4th World Conference on

HEART AND BRAIN

June 29

2021

About Conference

With the coordination of organizing committee, “4th World Heart and Brain Conference” Webinar will be scheduled during June 29, 2021 focusing on the theme “Towards a healthy palpitation and synaptic signals”. Interested peoples are welcomed to share their analytical data and research work within the space of Cardiac and Neurological Health.

HEART BRAIN 2021 will be a great platform for exchanging new ideas and research. It’s a 1-day event which will grab the attendee’s attention to explore in field of Neurological and Cardiovascular Health. This gathering will provide networking sessions for Neurologist, Cardiologist, Cardiac Surgeons, Neuro Surgeons, Scientists, Professors, Business Assistants, Students, and individuals from all medical associations and universities. Through the help of the Keynote Speakers, Symposium, workshops, and exhibition it will be more efficient and both convenient to gather quality information for different individual purposes. Topics for the speakers are mentioned within “call of abstract” accordingly submission of their own abstracts, papers, case reports and posters would be accepted. Delegates, speakers, doctors, students, academicians and groups can join “Heart and Brain 2021” with affordable prices. Registration is available for everyone all over the world through the suitable option mentioned in the registration page.
