Tentative Program

2nd International Conference on

Hypertension & Healthcare

September 11-13, 2017 Amsterdam, Netherlands

Theme: "New insights in diagnosis and management for hypertension"

For Available Speaker Slots

hypertension@conferenceseries.net

19+ Interactive Sessions	15+ Keynote Lectures	75+ Plenary Lectures	5+ Workshops

Conference Secretariat

2360 Corporate Circle, Suite 400 Henderson, NV 89074-7722, USA

Tel: +1-702-508-5200 Ext: 8047, Fax: +1-650-618-1417, Ph: +1-650-268-9744, Toll free: +1-800-216-6499

Email: hypertension@conferenceseries.net ; hypertension@conferenceseries.com

http://hypertension.conferenceseries.com/

Day 1

Morning Sessions	Reception/Registration	08.00-09.00	
		Time	General Session
	Least of 3 Keynote/Plenary Talks	09.00-09.15	Inaugural Address
		09.15-09.45	Keynote/Plenary Talk 1
		09.45-10.15	Keynote/Plenary Talk 2
		10.15-10.45	Keynote/Plenary Talk 3
	Panel Discussions/Group Photo		
	Coffee/Tea Break 10.45-11.00 (Networking)		
	11.00-12.40	Hypertension	
Evening Sessions			
	Lunch Break 12.40-13.30		
	13.30-15.30	Hypertension & Obesity	
	Coffee/Tea Break 15.30-15.45 (Networking)		
	15.45-17.25	Workshop	

Day 2

Morning Sessions		Time	Session 1	Session 2
	09.00-10.40	Keynote Forum	Renal Hypertension
	Coffee/Tea Break 10.40-10.55 (Networking)		
	10.55-12.35	Pulmonary Hypertension	Hypertension in Pregnancy
Evening Sessions			
	Lunch Break 12.35-13.25		
	13.25-15.05	Hypertension Risk Factors	Hypertension Diagnosis
	Coffee/Tea Break 15.05-15.20 (Networking)		
	15.20-17.00	Hypertensive Emergency	Hypertension Epidemiology

Day 3

Morning Sessions		Time	Session 1	Session 2
	09.00-10.40	Young Research Forum	Diet and Lifestyle in Hypertension management
	Coffee/Tea Break 10.40-10.55 (Networking)		
	10.55-12.35	Advanced Treatment Approaches	Naturopathic Remedies
Evening Sessions			
	Lunch Break 12.35-13.25		
	13.25-15.05	Experimental Hypertension	Clinical Case Reports
	Awards & Closing Ceremony		

NOTE: Program Shedule is subject to change with final allotment of the speaker slots

For more Details PS: http://hypertension.conferenceseries.com/
hypertension@conferenceseries.net | hypertension@conferenceseries.com

Note: *Workshops and Symposia slots are available. To book slot for Workshop and Symposium send us the proposal.*
Call for Abstract: *http://hypertension.conferenceseries.com/call-for-abstracts.php*
Registration: *http://hypertension.conferenceseries.com/registration.php*
Abstract Submission: *http://hypertension.conferenceseries.com/abstract-submission.php*

Glimpses of Cardiology Conferences

Glimpses of Cardiology Conferences

Major Scientific Sessions

- ·Hypertension
- ·Hypertension & Obesity
- ·Renal Hypertension
- ·Pulmonary Hypertension
- ·Pediatric Hypertension
- ·Gestational Hypertension
- ·Hypertension Risk Factors
- ·Hypertension Diagnosis
- ·Pharmacological Treatments for Hypertension
- ·Hypertensive Emergency
- ·Hypertension Management
- ·Hypertension Epidemiology
- ·Advanced Treatment Approaches
- ·Naturopathic Remedies
- Case Reports

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

About Amsterdam

Amsterdam is the capital and most populous municipality of the Kingdom of the Netherlands. Its status as the capital is mandated by the Constitution of the Netherlands although it is not the seat of the government and it is legacies of citys 17th-century. Amsterdam has a population of 841,186 within the city proper, 1,337,743 in the urban area and 2,431,000 in the Amsterdam metropolitan area. The city is located in the province of North Holland in the west of the country.

The etropolitan area comprises much of the northern part of the Randstad, one of the larger conurbations in Europe, with a population of approximately 7 million. Amsterdam's the name derives from Amstelredamme the city's origin as a dam of the river Amstel. Originating as a small fishing village in the late 12th century, Amsterdam became one of the most important ports in the world during the Dutch Golden Age a result of its innovative developments in trade. During that time, the city was the leading centre for finance and diamonds and in the 19th and 20th centuries the city expanded, and many new neighbourhoods and suburbs were planned and built.

The 17th-century canals of Amsterdam and the 19–20th century Defence Line of Amsterdam are on the UNESCO World Heritage List. As the commercial capital of the Netherlands and one of the top financial centres in Europe, The city is also the cultural capital of the Netherlands. Amsterdam was ranked the second best city in which to live by the Economist Intelligence Unit and 12th globally on quality of living for environment and infrastructure by Mercer. Amsterdam's main attractions, including its historic canals, the Rijksmuseum, the Van Gogh Museum, Stedelijk Museum, Hermitage Amsterdam, Anne Frank House, Amsterdam Museum, its red-light district, and its many cannabis coffee shops draw more than 5 million international visitors annually.

