris has a population of over two million and is one of the most-visited cities in Europe. It earned the nickname “City of Light” for two key reasons. First, in the 1860s, Paris became one of the first European cities to use gas street lamps, quite literally lighting up the city. Secondly, during the 18th century, Paris played a central role in the Age of Enlightenment, making it a beacon of intellectual and cultural development. Fashion has long been a key element of Parisian culture, with roots tracing back to the 1670s and the establishment of the Paris fashion press. Many credit France’s iconic style to King Louis XIV, also known as the Sun King. While Paris is often seen as the heart of French culture—renowned for its fashion, cuisine, art, and architecture—life outside the capital is distinctly different and varies by region. Interestingly, France doesn’t just have culture—the word “culture” itself is French.
