Dear Colleagues!!

On behalf of Conference Series LLC LTD, we would like to take an immense pleasure and honor to welcome you towards upcoming **18th International Conference on Pure and Applied Chemistry** in **Toronto, Canada** a metropolitan city and a heart core pharmaceutical hub in Toronto region. The purpose of this 2 day conference is to bring together high profiled researchers, scholars, eminent personalities and students from both academic and industrial fields throughout the world under single roof. This will explore the applications of chemistry in the fields of Medicine, Agriculture and Manufacturing in past, present and future generations.

Theme: Capturing the Innovations of Pure and Applied Chemistry

As we know, in this present world day to day latest innovations and discoveries are going on. Based on such issues we came forward to correlate our conference subject with reference to Fundamentals of Pure and Applied Chemistry, Drug chemistry, Polymer Chemistry, Plasma Chemistry, Medicinal Chemistry.

Accordingly, we would be delighted if you would share with us your views on new innovations in research and development and science education issues. You are happy to participate in Keynote Sessions, Workshops & Symposiums, Oral talks and Poster presentations. Pure and Applied Chemistry international conference also holds several types of sponsorships in proving greater benefits to the members participating from pharmaceutical sectors, lab centers and other market dealers. Our international conference also provides a great support to the business entrepreneurs to promote their products or organization promotion in our conference hall @ Toronto by exhibiting booths.

Finally, we will be highly obliged to see you in Toronto @ IPAC 2018. Thank You!!

With Best Regards

Tara Jacqueline | Program Manager

TESTIMONIALS FROM PAST SPEAKERS

Diana Anderson
University of Bradford, UK

It was a good conference and all the speakers gave very clear presentations. I think this is very worth full conference.

Stephanie Notttrott
Isenbruck Bösl Hörschler LLP, Germany

I am glad to participate at this great meeting with very interesting talks from physician and expertise all over the world, and I have enjoyed each and every sessions.

Apollon Karseladze
N. Blokhin Cancer Research Centre, Russian Federation

I am very pleased about this conference because the session designed was based upon both scientific and in general and mode where we can discuss and express our views about it, I love and appreciate this type of conferences.

HirendraNath Banerjee
Elizabeth City State University, USA

The conference was very interactive and quite interesting, as I have come from all the way from north Carolina to attend this conference, I have enjoyed every bit of learning new sciences in the field of oncology which is my research field. I am very grateful to the organiser especially Conference Series LLC Ltd for inviting me and giving me a chance to present my research work here.

Scott J. Tebbutt
Chief Scientific Officer, PROOF Centre of Excellence, Canada

I enjoyed the conference very much. Cutting-edge and wide range of disciplines, but with a small enough group size to be conducive to excellent discussions and networking.

Houkai Li
Professor, Shanghai University of Traditional Chinese Medicine, China

It is an exciting and wonderful experience during the 3-days meeting, which gives us the opportunity to get to know so many friends and inspire new ideas in our research. Also, the meeting organization is perfect and considerate. We very appreciate all the works you have done for us. I also hope to meet these friends and new friends in the next meeting.

Julian Menter
Morehouse School of Medicine, USA

I learned a lot from this meeting and made some good contacts and a few friends as well. You have also encouraged me to continue the experiments.

Edita Sarukhanyan
University of Wurzburg, Germany

The conference was extremely amazing. It was a great opportunity of presenting my research work in London as well as listening to valuable talks and discussions.

Why Toronto, Canada?

Toronto is the most populous city in Canada, the provincial capital of Ontario, and the center of the Greater Toronto Area, the most crowded metropolitan region in Canada. In the 2011 enumeration, Toronto had a populace of 2,615,060, making it the fifth biggest city in North America. A populace evaluate from a city report discharged in 2013 demonstrates the city is presently the fourth most crowded city in North America, after Mexico City, New York City, and Los Angeles. As a built up worldwide city, Toronto is a universal Center of business, back, expressions, and culture, and generally perceived as a standout amongst the most multicultural and cosmopolitan urban communities on the planet. Toronto is a conspicuous community for music, theater, film generation, and TV creation, and is home to the base camp of Canada's significant national communicate systems and media outlets.

Why to Attend?

With members from around the world focused on learning about Chemistry, and applications of chemistry; this is the single best opportunity to reach the largest assemblage of participants. Conduct demonstrations, distribute information, meet with current and potential customers, make a splash with a new product line, and receive name recognition at this 2-days event. World-renowned speakers, the most recent techniques, tactics, and the newest updates in fields are hallmarks of this conference.

Who should Attend?

Heads, Directors, Group Leaders, Professors, Lecturers, Research Associates, Scientists, Investigators, Fellows, Readers from Pharmaceutical, Bio-pharmaceutical and Research Institutes working in,.