Opening Ceremony

Keynote Forum

Introduction

Naranjan S Dhalla, University of Manitoba, Canada

Pavel Hamet, University of Montreal, Canada

Networking and Refreshments Break: @ Foyer

Sessions:
Hypertension & Obesity | Hypertension Risk factors | Hypertension Diagnosis

Session Chair: Abdou Elhendy, Marshfield Clinic, USA
Session Co-Chair: Sasidharan PK, Calicut Medical College, India

Session Introduction

Title: What do we know about high blood pressure in elderly
Hossein Tabriziani, Loma Linda University, USA
Title: Evaluation of coronary artery disease in hypertensive patients. Role of cardiac imaging
Abdou Elhendy, Marshfield Clinic, USA
Title: Vitamin D -hypertension & lifestyle diseases link
Sasidharan PK, Calicut Medical College

Lunch Break: @ Foyer

Title: Reduction of blood pressure by electroacupuncture in mild to moderate hypertensive patients: randomized controlled trial
Stephanie C. Tjen-A-Looi, University of California, USA
Title: Clinical importance of left atrial enlargement
Zahra Saadat, Shahid Beheshti University of Medical Sciences, Iran

Networking and Refreshments Break: @ Foyer

Panel Discussion

Day 2 August 12, 2016

Algonquin CD

Keynote Forum

Pollen K F Yeung, Dalhousie University, Canada

Robert S Fitzgerald, Johns Hopkins University, USA

Gestational Hypertension | Hypertension Management | Case Reports & Hypertension Epidemiology

Session Chair: Mashhud Zia Chowdhury, Ibrahim Cardiac Hospital and Research Institute, Bangladesh

Session Introduction

Title: Butorphanol use in laboring patients with preeclampsia or chronic hypertension
Kelly Garrity, Northwell Health, USA
Title: Prevalence, awareness and control of hypertension in Bangladesh
Mashhud Zia Chowdhury, Ibrahim Cardiac Hospital and Research Institute, Bangladesh

Title: Comparison of the short-term efficacy of two educational methods (face to face vs. group training) on self-pulse rate taking ability
Zahra Saadat, Shahid Beheshti University of Medical Sciences, Iran
Title: New method for computing optical hemodynamic blood pressure
Mor Ram-On, Cnoga Medical Ltd, Israel

Lunch Break: @ Foyer

Title: Nattokinase effects on blood pressure (Hypertension)
Waqas Hussain, Air University, Pakistan
WORKSHOP : Hypertension in kidney transplant recipients
Hossein Tabriziani, Loma Linda University, USA

Networking and Refreshments Break: @ Foyer

Title: Hypertensive heart disease
Deepika Narasimha, Loma Linda University Medical Center, USA
Title: Challenges of hypertension diagnosis in urban informal settlement, Kibera slum in Kenya
Tecla Namuma Namusonge, AMREF Health Africa, Kenya
Title: Proof of concept study: Improvement of echocardiographic parameters after renal sympathetic denervation in CKD refractory hypertensive patients
Márcio Galindo Kiuchi, Universidade Federal Fluminense, Brazil

Poster Presentation: @ Foyer

Title: Positive effects of sildenafil therapy on outcomes of congenital heart surgery
Mohsen Sedighi, Iran University of Medical Science, Iran

Closing Cermony

Opening Ceremony

Keynote Forum

Introduction

Title: Adverse reactions to statins: Fact or fantasy

Peter Sever, Imperial College London, UK

Title: Integrin-induced effects on RNA stability in angiogenesis and inflammatory disease

Jeffrey R Bender, Yale University School of Medicine, USA

Sessions:

Cardiovascular Surgeries | Cardiovascular Diseases

Session Chairs: Hatem AlMasri, King Abdulaziz Medical City, Saudi Arabia
Session Co-Chair: Massimo Capoccia, University of Strathclyde, UK

Session Introduction

Title: Mechanical circulatory support for advanced heart failure: Current views and future developments in relation to patient-specific computational modelling

Massimo Capoccia, University of Strathclyde, UK

Networking and Refreshments Break: @ Outside Room

Title: Clinical profile of patients with primary diseases of aortic wall attending a tertiary care centre in South India

Arun Beeman, Great Ormond Street Children's Hospital, UK

Title: Suture less aortic bio prostheses a reliable tool for avr in high risk patients

Hatem AlMasri, King Abdulaziz Medical City, Saudi Arabia

Title: Prediction model of in-hospital adverse cardiac events in patients with heart failure

Kunlun He, Chinese PLA General Hospital, China

Title: Tricuspid valve surgery for functional tricuspid regurgitation: When and how?

Sung-Ho Shinn, Eulji University, South Korea

Lunch Break @ Source Grill

Title: Proactive surgical intervention for acute massive pulmonary embolism

Yousry el-Moazamy, Prince Sultan Cardiac Center, Saudi Arabia

Special Session

Title: Heart failure guidelines, 2016: 10 points to remember

Magdy Abdel Hamid, Cairo University, Egypt

Session:

Cardiovascular Medicine

Session Chair: Cathy M Holt, University of Manchester, UK

Title: Translational models of cardiovascular disease: What have we learnt?

Cathy M Holt, University of Manchester, UK

Title: Cardiovascular diseases related microRNA finding and potential clinical significance

Yaping Tian, Chinese PLA General Hospital, China

Networking and Refreshments Break: @ Outside Room

Title: *In vivo* velocity field measurements of circulatory blood flows using X-ray PIV technique

Sang Joon Lee, Pohang University of Science & Technology, South Korea

Workshop

Title: Effects of estrogen on vascular function and health: Controversies in hormone replacement therapy

Jeffrey R Bender, Yale University School of Medicine, USA

Sessions:

Cardiovascular Surgeries | Cardiovascular Diseases

Title: BioValsalva or bioIntegral: Which biological aortic valved conduit has a better hemodynamic performance?
Ayman Raweh, Heart Center Dortmund, Germany

Panel Discussion

Day 2 August 02, 2016

Stable Room

Keynote Forum

Introduction

Title: Bioabsorbable devices in congenital heart disease
John P Breinholt, University of Texas McGovern Medical School, USA

Sessions:

Cardiovascular Industries Market Research | Cardiovascular Case Studies | Clinical Trials in Cardiology

Session Chair: Jean-Baptiste Fraison, Université Paris Diderot, France

Session Introduction

Title: Gender differences in patients who suffered an acute myocardial infarction with ST segment elevation: Women are treated differently?
Paulina Cisneros Clavijo, Enrique Garcès Hospital, Ecuador
Title: Diagnosis and prognosis of Kawasaki disease in adults
Jean-Baptiste Fraison, Université Paris Diderot, France
Title: The patent ductus arteriosus of premature neonates should be closed via transcatheter techniques instead of surgical ligation
John P. Breinholt, University of Texas McGovern Medical School, USA

Networking and Refreshments Break: @ Outside Room

Title: Review of sixty tracheal resections and anastomosis. A seven year experience of a tertiary Egyptian referral institute
Ahmed Mostafa, Ain Shams University, Egypt
Title: Predictors of mortality following above knee amputation for lower limb ischaemia
Ana-Catarina Pinho-Gomes, University Hospital of South Manchester, UK
Title: Epedimics of atrial fibrilation related strokes
Abdul Aziz, Nobles Hospitla Isle Of Man, UK

