INFECTIOUS DISEASES 2020

7th International Conference on

INFECTIOUS DISEASES & ANTIBIOTICS

October 12-13, 2020 | Prague, Czech republic

https://infectiousdiseases.annualcongress.com/

Invitation

Dear Collegues,

Conference Series LLC Ltd. is delighted to welcome you to Prague, Czech republic for Infectious Diseases 2020.

“Exploring Innovative Research in Infectious Diseases and Antibiotics”.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Infectious Diseases Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to see you in Prague, Czech republic this October

Sincerely,
Infectious Diseases 2020
Organizing Committee

What is Infectious Diseases ?

The fundamental subject of Infectious Diseases 2020 is **"Exploring Innovative Research in Infectious Diseases and Antibiotics"**. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Meet Academia and Industry visionaries to get inspired

- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

7th International Conference on Infectious Diseases & Antibiotics scheduled on October 12-13, 2019 at Prague, Czech republic.

Who are Attending ?

The International Conference on Infectious Diseases 2020 Prague, Czech republic offers a platform who are specialized in various fields like Directors, CEO's of Organizations Association, Association presidents and professionals PhD Scholars Noble laureates in Health Care and Medicine Professors, Associate Professors and Assistant Professors Graduates and Post Graduates Research Institutes and member. Attendees are offered with the worldwide platform to meet their fellow researchers and mentors vis-à-vis., Brightens the future of medicines, by sharing ideas, challenges and plans which the researchers came across in the past years, Learn the experiences of other researchers who have tackled rare cases and developed the treatment strategies., This provides a common floor for all the people who share similar interests

- Viral Hepatitis
- Global Eradication of Diseases
- Neurological Infectious Disease
- MRSA (methicillin-resistant staphylococcus aureus)
- Pandemic and epidemic diseases
- Vaccination and Infectious diseases
- Veterinary Infectious Diseases
- Rheumatic Heart Disease
- Mechanism of Resistance

Supporting Journals

- Journal of Infectious Diseases and Treatment
- Journal of Medical Microbiology & Diagnosis
- Journal of Clinical Immunology and Allergy

Host City

Prague is the capital and largest city of the Czech Republic. It is the 14th largest city in the European Union. It is also the historical capital of Bohemia. Situated in the north-west of the country on the Vltava River, the city is home to about 1.26 million people, while its larger urban zone is estimated to have a population of nearly 2 million. The city has a temperate climate, with warm summers and chilly winters. The city boasts more than ten major museums, along with numerous theatres, galleries, cinemas, and other historical exhibits. An extensive modern public transportation system connects the city. Prague is the fifth most visited European city after London, Paris, Istanbul and Rome. Prague's low cost of living makes it a popular destination for expats relocating to Europe. The city of Prague lies between oceanic climate and humid continental climate.

The region city of Prague is an important center of research. Some well-known multinational companies have established research and development facilities in Prague, among them Siemens, Honeywell and Sun Microsystems.

Vision & Plan

Infectious Disease Therapeutic Market

The global infectious disease therapeutics market size was valued at USD 46.88 billion in 2016.It is expected to grow at a CAGR of 6.6% during the forecast period. The growing frequency of infectious ailments, increasing expenditure to boost the penetration rate of treatments of these diseases, diagnosis, rising initiatives for creating awareness about treatments and increasing clinical trials are the factors responsible for growth of this market. India and China are both considered to be the fastest growing infectious diseases therapeutics markets.The major companies which play a vital role in the global infectious diseases therapeutics market are, Pfizer, Johnson & Johnson, Merck & Co., GlaxoSmithKline Pharmaceuticals, F. Hoffmann-La Roche, Inc., Auritec Pharmaceuticals, Novartis, Achillion Pharmaceuticals, Eli Lilly and Company, Isis Pharmaceuticals , Gilead Sciences and Sanofi.

Diagnostic Market Research on Infectious Diseases The infectious disease diagnostic market is studied with respect to four regions such as North America, Europe, and Asia Pacific. Among all of these North America is dominating the whole region followed by Europe. Infectious disease diagnostic market is anticipated to grow during the forecast period owing to the increasing prevalence of various infectious diseases such as, malaria, Lyme disease, fifth disease, TB, HIV/AIDS, viral hepatitis, HAIs,MRSA, STDs and diarrheal diseases. The other vital areas of this market are growing demand of rapid diagnostic technique over existing technique due to long turnaround time and government aided funding. The different methods used for diagnosis are microbiological techniques, clinical laboratory techniques and intensive care medicine.

Infectious disease testing is often prioritised by health care companies and specialists for treating the disease as early as possible. Therefore, testing markets are be likely to to be a little less price-sensitive as compared to others.

Infectious disease diagnostic market is segmented on the basis of product, technology, and application. On the basis of technology, the market is split into, molecular and traditional diagnostic technique. The molecular diagnostic technique is classified into INAAT (Isothermal Nucleic Acid Amplification Test), Polymerase Chain Reaction (PCR), NGS & DNA sequencing, hybridization and microarrays. The traditional diagnostic technique is categorized into biochemical characterization, immunodiagnostics and microscopy. On the basis of product, the market is classified into consumables (assays and reagents), software & services, and instruments & analysers. Among these consumables held the largest market share as of 2013.

Sponsorship and Exposure

Diamond

- Three workshop slots (audio visual included).
- Two complimentary exhibit booths with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Four complimentary registrations
- Logo recognition on congress website front page with link, sponsorship page
- One A4 color advertisement in the congress souvenir
- Three inserts provided by the sponsor in the congress delegate bags

Platinum

- Two corporate sponsored workshop slots
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
