Livestock Nutrition 2017

Invitation

Conference Series LLC welcomes you to attend the ***3rd International Conference on Livestock & Nutrition*** *during* ***November 02-04, 2017 Bangkok, Thailand****.*

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Livestock & Nutrition.

Livestock & Nutrition 2017 anticipates more than 200 participants around the globe with thought provoking Keynote lectures, Oral and Poster presentations. The attending delegates include Editorial Board Members of related Conference Series LLC Journals.

This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists.

The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer.

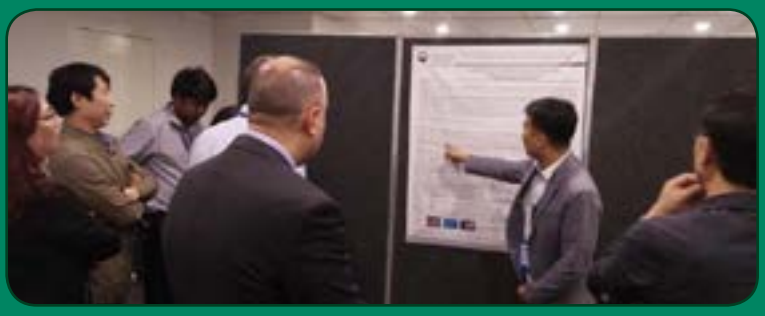

The main theme of the conference is ***"Leading Innovation in Livestock for Sustainable Farming"***

Regards,
Livestock & Nutrition 2017
Operating Committee

Livestock Nutrition 2017

Livestock & Nutrition Reminisce

This year, we'll host the event in beautiful city Bangkok, Thailand.

Conference Highlights

- Livestock and Health
- Livestock Nutrition
- Livestock Disease Management and Traceability
- Poultry
- Cattle
- Sheep
- Organic Livestock
- Livestock Feed Ingredients
- Feed Prices and Agribusiness
- Feed Supplies
- Feed Technology and Equipments
- Recent Technology in Optimising Livestock Production.
- Feed Technology and Equipments

About Us

Conference Series LLC Journals

- *900 Open Access Journals*
- *21 Day rapid review process*
- *30000 Editorial team, 35000 Reviewers team*
- *3.5 Million readers and high visibility*
- *More than 100000* facebook fans
- *Publication immediately after acceptance*
- *Quality and quick editorial, review processing*

Key features

- *User friendly/feasible website translation of your paper to 50 world's leading languages*
- *Enhanced feature: Audio version of published paper*
- *Digital articles to share and explore*
- *Sharing option: Social networking enabled*
- *Authors, reviewers and editors are provided with scientific credits*

Conference Series LLC Conferences

- *300 Conferences all over the World every year*
- *Well organized scientific program*
- *Renowned speakers and scientists across the globe*
- *Poster presentations and world class exhibits*
- *Panel discussions and interactive sessions*
- *B2B meetings*
- *Perfect platform for Global Networking*

Key features

- *Presentation by renowned speakers from all over the world*
- *Poster presentations and world class exhibits*
- *Interactive Sessions*
- *Platform for global networking*
- *Connecting scientific community*

Special Issues

All accepted abstracts will be published in respective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by crossref

Livestock Nutrition 2017

About Conference

The field of Livestock Nutrition is growing rapidly and its development is making tremendous impacts in medical sciences and pharmaceuticals. The importance and significance can be gauged by the fact that it has made huge advancements over the course of time and is continuing to influence various sectors.

Livestock & Nutrition 2017

- *Opportunity to attend the presentations delivered by eminent scientists from all over the world*
- *Selected contributions will be published in following International Journals*
    - *Journal of Fisheries & Livestock Production*
    - *Journal of Animal Nutrition*
    - *Advances in Dairy Research*
    - *Journal of Poultry, Fisheries & Wildlife Sciences*
    - *Journal of Veterinary Science & Technology*
- *Participation in sessions on specific topics on which the conference is expected to achieve progress*
- *Global networking: In transferring and exchanging Ideas*
- *Conference brings together Scientific Researchers, Business Entrepreneurs and oil and gas, Livestock Nutrition Industry Developers*

Livestock Nutrition 2017

About Bangkok

Bangkok, Thailand's capital is a large city known for ornate shrines and vibrant street life. The boat-filled Chao Phraya River feeds its network of canals, flowing past the Rattanakosin royal district, home to opulent Grand Palace and its sacred Wat Phra Kaew Temple. Nearby is Wat Pho Temple with an enormous reclining Buddha and, on the opposite shore, Wat Arun Temple with its steep steps and Khmer-style spire.

Thailand is a wondrous kingdom with featuring Buddhist temples, exotic wildlife, and spectacular islands. Along with a fascinating history and a unique culture that includes delectable Thai food and massage, Thailand features a modern capital city, and friendly people who epitomize Thailand's "land of smiles" reputation. As the political, economic, cultural, culinary, and spiritual capital of Thailand, Bangkok features both old-world charm and modern convenience, at times served up in an apparently chaotic manner, but always with a gracious smile.

Bangkok's district areas often do not accurately represent the functional divisions of its neighborhood or actual land uses. Although urban planning policies date back to the commission of the "Litchfield plan" in 1960, which set out strategies for land use, transportation and general infrastructure improvements, actual zoning regulations were not fully implemented until 1992. As a result, the city grew organically throughout the period of its rapid expansion, both horizontally as ribbon developments extended along newly built roads, and vertically, with increasing numbers of high rises and skyscrapers being built in several commercial areas. The city has grown from its original centre along the river into a sprawling metropolis surrounded by swaths of suburban residential development extending north and south into neighbouring provinces. The highly populated and growing cities of Nonthaburi, Pak Kret, Rangsit and Samut Prakan are effectively now suburbs of Bangkok. Nevertheless, large agricultural areas remain within the city proper, in its eastern and western fringes. Land use in the city consists of 23 percent residential use, 24 percent agriculture, and 30 percent used for commerce, industry and by the government. The BMA's City Planning Department is responsible for planning and shaping further development. It has published master plan updates in 1999 and 2006, and a third revision is undergoing public hearings in 2012.