Lunch Break @ Source Grill

Poster Presentations

Judges Yaping Tian, Chinese PLA General Hospital, China | **Kunlun He,** Chinese PLA General Hospital, China

Title: Endothelial microparticles in patients with chronic kidney disease and cardiovascular disease
Carolina Nunes França, University of Santo Amaro, Brazil
Title: Does radial access for percutaneous coronary intervention result in better patient outcomes compared to femoral access in treatment of ST-segment elevation myocardial infarction?
Max Roderick & Michael Griffin, University of Birmingham Medical School, UK
Title: Characterization of optimal resting tension in human pulmonary artery
Azar Hussain, Castle Hill Hospital, UK
Title: Consequences of exercising on ischemia-reperfusion injury in type 2 diabetic Goto-Kakizaki rat hearts: Role of the HO/NOS system
Amin Al-Awar, Szeged University, Hungary
Title: Compliance with and awareness about long-term oral anticoagulant therapy among Saudi patients in a tertiary hospital, Riyadh, Saudi Arabia
Nouf A AlSadoun & Nora Y AlDeghaither, King Saud University, Saudi Arabia
Title: Fine particles and cardiovascular mortality in Taiwan
Bo-Jen Chen, China Medical University, Taiwan
Title: The impact of vasoconstrictors on human pulmonary artery
Azar Hussain, Castle Hill Hospital, UK
Title: Continuous beat to beat monitoring the cardiovascular parameters in response to autonomic stress tests
Hind Alzahrani, Nottingham University, UK
Title: Mitral valve endocarditis secondary to *Paenibacillum provencensis*
Ana-Catarina Pinho-Gomes, University Hospital of South Manchester, UK
Title: Job stress and CVD risk factors: A longitudinal study on employees of polyacryl Iran corporation company
Ghasem Yadegarfar, Isfahan University of Medical Sciencs, Iran

Young Research Forum

Session Chair: Magdy Abdel Hamid, Cairo University, Egypt

Title: Characterization of optimal resting tension in human pulmonary artery
Azar Hussain, Castle Hill Hospital, UK

Title: Investigating the role of plasma membrane calcium ATPase subtype 4 (PMCA4) in cardiac electrical activity
Mohamed Elsakka, University of Manchester, UK

Title: The impact of vasoconstrictors on human pulmonary artery
Azar Hussain, Castle Hill Hospital, UK

Networking and Refreshments Break: @ Outside Room

Title: Consequences of exercising on ischemia-reperfusion injury in type 2 diabetic Goto-Kakizaki rat hearts: Role of the HO/NOS system
Amin Al-Awar, Szeged University, Hungary

Title: Dynamics of rotational and focal drivers in persistent atrial fibrillation at cardiac fibrosis – A clinical mapping and simulation study
Markus Rottmann, Karlsruhe Institute of Technology, Germany

Title: Compliance with and awareness about oral anticoagulant therapy among Saudi patients in a University hospital Riyadh, Saudi Arabia
Shehanah Oamir, King Saud University, Saudi Arabia

Panel Discussion

Video Presentation

Title: Heavy metals have an important role in atherosclerosis all over the body. Since Framingham we have been blaming the wrong culprit
Sergio Mejía Viana, Medical Investigation Unit. St Bernard´s Hospital., Gibraltar

Opening Ceremony

Keynote Forum

Introduction

Anthony Martin Gerdes
New York Institute of Technology, USA

Louis Samuels
Lankenau Medical Center, USA

Track 3: Heart Diseases
Track 7: Current Research in Cardiology

Session Introduction

Session Chair: Yoshiaki Omura, New York Medical College, USA

Session Co-Chair: Anthony Martin Gerdes, New York Institute of Technology, USA

Title: New simple method of accurate localization of normal or abnormal anatomical locations of the heart on recorded ECGs: Detection of limes disease infection causing atrial fibrillation & their effective treatment before or after atrial fibrillation is formed
Yoshiaki Omura, New York Medical College, USA
Title: A new treatment for heart failure right under our nose for over 60 years?
Anthony Martin Gerdes, New York Institute of Technology, USA

Networking & Refreshments Break @ Foyer

Title: Mean arterial pressure as a component of metabolic syndrome
Galya Naydenova Atanasova, University Hospital, Bulgaria
Title: Post-Infectious Autoimmune Syndrome (PIFAS) as an integrated and combinatorial biomarker to monitor autoimmune myocarditis and thus the chronification of post-infectious diseases of autoimmune origin
Sergey Suchkov, I.M.Sechenov First Moscow State Medical University, Russia
Title: Time course of prothrombotic response after radiofrequency catheter ablation for atrial fibrillation
Scott Willoughby, University of Adelaide, Australia
Title: Daily, high dose vitamin D supplementation reduces the incidence of myocardial infarctions in surgical intensive care unit patients
L Ray Matthews, Morehouse School of Medicine, USA
Title: *Terminalia arjuna* modulates IL-18-induced inflammation in human monocytic cell line and in patients with stable coronary artery disease
Veena Dhawan, Postgraduate Institute of Medical Education and Research (PGIMER), India
Title: Awareness and knowledge of Sexually Transmitted Diseases (STDs) among school-going adolescents in Sierra Leone
Emile Toby, Global Movement for Human Rights and Justice, West Africa

Group Photo

Lunch Break @ Texas A

Track 4: Cardiovascular Drugs
Track 6: Interventional Cardiology

Session Chair: Jose Antonio F Ramires, University of Sao Paulo Medical School, Brazil

Session Co-Chair: Cianci Vincenzo, University of Swansea, UK

Title: Inflammation, coronary artery disease and liver: What is the relationship?
Jose Antonio F Ramires, University of Sao Paulo Medical School, Brazil
Title: Initial experience with MINI-OPCABG in hybrid coronary revascularization
Cianci Vincenzo, University of Swansea, UK

