9th International Conference on

Infectious and Rare Diseases

May 26-27,2023 | London,UK

Theme: Advanced Treatment Method for Infectious and Rare Diseases

INVITATION

Dear Attendees,

We are glad to announce the **"9th International Conference on Infectious and Rare Diseases"** to be held in **London,UK** on **May 26-27,2023** organized in collaboration with generous support and cooperation from enthusiastic academicians and Editorial Board Members. **Infectious Diseases 2023** aims at sharing new ideas and technologies amongst the professionals, industrialists and students from research areas of Epidemiology & Public Health and it's Research. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

9th International Conference on Infectious and Rare Diseases amid **May 26-27,2023** at **London,UK.** This consolidates incite keynote presentations, Oral talks, Poster presentations and Exhibitions.

Sincerely,

Infectious Diseases 2023

Organizing Committee

ABOUT US

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Infectious Diseases 2023

ABOUT CONFERENCES

Infectious Diseases 2023 Scientific Committee is honored to welcome you all to attend **9th International Conference on Infectious and Rare Diseases** which will be held during **May 26-27,2023** at **London,UK**. **Infectious Diseases 2023** will raise the most dynamic and latest issues in the field of Infectious and Rare Diseases. The Congress will highlight the discussion around the theme "Advanced Treatment Method for Infectious and Rare Diseases" by bridging the gaps between the intellectuals from across the globe to enlighten their research and findings at Infectious Diseases 2023. The highlights of the conference includes Infectious Diseases and Neuro Infectious Diseases, Coronavirus(nCOV), Infectious Diseases Prevention, Control and Cure, Bacterial & Fungal Infectious Diseases, Rare Infectious Diseases and Immune Deficiencies, Rare Diseases in Cancer and Aging, Global Trends in Emerging Infectious Diseases, Ebola and Zika Viral Infections, Clinical Research and Public Awareness HIV/AIDS, Pediatric Infectious Diseases/ Childhood Infectious Diseases, Respiratory Diseases, Sexually Transmitted Diseases/ Sexually Transmitted Infections, Viral Infectious Diseases, Malaria and Hepatitis, Immunology of Infections, and many more.

Infectious Diseases 2023 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 150+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientist's representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about International Conference on Infectious and Rare Diseases, present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services

ABOUT CONFERENCES

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Infectious and Rare Diseases
- Discuss and apply recent research findings related to Infectious and Rare Diseases.
- Reflect on the place of critical distance in Infectious and Rare Diseases.

Who should attend?

Academicians including Professors, PhD. Scholars, Students carrying out Infectious and Rare Diseases and field studies, General Internist Pharmaceutical companies Research Scholars Doctors & Physicians Directors / Managers Industrial Professionals Clinical Researchers Healthcare Professionals Professors and students from colleges and universities Business delegates and Intelligence experts Vice Presidents of Medical institutions and Hospitals

Infectious Diseases 2023 salient features

- Infectious Diseases and Neuro Infectious Diseases
- Coronavirus (nCoV)
- Infectious Diseases Prevention, Control and Cure
- Bacterial & Fungal Infectious Diseases
- Rare Infectious Diseases and Immune Deficiencies
- Rare Diseases in Cancer and Aging
- Global Trends in Emerging Infectious Diseases
- Ebola and Zika Viral Infections
- Clinical Research and Public Awareness
- HIV/AIDS
- Pediatric Infectious Diseases/
- Childhood Infectious Diseases
- Respiratory Diseases
- Sexually Transmitted Diseases/
- Sexually Transmitted Infections
- Viral Infectious Diseases
- Malaria and Hepatitis
- Immunology of Infections
- Vaccines and Vaccination
- Tuberculosis
- New Antiviral, Antibacterial and
- Antifungal Agents
- Nosocomial Infections
- Parasitic Diseases

About hosting organization

Conferenceseries LLC Ltd is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ ScientificSocieties. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

About London

London, the capital of England and the United Kingdom, is a 21st-century city with history stretching back to Roman times. Standing on the River Thames, London has been a major settlement for two millennia, its history going back to its founding by the Romans, who named it Londinium. London's ancient core, the City of London, largely retains its 2.9 km2 mediaeval boundaries and in 2011 had a resident population of 7,375; making it the smallest city in England. Since at least the 19th century, the term London has also referred to the metropolis developed around this core. The bulk of this conurbation forms the Greater London administrative area, governed by the Mayor of London and the London Assembly. London is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism, and transport. It is one of the world's leading financial centres. London is a world cultural capital. London's 43 universities form the largest concentration of higher education institutes in Europe. In 2012, London became the first city to host the modern Summer Olympic Games three times. London has a diverse range of peoples and cultures, and more than 300 languages are spoken within Greater London. The region had an official population of 8,416,535 in 2013, the largest of any municipality in the European Union, and accounting for 12.5% of the UK population. London contains four World Heritage Sites: The Tower of London; Kew Gardens; the site comprising the Palace of Westminster, Westminster Abbey, and St Margaret's Church; and the historic settlement of Greenwich (in which the Royal Observatory, Greenwich marks the Prime Meridian, 0° longitude, and GMT). Other famous landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square, and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, including the British Museum, National Gallery, Tate Modern, British Library and 40 West End theatres. The London Underground is the oldest underground railway network in the world.
