INVITATION

Dear Attendees,

International conference on Viral Hepatitis 2022 takes the privilege to invite all the participants, speakers, students, delegates, sponsors, exhibitors from all over the world to attend our conference which is going to be held on March April 18-19, 2022 Madrid, Spain This conference acts as a best platform for attendees to learn about the recent trends in Hepatology. The meeting brought together a diversity of scientific, technical and community interests to discuss opportunities and challenges for increased prevention, diagnosis and treatment of viral hepatitis in people living with HIV, particularly in low- and middle-income settings. HIV/STI/viral hepatitis testing program managers, surveillance coordinators, and diagnostic industry representatives. Professionals from all aspects of HIV, STI, and viral hepatitis testing are encouraged to attend this conference, which features oral presentations, poster sessions, panel discussions, testing technology exhibits, and networking opportunities.

The hepatitis2022 Viral Hepatitis Testing Conference will offer a diverse array of sessions and opportunities in a virtual format.

Conference Theme: Cutting-edge research and prevention awareness of viral hepatitis Disease

Scope and Importance:

Treatment of Hepatitis is on the cutting edge of medicine. Hepatitis B virus infection (HBV) has been recognized as a major health problem worldwide and Hepatitis C virus (HCV) infection is the most common chronic blood borne infection in the United States. Viral hepatitis treatment depends on how active the virus is in your body. Viral hepatitis is the most common cause of hepatitis worldwide. Other causes of non-viral hepatitis include alcoholic hepatitis and autoimmune hepatitis.

We look forward to personally welcoming you to our conference!

Sincerely,
Hepatitis 2022
Organizing Committee

ABOUT VENUE

MADRID, SPAIN

Madrid, city, capital of Spain and of Madrid provincial (province). Spain's arts and financial center, the city proper and province form a comunidad autónoma (autonomous community) in central Spain. Madrid's status as the national capital reflects the centralizing policy of the 16th-century Spanish king Philip II and his successors. The choice of Madrid, however, was also the result of the city's previous obscurity and neutrality: it was chosen because it lacked ties with an established nonroyal power rather than because of any strategic, geographic, or economic considerations. Indeed, Madrid is deficient in other characteristics that might qualify it for a leading role. It does not lie on a major river, as so many European cities do; the 16th–17th-century dramatist Lope de Vega, referring to a magnificent bridge over the distinctly unimposing waters of the Manzanares, suggested either selling the bridge or buying another river. Madrid does not possess mineral deposits or other natural wealth, nor was it ever a destination of pilgrimages, although its patron saint, San Isidro, enjoys the all-but-unique distinction of having been married to another saint. Even the city's origins seem inappropriate for a national capital: its earliest historical role was as the site of a small Moorish fortress on a rocky outcrop—part of the northern defenses of what was then the far more important city of Toledo, located about 43 miles (70 km) south-southwest. Madrid tops in the list of the greenest cities in Europe.

• Madrid organises midways such as FITUR, ARCO, SIMO TCI and the Cibeles Madrid Fashion every Week.

• Madrid is an art-lovers paradise, and many visitors spot to the so-called 'Golden Triangle'.

• Madrid is one of Europe's low-priced capital cities, perfect for the traveler's budget – you can eat, drink and get around town without spending a lot.

• Madrid has countless green places, Retiro Park's statues, fountains, and floral features offer the city.