Title: Acute post-ischemic GPER1 activation protects the myocardium against ischemia/reperfusion injury by reducing mitochondrial protein ubiquitination, histone acetylation and calpain10 levels and inhibition of the mPTP opening
Jean C Bopassa, University of Texas Health Science Center, USA
Title: Ventricular torsion and cardiac suction effect: The electrophysiological analysis of the cardiac band muscle
Jorge C Trainini, Hospital Presidente Peron, Argentina
Title: Severe fibrosing mediastinitis with atypical presentation: Effective control with novel therapeutic approach
Abdulaziz Joury, The George Washington University, USA
Title: Iatrogenic Norepinephrine-Induced Takotsubo cardiomyopathy
Khaled Sherif, Texas Tech University Health Sciences Center, USA
Title: Hybrid technique of hybrid gold/gadolinium nanoparticles injection in Chronic Total Occlusion (CTO) as diagnostic marker of viability and intervention
Usama Abdel Rahime Omar, National Heart Institute, Egypt

Networking & Refreshments Break @ Foyer

Track 1: Clinical Cardiology
Track 5: Pediatric Heart Diseases

Session Chair: L Ray Matthews, Morehouse School of Medicine, USA
Session Co-Chair: Jean C Bopassa, University of Texas Health Science Center, USA

Title: Elevated levels of neopterin are associated with coronary complex plaques in patients with acute coronary syndrome
Khaled Elmaghraby, Minia University, Egypt
Title: A retrospective cohort to study the mortality and survival rate in Chronic Heart Failure (CHF) patients after ayurvedic Sampurna Hruday Shudhikaran (SHS) therapy
Rohit Sane, Madhavbaug Cardiac Care, India
Title: How accurate can electrocardiogram predict left ventricular diastolic dysfunction?
Khaled Elmaghraby, Minia University, Egypt
Title: Change in risk factors influencing cardiac functions in pediatric renal transplanted patients
Amira Esmat El Tantawy, Cairo University, Egypt
Title: Real time three dimensional echocardiography in valvular pulmonary stenosis among pediatric age group
Sahar Shaker Sheta, Cairo University Children's Hospital (CUCH), Egypt

Panel Discussion

Day 2 December 01, 2015

Texas B

Keynote Forum

Yoshiaki Omura
New York Medical College, USA

Sergey Suchkov
I.M.Sechenov First Moscow State Medical University, Russia

Track 8: Cardiac Surgery
Track 2: Cardiovascular Surgeries

Session Chair: Louis Samuels, Lankenau Medical Center, USA
Session Co-Chair: Masoor Kamalesh, Indiana University, USA

Session Introduction

Title: The Impella™ Left Ventricular Assist Device (LVAD) combined with veno-venous Extra-Corporeal Membrane Oxygenation (ECMO): An alternative to veno-arterial ECMO
Louis Samuels, Lankenau Medical Center, USA
Title: Coronary revascularization in diabetes- bypass surgery or stenting?
Masoor Kamalesh, Indiana University, USA
Title: Epidemiology and clinical outcomes of acute MI in hospitalized patients for non cardiac conditions: A retrospective cohort study
Athanasios Smyrlis, Danbury Hospital, USA

Networking & Refreshments Break @ Foyer

Title: Longitudinal cardiac rotation abnormalities in children and young adults with end-stage renal failure undergoing hemodialysis: A pilot study
Sahar Shaker Sheta, Cairo University Children's Hospital (CUCH), Egypt
Title: Cardiac surgery in nonagenarians: Feasibility and suitability in the age of percutaneous coronary intervention and transcatheter aortic valve replacement
Athanasios Smyrlis, Danbury Hospital, USA
Title: Patients with non-obstructive coronary artery disease admitted with acute coronary syndrome carry a better outcome compared to those with obstructive coronary artery disease
Adel Bakr, Cairo University Hospitals, Egypt
Title: Control of blood pressure and related factors in heart failure in a heart failure program with a predominantly black and Hispanic population
Hong Seok Lee, New York Medical College, USA

Lunch Break @Texas A

Workshop on

Title: Novel mechanisms in cardioprotection against ischemia/ reperfusion injury
Jean C Bopassa, University of Texas Health Science Center, USA

Networking & Refreshments Break @ Foyer

Panel Discussion

Poster Presentations (15:35-16:35)

Title: Dabigatran increases platelet reactivity study-DIPS study
Subodh Devabhaktuni, University of Nevada, USA
Title: The anomalous origin and course of coronaries in Tetralogy of Fallot (TOF)
Ali Hasan, Aga Khan University, Pakistan
Title: Morphology and histomorphometry of the aorta and its branches in grass-cutter (Thyronomys swinderianus)
I C Nwaogu, University of Nigeria, Nigeria
Title: Cardiac papillary fibroelastoma complicated by ischemic stroke: A comprehensive analysis of 67 cases
Mohamed Ayan, Creighton University Medical Center, USA
Title: Treatment of bare metal stent in-stent restenosis with balloon angioplasty alone versus stenting: Meta-analysis of randomized controlled trial
Mohamed Ayan, Creighton University Medical Center, USA
Title: Unusual diagnostic discrepancy leading to a significant delay in management of aortic dissection: Case report
Abdalla Hassan, Advocate Illinois Masonic Medical Center, USA
Title: Prognostic significance of coronary artery disease in heart failure with preserved ejection fraction patients
Abdalla Hassan, Advocate Illinois Masonic Medical Center, USA
Title: Effects of ascorbic acid and ferulic acid on ECG, myocardial oxidative stress and connexin 43 expression in isoproterenol-induced myocardial infarction in rats
Abdelaziz M Hussein, Mansoura University, Egypt
Title: Efficacy and safety of tenecteplase with standard anticoagulation therapy versus standard anticoagulation therapy alone for submassive or intermediate-risk pulmonary embolism: A meta-analysis
Lea Arceli G Porciuncula, St. Luke's Medical Center, Philippines
Title: A 44 year old male presenting as ST elevation myocardial infarction in Kawasaki disease: Case report
Francis carl catalan, Cardinal Santos Medical Center, Philippines
Title: Circulating endothelial cell-derived micro-particles as a marker of clinical outcomes in chronic heart failure patients
Alexander E Berezin , State Medical University, Ukraine
Title: Occurrence of pulmonary hypertension in Heterotaxy syndrome: A retrospective observational study
Keyur K Mehta, State University of New York, USA
Title: Evaluation study of the diuretic and blood pressure lowering effect of the methanolic extract of Pachyrhizus erosus tubers in male Sprague-Dawley rats
Imei Tiongco, University of Santo Tomas, Philippines
Title: Role of tranexamic acid on platelet level in cardiac surgery
Hossein Rahmani, Islamic Azad University, Iran

