Invitation

Invitation

Dear Colleagues,

On behalf of the scientific committee, it gives me immense pleasure to invite you to the Hepatology meeting that is going to be held in Dhabi, UAE on April 27-28, 2017

The conference is designed to meet the needs of adult and pediatric gastroenterologist with particular emphasis on hepatic medical and surgical issues. Sessions will concentrate on a variety of topics pertaining to hepatic pathology both in adult and children. The event will feature faculty of leading experts in this field, the meeting consists of updates of multiple topics, plenary sessions, expert review and discussion. At the conference, you will see an impressive program, rich in scientific content and a unique gathering of delegates on the forefront of knowledge to improve medical and surgical outcomes for children and adults.

With ample opportunity to network, collaborate, and share ideas for better tools to improve medical and surgical outcome in the field of Hepatology, this should be the meeting you plan to attend in 2017. We are looking forward to seeing you in the forthcoming meeting in Dubai.

Let's meet on April 27-28, 2017 and build new strategies for hepatic diseases. This is an opportunity not to be missed!

Expertise Outlook on Psychiatry Conferences

Mark Feitelson, Temple University, USA
I very much appreciated the opportunity to attend the conference and for the assistance in helping to make this possible. Overall, the conference was very good. I especially enjoyed the international flavor of the presentations provided by people from all over the world. The presence of young people from developing countries at the conference was also a strength, since many presented a perspective and understanding that would otherwise go unappreciated.

Arnolfo Petruzziello, IRCCS, Fondazione G.Pascale, Italy
Thank you very much for the great opportunity you gave us to be part of the Hepatology 2016 Conference event in Chicago. It was a great pleasure for me to be there and share my experiences and studies with so many qualified colleagues. A special thanks to the organization. Everything was perfect. Compliments for the perfect organization and for the high scientific impact of this event, a rich platform for sharing the latest ongoing research on Hepatology.

Yuming Wang, Professor, Third Military Medical University, China
Thank you very much for your hospitalities. I was very glad to know that people are very interested in the study of perinatal transmission in HBV-infected pregnant women.

Vince Fragomeli, Napean Hospital, Australia
Many thanks for the assistance with this conference. All went well and my presentation was well received.
