Plan a trip in Dubai

Venue

Dubai is a city in the United Arab Emirates, located within the emirate. The emirate of Dubai is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. It has the largest population in the UAE (2,106,177) and the second-largest land territory by area (4,114 km2) after Abu Dhabi. Is one of the few cities in the world that has undergone such a rapid transformation - from a humble beginning as a pearl diving centre - to one of the fastest growing cities on Earth. Dubai today is a tourism, trade and logistics hub and has earned itself the reputation of being the 'gateway between the east and the west'. It is also considered as the dynamic nucleus of the Arabian Gulf region.

Dubai has a fascinating history and a vibrant heritage that provides visitors an intriguing glimpse into Arabian culture. A place to start exploring the heritage and history of Dubai is the Dubai Museum. It is located inside the Al Fahidi Fort, one of the Dubai's oldest buildings dating back to 1787. There are other museums in Dubai that also offer insights into the history and growth of the city and of the United Arab Emirates.