Day 3 December 02, 2015

Texas B

Track 9: Cardiac Imaging

Session Introduction

Session Chair: Yoshiaki Omura, New York Medical College, USA

Title: Late period dual chamber pace maker lead thrombus in a patient shortly after the onset of atrial fibrillation
Ersel Onrat, Afyon Kocatepe University, Turkey
Title: Possible coronary artery dissection due to electrical shock resulted in myocardial infarction
Onder Akci, Afyon Kocatepe University, Turkey
Title: The evaluation of pulmonary artery dispensability by echocardiography in patients with rheumatoid arthritis with having no pulmonary hypertension
Ersel Onrat, Afyon Kocatepe University, Turkey

Networking & Refreshments Break @ Foyer

Title: Does pulse wave velocity predict left internal mammarian artery flow?
Onder Akci, Afyon Kocatepe University, Turkey
Title: Non-invasive advanced hemodynamic monitoring: More information, less needles
Francisco J Chacon-Lozsan, Placido Rodriguez Hospital, Venezuela

Panel Discussion

Video Presentations

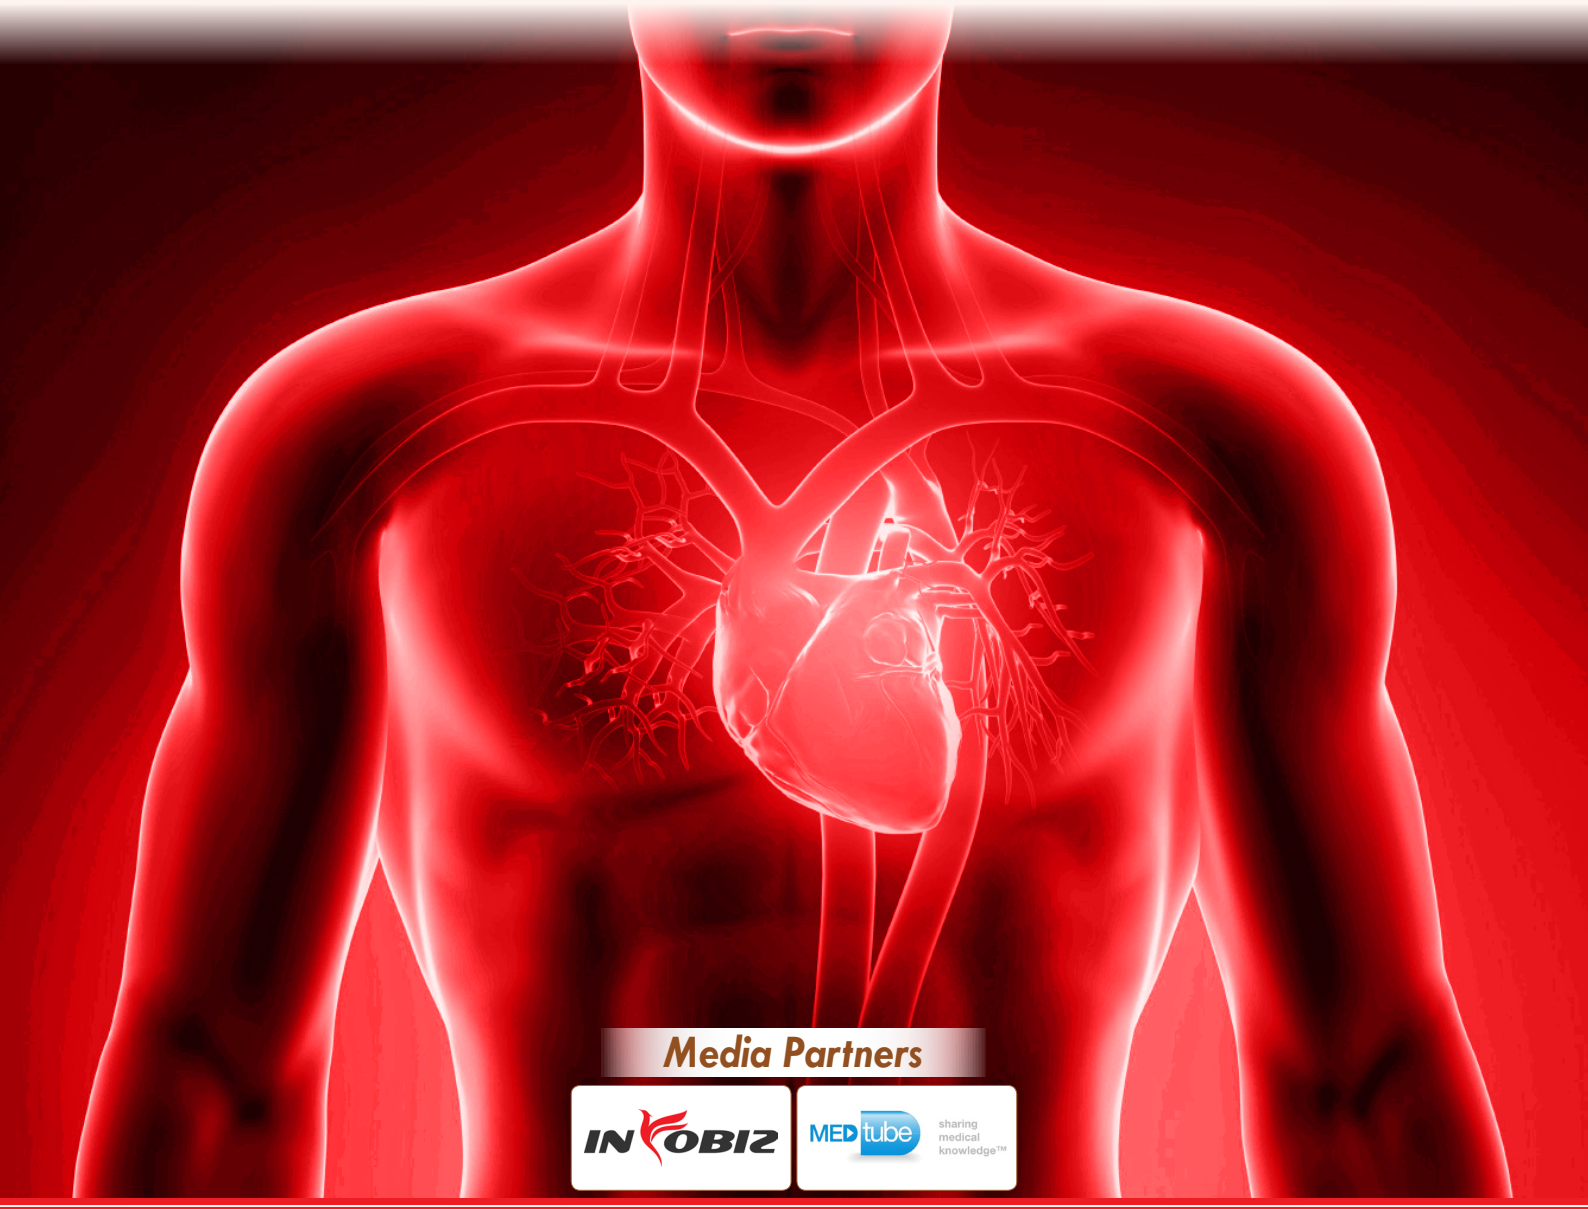

Title: The chest pain with normal EKG
Manuela Stoicescu, University of Oradea, Romania
Title: Lung-specific RNA interference of coupling factor 6, a novel peptide, attenuates pulmonary arterial hypertension in rats
Xiaolu Li, Shandong University, China
Title: The rate dependent bundle branch block and mechanical dyssynchrony leads heart failure and beneficial effect of Cardiac Resynchronization Therapy
Naresh Sen, Narayana Hrudayalaya Institute Of Medical Science, India

Lunch Break @ Texas A

Klinikum Ingolstadt, Germany

Track 1: Heart Diseases

Session Chair: Anastasia Susie Mihailidou, Royal North Shore Hospital and The University of Sydney, Australia

Session Co-Chair: Anthony W. Ashton, The University of Sydney at Royal North Shore Hospital, Australia

Session Introduction

Title: Atherosclerosis: Infection & inflammation envolvement, the continuous discussion
Jose Antonio F. Ramires, University of São Paulo, Brazil
Title: Significance of neuropeptides for coexistence of disturbances in central cardiovascular control in heart failure, stress and depression
Ewa Szczepanska-Sadowska, Medical University of Warsaw, Poland
Title: Mineralocorticoid receptor blockade prevents hyperglycaemia aggravated RAGE expression during myocardial infarction
Anastasia Susie Mihailidou, Royal North Shore Hospital and The University of Sydney, Australia
Title: Cardiac amyloidosis: A changing landscape
Ashutosh Wechalekar, University College London Medical School, UK

Group Photo

Lunch Break @ Texas D&E

Title: Serpins as therapy: From virus to man
Alexandra Lucas, University of Florida, USA
Title: Mineralocorticoid receptors in myocardial infarction–No good, just bad and ugly
Anthony W. Ashton, The University of Sydney at Royal North Shore Hospital, Australia
