Invitation…

Dear Attendees,

We are glad to announce the 6th Global Congress on Mass Spectrometry to be held in Osaka, Japan from October 18-19, 2017 organized by Conference Series in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Mass Spectra 2017 would lay a platform for the interaction between experts around the world and aims in accelerating scientific discoveries. This event will provide a broad ranging platform for informative and interactive discussions with contributions by recognized experts from:

· Industry

· Academia

· Others departments

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Mass Spectra 2017 to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Osaka, Japan this October.

Major sessions

- Fundamentals of Mass Spectrometry
- Ionization Techniques for Mass Spectrometry
- Mass spectrometry Detectors
- Analytical Chemistry
- Imaging Mass Spectrometry
- Tandem Mass Spectrometry
- LC-MS
- Capillary Electrophoresis MS (CE-MS)
- Mass Spectrometry Configurations and Techniques
- Mass spectrometry in Medicinal chemistry
- Nanomaterials for Liquid Chromatography
- Quantitative Proteomics Mass Spectrometry
- Proteins and Peptide analysis in Mass Spectrometry
- Applications of High resolution Mass Spectrometry

Tentative Agenda

October 18, 2017 Wednesday

Time	Session
08:30-09:30	Registrations
09:00-10:30	Keynote Forum
	Group Photo
10:30-10:45	Network & Refreshments Break*
10:45-12:00	Track 1: Fundamentals of Mass Spectrometry
12:00-13:15	Track 2: Ionization Techniques for Mass Spectrometry
13:15-14:00	Lunch Break**
14:00-15:15	Track 3: Mass spectrometry Detectors
15:15-15:30	Network & Refreshments Break*
15:30-16:45	Track 4: Analytical Chemistry
16:45-18:00	Track 5: Imaging Mass Spectrometry
	Day Concludes

October 19, 2017 Thursday

Time	Session
08:30-09:00	Registrations
09:00-10:30	Keynote Forum
10:30-10:45	Network & Refreshments Break*
10:45-12:00	Track 6: Tandem Mass Spectrometry | Track 7: LC-MS
12:00-13:15	Track 8: Capillary Electrophoresis MS (CE-MS) | Track 9: Mass Spectrometry Configurations and Techniques
	Poster presentations
13:15-14:00	Lunch Break**
14:00-15:15	Track 10: Mass spectrometry in Medicinal chemistry | Track 11: Nanomaterials for Liquid Chromatography
15:15-15:30	Network & Refreshments Break*
15:30-16:45	Track 12: Quantitative Proteomics Mass Spectrometry | Track 13: Proteins and Peptide analysis in Mass Spectrometry
16:45-18:00	Track 14: Applications of High resolution Mass Spectrometry
	Day Concludes
	Award Ceremony
	Conference Concludes

* Exclusive Exhibitor Event | ** Networking Event

Note: Conference schedule is subject to change.

Note: Workshops and Symposia slots are available. To book slot for Workshop and Symposium send us the proposal.

Glimpses of past conference

Tourist Attractions

Venue

Osaka is the second largest metropolitan area in Japan and serves a major economic hub.Historically a merchant city, Osaka has also been known as the "Nation's Kitchen". With a population of 2.5 million, Osaka is Japan's third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries. Thecity's west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the TempozanHarbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka's culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture. The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre.
