Healthcare IT 2020

3rd International Conference on

Healthcare Informatics and Wellness

May 11-12, 2020 | Munich, Germany

https://healthcareinformatics.insightconferences.com/

Invitation

Dear Colleagues,
Conference Series LLC Ltd. is delighted to welcome you to Munich, Germany for Healthcare IT 2020.

The conference will focus on **"A Step towards Better Healthcare System."** We are confident that you will enjoy the scientific sessions of this upcoming conference.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Healthcare Informatics and Wellness Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.
We look forward to see you in Munich, Germany this May.

Sincerely,
Healthcare IT 2020
Organizing Committee

What is Healthcare IT 2020 ?

Healthcare IT 2020 is honored and delighted to welcome the Scientists, Engineers, Doctors and consultants, Students from the sector of healthcare informatics and wellness , to attend our **"3rd International Conference on Healthcare Informatics and Wellness"** on May 11-12, 2020 at Munich, Germany. Theme of the Healthcare IT 2020 conference is "A Step towards Better Healthcare System".

Healthcare IT 2020 that aims to improve health outcomes and healthcare system performance in direct patient care, design and governance of healthcare organizations and therefore the healthcare system, and health information discovery and management, through the applying of technology (hardware, software, and communication.

Healthcare IT 2020 could be a specially designed cluster conference that consists of keynote displays, Oral talks, Poster displays, Workshops, Panel Discussions and Exhibitions, Young Research Forums (YRF), Best Poster Award, business educational interactive sessions, and business displays.

Major Sessions

Healthcare Informatics
Healthcare Technologies
Digital Healthcare Technology
Telemedicine
E- Health
E-Prescription
Translational Bioinformatics (TBI)
Healthcare and innovation
Health Informatics and Big Data
Ayurvedic and Aesthetic Medicine
Health Information technology in rural healthcare
Biomedical informatics
Health Informatics Management
Maternal and child's Health
Remote Patient Monitoring
Big data analytics
Pharmacy Informatics
Public Health Informatics
Artificial Intelligence
Imaging Informatics
Dental Informatics
Clinical Informatics
Nursing Informatics

Supporting Journals

Journal of Community Medicine & Health Education
Journal of Health & Medical Informatics
Health Science Journal
Archives of Medicine

Host City

Sitting on the fringes of the snow-capped Bavarian Alps, multi-layered Munich is a town that revels in its contradictions. It's Germany's most visited destination after Berlin, however it presents two terribly completely different faces to the globe. the primary is that of a modern metropolis, driven by technology and innovation, somewhat defined by the likes of BMW (whose high-tech headquarters could be a massive visitor attraction) and FC Bayern Munich, the hyper-successful team whose 21st-century sports stadium looms on the city outskirts like some giant spacecraft.

The second is that of a deeply traditional city, best legendary for the beer-swilling rumpus of Oktoberfest however defined year-around by dirndl-wearing waitresses, gingerbread architecture and therefore the contumaciously German strain of warm welcome referred to as Gemütlichkeit. Fittingly, among the flashy new boutiques and region previous bierkellers (beer halls), the citizens voters are relaxed with this mixture of cosmopolitan consumerism and old-world customs. The immense new, energy-efficient Siemens hq is being designed on a central square that also hosts a medieval Christmas market – that rather says it all. this suggests finding yourself stuck for one thing to try and do is unlikely. Munich's history could be a patterned factor, starting from idiom to Nazism, however that creates it a desirable place to explore. There are trendy art galleries and glitzy nightclubs (the town being one of the first homes of disco), medieval churches and family palaces, riverside cafés and historic theatres.

Vision & Plan

International Market Approach

The global healthcare informatics market was valued at USD 39.45 billion in 2016 and is predicted to succeed in USD 123.24 billion by 2025, growing at a CAGR of 13.74% from 2017-2025. The increased adoption of electronic health record (EHR) is expected to enhance market growth. These systems have found increased penetration in hospitals and alternative care institutions.