Title: Association of significant myocardial stunning and cerrbro-and cardiovascular events among acute aneurysmal subarachnoid hemorrhage patients
Augusto Parra, University of Texas Health Science Center, USA

Track 2: Cardiac Surgery

Session Chair: Louis Samuels, Thomas Jefferson University School of Medicine, USA

Session Co-Chair: Edmo Gabriel, Nove de Julho University, Brazil

Session Introduction

Title: The implantable left ventricular assist device: A bridge to a destination
Louis Samuels, Thomas Jefferson University School of Medicine, USA
Title: Minimally invasive coronary arteries bypass grafting
Arthur T. Martella, Our Lady of Lourdes Medical Center, USA
Title: Role of short-term circulatory support in recovery, LVAD preparation and right ventricle support: Better solutions for better outcomes
Basar Sareyyupoglu, Texas A&M University, USA
Title: The current ECMO (VV and VA-ECMO)
Hitoshi Hirose, Thomas Jefferson University, USA

Coffee Break @ Texas D&E

Title: Experimental model of methacrylate-coated cardiopulmonary bypass circuit: Impact in complement system activation and index of thrombogenicity and platelet aggregation
Edmo Gabriel, Nove de Julho University, Brazil
Title: Circulatory support in cardiogenic shock
George P. Batsides, Rutgers-Robert Wood Johnson Medical School, USA
Title: Current ventricular assist device outcomes and future technology
Allen Cheng, University of Louisville, USA

Title: Initial experience with epicardial left atrial appendage ligation using the LARIAT suture closure device

Sheetal Chandhok, Bryn Mawr Hospital, USA

Title: Extracorporeal life support and inter hospital transfer: Results of a specialized team

Christoph Thomas Starck, University Hospital Zurich, Switzerland

Title: The experience of medical staff about the use of CPAP via mask therapy to treat or prevent post-surgical atelectasis after CABG

Fouad Al-Mutairi, King Fahd Armed Forces Hospital, Saudi Arabia

Title: Open heart surgery

Ricardo Del Castillo, Universidad Autónoma de Guadalajara, Mexico

Title: Using cybertherapy to reduce postoperative anxiety in cardiac recovery intensive care units

José Luis Mosso Vázquez, Hospital General y Regional IMSS, Mexico

Cocktails Sponsored by **Journal of Clinical & Experimental Cardiology** **@ Texas D&E**

Day 2 April 15, 2014

Texas A

Track 1: Heart Diseases

Session Chair: Anastasia Susie Mihailidou, Royal North Shore Hospital and The University of Sydney, Australia

Session Co-Chair: Anthony W Ashton, The University of Sydney at Royal North Shore Hospital, Australia

Session Introduction

Title: Association of circadian genes polymorphisms with coronary heart disease

Svetlana Gorokhova, I.M. Sechenov First Moscow State Medical University, Russia

Title: Monocyte priming by metabolic stress: A novel NADPH oxidase 4-dependent mechanism for the development and progression of atherosclerosis

