Human Genetics Congress 2017

Invitation

Dear Attendees,

We are glad to announce the **3rd World Congress on Human Genetics & Genetic Disorders & Genetic Disorders** to be held in **Toronto, Canada** from **October 20-21, 2017** organized by **Conference Series, USA** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Human Genetics & Genetic Disorders, Cellular & Molecular Genetics, Clinical Genetics, Stem Cells & Regenerative Medicine, Cancer Genetics, Genomics in Disease & Evolution, Diabetes and Obesity, Congenital Disorders, Cytogenetics, Transplantation, Neurodevelopmental Disorders, Pharmacogenomics, Pharmacogenetics, Drug Discovery, Bioinformatics in Human Genetics & Genetic Disorders and Anthropology and will be available to discuss with you the latest issues and trends in ***Novel Approaches to Unraveling the Human Genome and Genetic Disorders.***

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Human Genetics & Genetic Disorders Congress to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to **Toronto** this October.

Sincerely,
Human Genetics Congress 2017
Organizing Committee

Market Analysis Report

Scope and Importance of Human Genetics & Genetic Disorders:

Scope: The Scope of the conference is to gather all the Doctors, Researchers, Business Delegates and Scientists to approach and deliver all the attendees about the latest scientific advancements on the respective sphere. This Human Genetics & Genetic Disorders Conference is the premier event focusing on understanding individual and organizational behaviour and decision-making related to genetics and molecular biology, biotechnology, pharmaceuticals, medicals and academia.

Importance: Conference on Human Genetics & Genetic Disorders is a much celebrated conference which basically deals with the latest research and developments in the sphere of genetics and molecular biology. This Conference will provide a perfect platform to all the International mix of leading Research Scholars, and Scientists achieved eminence in their field of study, research academicians from the universities and research institutions, industrial research professionals and business associates along with Ph.D. Students to come and inform all the attendees about the latest scientific advancements on the respective sphere.

Today's Market Study of Human Genetics & Genetic Disorders in USA | Europe | Middle East | Asia Pacific

USA: The USA Genetics market is poised to reach USD 19.99 Billion by 2020, growing at a CAGR of 9.9% during the forecast period of 2015 to 2020.

Europe: The Europe genetic testing market is estimated at USD 1.22 billion in 2016, and is projected to reach USD 1.8 billion by 2021, growing with a compound annual growth rate (CAGR) of 8.2% during the forecast period, 2016-2021.

Middle East: The global Human Genetics & Genetic Disorders identification market was valued at an estimated $419.4 million in 2013 and is expected to grow at a CAGR of 13.9% in the next five years.

Asia pacific: The global gene expression analysis market is projected to reach USD 5.30 Billion by 2020 from USD 3.39 Billion in 2015, at a CAGR of 9.3% from 2015 to 2020. The primary growth engine in this region is China, which is expected to register a growth rate of 13.2% in the forecast period.

About Us

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+** facebook fans Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- **Robust on-line publicity** for all the speakers and organizing committee members
- **Career Guidance** Workshops for students and early career researchers
- **Accepted Abstracts** will be published in various **indexed journals**
- **Accepted abstracts** will be labeled with a **Digital Object Identification Number** (DOI) provided by **Cross Ref**
- **Creation** of speakers and abstracts pages in Google
- **Opportunity** to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be published inrespective Conference Series Journals

Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Human Genetics Congress 2017 Conference website is attracting **25000+** Geneticists, Molecular Biologists, Medical Professionals online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Human Genetics Congress 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

Purpose

3rd World Congress on Human Genetics & Genetic Disorders & Genetic Disorders is an arena for interdisciplinary exchange among professionals in the fields of Genetics, Molecular Biology and Genomics.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Geriatrics and Gerontological Nursing present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Human Genetics & Genetic Disorders and Genomics
- Discuss and apply recent research findings related to Human Genetics & Genetic Disorders and Genomics
- Reflect on the place of critical distance in Human Genetics & Genetic Disorders and Genomics

About Conference

Who should attend

3rd World Congress on Human Genetics & Genetic Disorders & Genetic Disorders is exclusively designed for Geriatricians, Physicians, Geneticists, Molecular Biologists, Medical Professionals, Pharmaceutical Companies, R&D section, Cell Biologists, Genetic Councilors and others engaged in endeavors related to Genetics and Molecular Biology Research Centers..

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies.** All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the **DOI** provided by Crossref

Major sessions

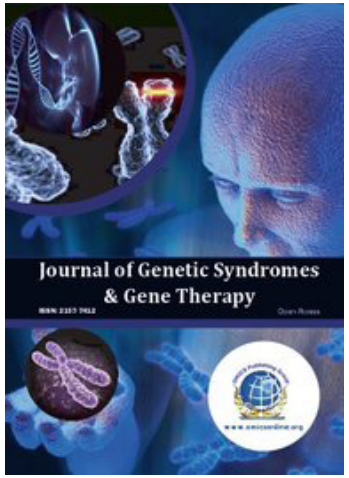

- Human Genetics & Genetic Disorders
- Cellular And Molecular Genetics
- Clinical Genetics
- Genomics : Disease and Evolution
- Cancer Genomics
- Stem cells and Regenerative Medicine
- Cancer and Genome Integrity
- Diabetes and Obesity
- Congenital Disorders
- Cytogenetics
- Transplantation
- Neuro-developmental Disorders
- Pharmacogenetics
- Drug Discovery
- Bioinformatics in Human Genetics & Genetic Disorders
- Anthropology

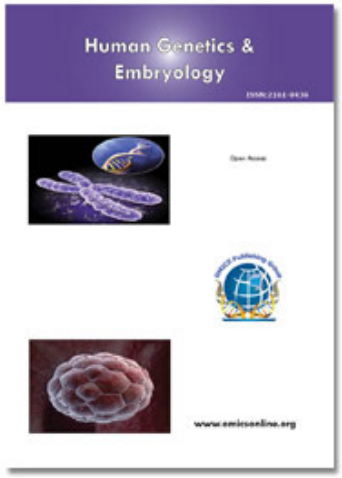

About Conference

Supporting Journals

- Hereditary Genetics : Current Research
- Journal of Hereditary Genetics and Gene Therapy
- Human Genetics & Genetic Disorders and Embryology

About Toronto

Toronto is the most populous city in Canada, and the capital of the province of Ontario. Toronto is a leading international centre of business, finance, arts, and culture. Toronto is a prominent centre for music, theatre, motion picture production, and television production, and is home to the headquarters of Canada's major national broadcast networks and media outlets. Its varied cultural institutions, which include numerous museums and galleries, festivals and public events, entertainment districts, national historic sites, and sports activities, are key attractions to the over 25 million tourists that visit the city every year. Toronto is well known for its sky scrapers and high-rise buildings, in particular the tallest free-standing structure in the Western Hemisphere, the CN Tower.Located in Southern Ontario on the northwestern shore of Lake Ontario, Toronto is situated on a broad sloping plateau intersected by a vast network of rivers, deep ravines, and urban forest .It anchors the Golden Horseshoe, a densely populated region surrounding the western end of Lake Ontario that is home to 8,686,923 people, or around 26% of the entire population of Canada .The cosmopolitan and multicultural demographics of Toronto reflect its current and historical role as an important destination for immigrants to Canada. It is one of the world's most diverse cities, with about 50% of residents having been born outside of Canada, and over 200 distinct ethnic origins represented among its population. While English is the primary language spoken by the majority of Torontonians, there are over 160 different languages spoken in the city.