Increase in government spending in developing & upgrading healthcare infrastructure and expanding hospital network is expected to spice up the demand for electronic health record systems over the coming years. Stringent rules enforced within the North American and European region referring to safety and confidentially of patient to boost is also anticipated to foster market development.

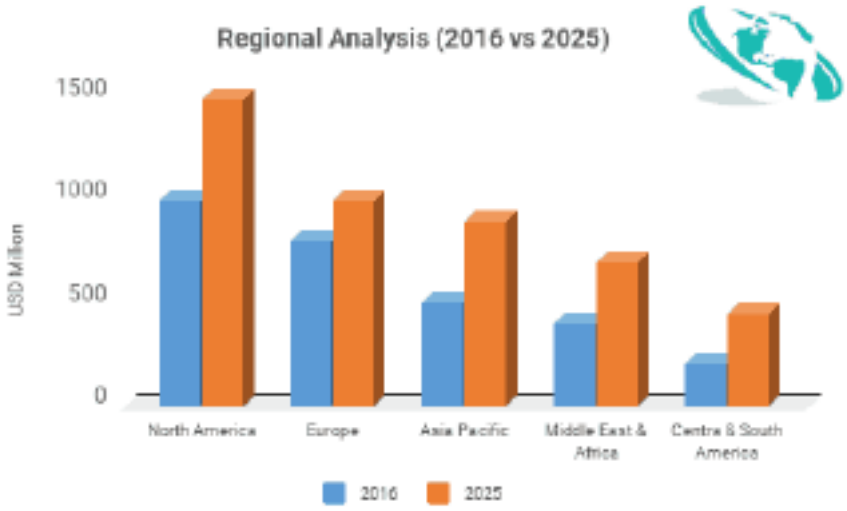

The need for an integrated system to diagnose, interpret & analyze, treat and record information is predicted to increase preference for healthcare informatics. These systems helps health care provides deliver correct treatments instantly by analysis past records and coverings. However, an information security issue including lack of skilled IT professionals is anticipated to lag the market growth over the coming years

Healthcare Informatics Market: Regional Insights

The market is expected to expertise high demand within the North American market on account of increased adoption of technological advanced systems and IoT technologies. The demand for health care informatics is expected to grow at the very best CAGR within the Asia Pacific region. Many firms have shown interest in investing and developing solutions to digitalize health care records. Developing & developed countries have experienced huge developments in health care infrastructure as well as equipment, services, facilities, and knowledge communication technology among others. Favorable government laws area unit projected to completely influence market growth over the approaching years.

The need for an integrated system to diagnose, interpret & analyze, treat and record information is expected to extend preference for health care informatics. These systems helps health care provides deliver correct treatments instantly by analysis past records and coverings. However, information security an issue including lack of skillful IT professionals is anticipated to slowdown the market growth over the coming years.

Sponsorship and Exposure

Diamond

- Three workshop slots (audio visual included).
- Two complimentary exhibit booths with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Four complimentary registrations
- Logo recognition on congress website front page with link, sponsorship page
- One A4 color advertisement in the congress souvenir
- Three inserts provided by the sponsor in the congress delegate bags

Platinum

- Two corporate sponsored workshop slots
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Three complimentary congress registrations
- Logo recognition on congress website front page with link and logo recognition on congress sponsorship page
- One A4 color advertisement in the congress souvenir
- Two inserts provided by the sponsor in the congress delegate bags.

Gold

- Two complimentary congress registrations
- One corporate sponsored workshop slot
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Logo recognition on congress website sponsorship page
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages)
- One insert provided by the sponsor in the congress delegate bags
- Priority to purchase additional sponsorship items

Exhibition

- One complimentary congress registration
- Set up of one tailor-made exhibit booth (Booth Size 3x3 sqm)
- Logo recognition on congress website sponsorship page
- Color Advertisement in Congress souvenir
- Inclusion of your company's leaflet/insert in the congress delegate bags
- An exclusive online promotion on all our social Networking Sites
- Shape and raise your corporate image through logo branding
- Press Release on behalf of your company