Reto Asmis, University of Texas Health Science Center at San Antonio, USA

Title: Effect of atrial fibrillation on thrombogenesis

Scott R. Willoughby, University of Adelaide, Australia

Title: Significance of ST-segment deviation in lead aVR for prediction of culprit artery and infarct size in acute inferior wall ST-elevation myocardial infarction

Khaled Sayed Mahmoud, El Minia University, Egypt

Title: Loss of Rubicon increases autophagic flux and protects against lipopolysaccharide-induced cardiac injury

Hongxin Zhu, Shanghai Jiao Tong University, China

Coffee Break Texas D&E

Title: The potential of small RNAs as biomarker and as therapeutic tools for treating heart diseases

Salah A. Mohamed, Medical Center Schleswig-Holstein, Germany

Title: miR-140 regulates cardiomyocyte apoptosis by targeting mitofusin-1

Peifeng Li, Nebraska Medical Center, USA

Title: Reactivation of fetal splicing programs in diabetic hearts

Muge N. Kuyumcu-Martinez, University of Texas Medical Branch, USA

Title: CCTA in real not-so-developed world

Mladen Jukic, Sunce Clinic, Croatia

Title: Activation of circulated immune cells and inflammatory immune adherence are involved in the whole process of acute venous thrombosis

Fan Yang and Qiang Lin Duan, Tong Ji University School of Medicine, China

Lunch Break Texas D&E

Poster Presentations **@ Texas D&E**

Title: A retrospective study on the profile of ischemic heart disease [IHD] cases admitted in KMC Attavar, Mangalore

Harsha Kumar H. N., Kasturba Medical College, India

Title: Percutaneous intervention in isolated left main ostial stenosis

Bhanu Duggal, Sir JJ Group of Hospitals, India

Title: 12 and 15 lead electrocardiograms in diagnosis of acute posterior myocardial infarction

S. M. Tajdit Rahman, Sir Salimullah Medical College, Bangladesh

Coffee Break @ Texas D&E

Track 3: Congenital Heart Diseases

Session Chair: Nassir Azimi, La Mesa Cardiovascular, USA

Session Co-Chair: Bhanu Duggal, Sir JJ group of Hospitals, India

Session Introduction

Title: Platypnea Orthodeoxia Syndrome: The consequential inconsequential PFO, a look at 4 cases cured with PFO closure

Nassir Azimi, La Mesa Cardiovascular, USA

Title: Roles of HCN2 channels in congenital heart diseases

Nian-Qing (Nan) Shi, University of Wisconsin, USA

Title: 2014 update on cardio pulmonary resuscitation

Amballur D. John, Johns Hopkins Bayview Medical Center, USA

Title: Simultaneous transcatheter valvuloplasty and atrial septal occlusion in cases of trilogy of fallot

Bhanu Duggal, Sir JJ group of Hospitals, India

Title: Hemodynamic effects of laparoscopic surgery in infants with cardiac anomalies

Christine Burgmeier, University Medical Center Ulm. Germany

Title: Case series: Paediatric repair of coarctation of the aorta and pulmonary hypertension

Natasa Chrysodonta, University of Bristol, UK

Title: Congenital heart diseases among the hospital live birth in Bangladesh: A retrospective study in a tertiary medical college hospital

Md Sazid Rezwan, Sir Salimullah Medical College, Bangladesh

Rio Grande

Track 4: Cardiac Therapeutic Agents

Session Chair: Nisha Jain Garg, University of Texas Medical, USA

Session Co-Chair: Mark D. Rekhter, Eli Lilly & Co., USA

Session Introduction

Title: Serum mediated activation of macrophages reflects TcVac2 vaccine efficacy against Chagas disease

Nisha Jain Garg, University of Texas Medical, USA

Title: Reverse translation in cardiovascular drug discovery

Mark D. Rekhter, Eli Lilly & Co., USA
Title: Relationship between oxidative stress and energy metabolism in hypertension induced cardiac remodeling
Renuka R. Nair, Sree Chitra Tirunal Institute for Medical Sciences and Technology, India
Title: Activation of g-protein coupled estrogen receptor 1 protects the heart against ischemia/reperfusion injury by inhibiting them PTP opening via MEK/ERK/GSK-3β pathway

Jean C. Bopassa, University of Texas Health Science Center at San Antonio, USA
Title: Effect of telmisartan and atorvastatin on angiogenic responsiveness in coronary endothelial cells of normal and streptosotocin induced diabetic rats

Anita A. Mehta, L. M. College of Pharmacy, India

Coffee Break @ Texas D&E

Title: Pulse pressure and apolipoprotein B/apolipoprotein A1 in relation to the metabolic syndrome and its components

Galya Naydenova Atanasova, University Hospital Pleven, Bulgaria
Title: Quality of anticoagulation management with warfarin among outpatients in Tikur Anbessa Specialized Hospital, Addis Ababa, Ethiopia

Tamrat Assefa, Addis Ababa University, Ethiopia

Track 5: Biophysics and Systems Biology
Track 6: Cancer and Heart

Session Chair: A Martin Gerdes, New York Institute of Technology-College of Osteopathic Medicine, USA

Session Co-Chair: Yoshiaki Omura, New York Medical College & Heart Disease Research Foundation, USA

Session Introduction

Title: Wrong about β blockers! Wrong about positive inotropes! Wrong about thyroid hormone treatment of heart failure?

