Who are Attending

Deans and Professors of medicine and Hepatology departments

General Physicians

Doctors

Business Professionals

Scientists and Researchers organizers

Research Scholar

Consultants

Lab Technicians

Healthcare professionals

Founders and Employees of the related companies

Clinical investigators & Researcher

Hospitals and Health Services

Pharmaceutical companies

Nurse and nursing education institutions

Major Sessions

Hepatitis
Pancreatitis
Hemochromatosis
Diabetic exposure and Liver cancer
Hepatobiliary diseases
Metabolic diseases of Liver
Alcoholic Hepatitis
Hepatitic Pathology
Liver inflammation and Immunology
Liver Cancer
Pancreatic stellate and stem cells
Hepatobiliary and pancreatic Disorders
Liver Transplantation
Cirrohsis of Liver
Advanced Pancreatitis Treatment
Pancreatic enzymes and hormones
Liver Health
Liver Metastasis
Gene expression in Liver cancer
Liver specific proteome
Prevention and treatment for Hepatitis

Supporting Journals

Journal of Hepatitis
Journal of Liver: Disease & Transplantation
Journal of Hepatology and Gastrointestinal disorders

Host City

London, the capital of the United Kingdom, is a vibrant metropolis steeped in history, culture, and innovation. Home to over 9 million people, it is one of the world's most diverse and dynamic cities, where centuries-old landmarks blend seamlessly with cutting-edge architecture and global trends. From the iconic Big Ben and Tower of London to Buckingham Palace and Westminster Abbey, London is a treasure trove of history. Explore world-class museums like the British Museum, Natural History Museum, and Tate Modern—many of which offer free admission. London is a global hub for arts and entertainment. The West End theatre district rivals Broadway, offering everything from classic plays to blockbuster musicals. The city also hosts internationally renowned events, concerts, and exhibitions throughout the year. Indulge in shopping at Oxford Street, Covent Garden, or the luxurious Harrods. London's culinary scene is just as impressive—from traditional fish and chips and afternoon tea to Michelin-starred restaurants and vibrant international street food. Despite its urban energy, London offers plenty of green escapes. Stroll through Hyde Park, Regent's Park, or take a boat ride along the River Thames. These serene spots provide a refreshing contrast to the bustling city life. A global leader in finance, technology, and education, London is home to top universities and major global businesses. With five major airports and an extensive public transport network, it's one of the most connected cities in the world.

Vision & Plan

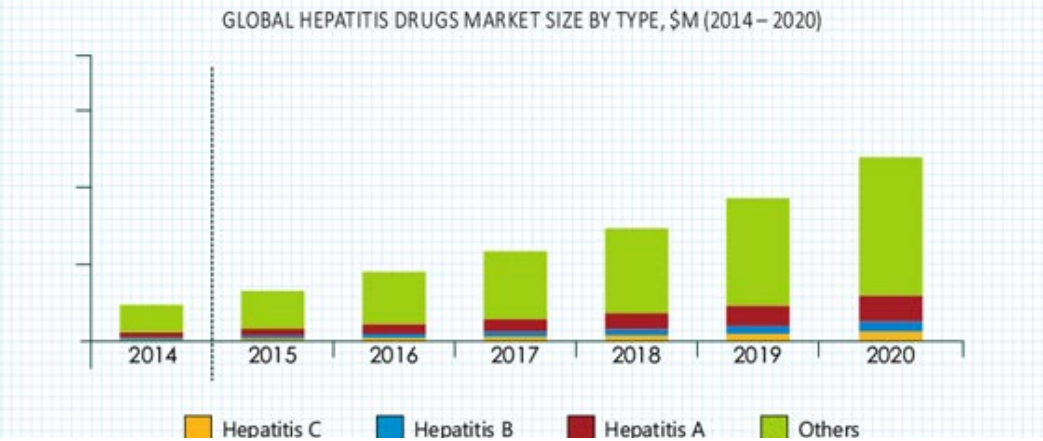

International Market Approach

The global hepatitis therapeutics market size was projected at USD 19.6 billion in 2016, and is predicted to grow at a CAGR of 2.7% during the forecast period. Few prominent factors that are expected to boost the market are growing prevalence of viral hepatitis, rise in the number of autoimmune disease, and surge in healthcare expenditures across the globe. In 2015, approximately 1.34 million people died due to this condition globally. This number is considerably high to be compared with the number of deaths caused by HIV and tuberculosis.

However, the number of deaths owing to HIV and tuberculosis are declining, while rate of deaths owing to viral hepatitis is witnessing an upward trend. This condition is the inflammation of liver tissue caused due to excessive alcohol consumption, medication errors, viral infection, autoimmune diseases, toxins, and nonalcoholic steatohepatitis. According to the WHO, nearly 1.4 million people die every year globally due to this disease and approximately 400 million people are infected with at least one form of hepatitis.

The others segment covers the market estimates for hepatitis D and E, which occur rarely compared to the other three conditions. According to the estimates of WHO, approximately 90% of children in developing economies have been infected with the virus before reaching the 10 years of age owing to poor hygiene & sanitary conditions.

The introduction of generic versions of HCV drugs has changed the market dynamics across the world. With more number of people being able to afford the generic versions, the usage rates of its drugs are expected to grow rapidly over the next few years.

Sponsorship and Exposure

Diamond

- Three workshop slots (audio visual included).
- Two complimentary exhibit booths with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Four complimentary registrations
- Logo recognition on congress website front page with link, sponsorship page
- One A4 color advertisement in the congress souvenir
- Three inserts provided by the sponsor in the congress delegate bags

Platinum

- Two corporate sponsored workshop slots
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Three complimentary congress registrations
- Logo recognition on congress website front page with link and logo recognition on congress sponsorship page
- One A4 color advertisement in the congress souvenir
- Two inserts provided by the sponsor in the congress delegate bags.

Gold

- Two complimentary congress registrations
- One corporate sponsored workshop slot
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
