Dear Attendees,

We are glad to announce the **37th International Conference on Materials Science and Engineering** to be held as a **Dubai, UAE** Hybrid during **March 28-29, 2024** organized by Conference Series llc LTD, Europe in collaborationwith generous support and cooperation from enthusiastic academicians and editorial Board Members. Material Science 2024 is centered with the theme “Current and Advancement Techniques to treat Heart Diseases”.

Material Science 2024 is the gathering of Chemistry Scientists, Chemistry Researchers, science, Clinicians,Organic, Health Care Professionals, Speakers, Professors, Business delegates and Students all over theworld to participate to discover the new novel medicinal Drugs, where people can get desired knowledgeover future challenges in varied sorts of Nanotechnology. We are glad to invite you at **Material Science 2024** where you can experience a really sumptuous information and knowledge in the field of Material Science.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and live interaction with industry leaders and experts. Life is full of give and take. Make it count in your professional life. Attend the **Material Science 2024** to network with your peers, exchange expertise and experiences and armyourself with the latest information to take your field to the next level.

We look forward to personally welcoming you to Duabi in March.

Sincerely
Material Science 2024

About Us

About Conference

Material Science 2024 welcomes you to attend CPD accredited “37th International Conference on Materials Science and Engineering” on March 28- 29, 2024, a Dubai, UAE with an innovative theme “Materials for Energy and Environmental Sustainability”. This International conference (Material Science 2024) anticipates hundreds of delegates including keynote speakers, Oral presentations by renowned speakers and poster presentations by students besides delegates around the world. This conference perhaps a giant event that creates an ideal platform to share expertise addressing current methodologies and techniques involved in Material Science. It will be a wonderful opportunity for all the attendees as it provides an international networking opportunity to collaborate global class Organic associations.

Material Science 2024 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Nanotechnology offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Special Issues : All accepted abstracts will be published inrespective Conference Series llc LTD Journals
Each abstract will be provided with digital Object Identifier by Crossref

Material Science 2024

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience.
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Nanomaterials and Tissue Culturepresent the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address Impact of Nanomaterials and Nanotechnology.

Objectives

After participating in this meeting, attendees should be able to

- Challenges for Material Science
- Discuss emerging issues in about Material Science
- Discuss and apply recent research findings related to Materials

Who Should Attend?

37th International Conference on Materials Science and Engineering. The two day event on Material Science 2024 will host 60+ Scientific and technicalsessions and sub-sessions on cutting edge research and latest research innovations in the field of Material Science & its related issues. This year will comprises of 17 major sessions designed to offer comprehensive sessions that address current issues in various fields of Nanomaterials. The attendees can find- Exclusive Sessions and Panel discussions on Impact of COVID-19 Challenges for Material Science. By participating in the conference, attendees will be able to get desired knowledge over future challenges in varied sorts of Material Science. Material Science 2024 provides an opportunity to meet Experts, professionals, academicians and researchers from all over the world. Execute new methods or revise existing methods based on best presented facts asPresented at Material Science 2024.

About hosting organization

Conference Series llc LTD is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

Major Sessions

- Advances in Nanomaterials and Nanotechnology
- Biomaterials and Tissue Engineering
- Sustainable Materials for a Greener Future
- Smart Materials and Intelligent Systems
- Additive Manufacturing and 3D Printing
- Emerging Functional Materials for Electronics and Photonics
- Computational Materials Science and Modeling
- Advanced Characterization Techniques for Materials
- Materials for Energy and Environmental Sustainability
- Materials for Biomedical Applications
- Materials for Aerospace and Automotive Applications
- Novel Materials for Energy Storage and Conversion
- Materials for Optoelectronic Devices
- Green Synthesis and Processing of Materials
- Materials for Sensing and Actuation
- Advanced Coatings and Surface Engineering
- Materials for Renewable Energy Technologies
- Materials for Nanoelectronics and Quantum Technologies
- Materials for Sustainable Construction and Infrastructure Development
- Materials for Structural Applications and Lightweight Design
- Materials for Aerospace and Automotive Applications

About Dubai

Material Science 2024

Dubai is a city and emirate in the United Arab Emirates known for luxury shopping, ultramodern architecture, and a lively nightlife scene. Burj Khalifa, an 830m-tall tower, dominates the skyscraper-filled skyline. At its foot lies Dubai Fountain, with jets and lights choreographed to music. On artificial islands just offshore is Atlantis, The Palm, a resort with water and marine-animal parks. Home to three million people, find out how Dubai transformed into a sun-soaked modern metropolis. Dubai Tourism provides insights, tools and resources that help the travel trade promote the emirate as a world leading business and leisure destination. Discover the warm hospitality, rich culinary heritage and proud traditions that make up Dubai's vibrant culture. Every district tells a story – get ready to explore all the highlights in the dynamic city of Dubai. Dubai is the eponymous capital of one of the UAE's 7 emirates.

Popularly described as one of the most luxurious cities in the world, Dubai is the highlight of tourism in the United Arab Emirates (UAE). Besides being the most populated city in UAE.