A Martin Gerdes, New York Institute of Technology-College of Osteopathic Medicine, USA
Title: New interpretation of electrocardiograms (ECGs) by invisible biochemical & microbial information found on recorded ECGs to detect serious side-effects of chemotherapy by measurement of cardiac troponin I at the "Vulnerable Period for Ventricular Fibrillation" at the rising part of the T-Wave

Yoshiaki Omura, New York Medical College & Heart Disease Research Foundation, USA
Title: Control of mitochondrial oxidative stress prevented the evolution of cardiomyopathy in chronic chagasic rodents

Nisha Jain Garg, University of Texas Medical Branch, USA

Lunch Break @ Texas D&E

Poster Presentations **@ Texas D&E**

Title: Mechanosensing and regulation of cardiac function

David E. Dostal, Texas A&M Health Science Center, USA
Title: Differential response of lung and heart endothelial cells to hypoxia exposure
Nadia Jahroudi, University of Alberta, Canada
Title: β-arrestin1-biased β1-adrenergic receptor signaling-mediated microRNA regulatory network: A new player in cardiac protection

Il-man Kim, Georgia Regents University, USA

Coffee Break @ Texas D&E

Title: Inhibition of gene expression of carnitine palmitoyltransferase I and heart fatty acid binding protein in cyclophosphamide and ifosfamide-induced acute cardiomyopathic rat models

Mohamed M. Sayed-Ahmed, King Saud University, Saudi Arabia
Title: Advanced cardiac imaging: Update in the era of earlier disease recognition and focus on outcomes driven approach

Ahmad M. Slim, San Antonio Uniformed Services Health Care Consortium, USA
Title: Prognostic factors for hospital mortality in STEMI patients in Serbia

Zorana Vasiljevic, Belgrade University, Serbia
Title: Panel study of air pollution (PM2.5) and health effects on workers in the São Paulo City, Brazil

Monica V. Marquezini, University of São Paulo, Brazil
Title: Cochlear implantation and cardiac associations

Senthil Vadivu Arumugam, Madras ENT Research Foundation, India

Cocktails Sponsored by **Journal of Cardiovascular Diseases & Diagnosis** **@ Texas D&E**

Day 3 April 16, 2014

Texas A

Track 7: Interventional Cardiology

Session Chair: Santhosh K. G. Koshy, University of Tennessee Health Sciences Center, USA

Session Co-Chair: Pupalan Iyngkaran, Flinders University, Australia

Session Introduction

Title: Cardiopulmonary resuscitation and direct cardiac injury: Evidence of fractured coronary arteries and his bundle hemorrhage

Richard J. Frink, Heart Research Foundation of Sacramento, USA
Title: Building a consensus for more flexible guidelines in heart failure with comorbidities: Why this is important for remote Australian patients

Pupalan Iyngkaran, Flinders University, Australia
Title: Ticagrelor, but not clopidogrel, protects the heart and limits myocardial infarct size

Yochai Birnbaum, Baylor College of Medicine, USA
Title: Renal denervation and other novel strategies for management of resistant hypertension

Santhosh K. G. Koshy, University of Tennessee Health Sciences Center, USA
Title: Current status and remaining problems of balloon pulmonary angioplasty for the treatment of chronic thromboembolic pulmonary angioplasty

Hiromi Matsubara, National Hospital Organization Okayama Medical Center, Japan

Coffee Break @ Texas C

Title: Ceramic coating prevents corrosion of cardiovascular stainless steel stents

Víctor Moles, Unidad de Intervenciones Cardiovasculares, Argentina

Title: DUSP protein phosphatases modulates the development of dilated cardiomyopathy

Mannix Auger-Messier, University of Sherbrooke, Canada
Title: Cardiovascular implications of incretins after SAVOR and EXAMINE in diabetes patients

Robert J. Chilton, University of Texas Health Science Center San Antonio, USA
Title: Disrupting KATP channels diminishes the estrogen-mediated protection in female mutant mice during ischemia-reperfusion

Nian-Qing (Nan) Shi, University of Wisconsin, USA
Title: Perioperative right ventricular systolic functional assessment and value analysis of pediatric right ventricular outflow tract reconstruction with echocardiography

Guo-Zhen Chen, Shanghai Jiao Tong University School of Medicine, China
Title: Aortic stenosis and mitral regurgitation as predictors of atrial fibrillation

Veronica Widgren, Malmö University Hospital, Sweden

Lunch Break @ Texas C

Track 8: Current Research in Cardiology

Session Chair: Yoshiaki Omura, New York Medical College & Heart Disease Research Foundation, USA

Session Co-Chair: Noemi Csaszar-Nagy, National Center for Spinal Disorders, Hungary

Session Introduction

Title: Hold that thought: Induction of erythropoietin to protect the ischemic brain

Robert Mallet, University of North Texas Health Science Center, USA
Title: Detection of clinically important invisible biochemical information & various microbial infections from each part of recorded ECGs

Yoshiaki Omura, New York Medical College & Heart Disease Research Foundation, USA
Title: Pain and psychotherapy, in the light of evidence psychological treatment methods of chronic pain based on evidence

Noemi Csaszar-Nagy, National Center for Spinal Disorders, Hungary
Title: The cardiac atrial appendage stem cell: A new candidate for myocardial repair

Karen Hensen, Jessa Hospital, Belgium
Title: N-methyl D-aspartate (NMDA) receptor antagonists and their targets in the heart

Anna Bogdanova, University of Zurich, Switzerland
Title: Alternative RNA splicing and regulation of nitric oxide signaling

Iraida G. Sharina, University of Texas Medical School at Houston, USA

Coffee Break @ Texas C

Title: Revascularization of a chronic total occlusion of the infra-renal aorta in a patient with triple vessel disease: Report of a case treated by endovascular approach

Mahek K. Shah, Einstein Medical Center, USA
Four electron leak pathways of mitochondrial respiratory chain and their physiological functions

Xu Jian-xing, Chinese Acadamy of Sciences, China
Title: Contemporary approach to diagnosis and management of cardiovascular implantable electronic device infections

M. Rizwan Sohail, Mayo Clinic College of Medicine, USA
Title: A cross-sectional study on awareness and perception about Basic Life Support (BLS)/Cadio-Pulmonary Resuscitation (CPR) among undergraduate medical students from coastal South India

Harsha Kumar H. N., Kasturba Medical College, India
Title: Targeting calcium signaling as a novel therapeutic strategy for cardiac hypertrophy and failure

Tamer M. A. Mohamed, University of Manchester, UK
Title: The importance of psychological assessment and support in patients suffering from cardiovascular disease or undergoing cardiac treatment

Daniel Peter Stoll, National Centre for Spinal Disorders, Hungary
Title: A case of cardiac amyloidosis with a negative biopsy from a noncardiac site

Affan Irfan, University of Illinois, USA
Title: The risk of coarctation of the aorta in pregnancy original case report

Manuela Stoicescu, University of Oradea, Romania
