11th World Congress

Human Genetics and Genetic Diseases

July 10-11, 2023 | Dubai, UAE

ABOUT CONFERENCE:

ME Conferences kindly extends an invitation to all members and participants from across the world to participate in "11th World Congress on Human Genetics and Genetic Diseases", which will be held on July 10-11, 2023 Dubai, UAE ,which will explore the most cutting-edge research and development in human genetics . A number of outstanding researchers, scientists, industrialists, and others will be attending to showcase their groundbreaking work, share their experiences from various perspectives, and address important questions.

Target Audience

- Pharmaceutical companies
- CEO of Genetic companies
- Directors of Genetic companies
- Business Entrepreneurs
- R&D department people
- Bio-pharmacists
- Nutritionists
- Clinical protocol developers
- Geneticists
- Genetic Counselors
- Genomics Faculty
- Researchers
- Scientists
- Students
- Professors
- Training Institutes
- Genetic engineers
- Molecular biologists
- Doctors
- Data Management Companies
- Enthusiastic people
- Software developers

Conference Sessions

- Classical genetics
- Immuno genetics
- Phylogenetics
- Comparative genomics
- Clinical genetics
- Gene function prediction
- Genome Integrity
- Genetic epidemiology
- Common genetic diseases
- Lethal genetic diseases
- Nutrigenetics & Nutrigenomics
- Cancer Genetics
- Gene therapy
- Neurogenetics
- Pharmacogenomics
- Genetics Cardiovascular Diseases
- Cytogenetics
- Population genetics
- Biochemical genetics
- Genetic counseling
- Yoga practice and genetic changes
