WELCOME ADDRESS

Dear Attendees,

The Materials Chemistry 2025 Organizing Committee is absolutely delighted to welcome you to the **23rd International Conference and Exhibition on Materials Science and Chemistry** which will be held in **Paris, France** on **November 13-14, 2025,** where we will be shining a spotlight on *"Breakthrough Innovations and Pioneering Discoveries in Chemistry"*.

We are looking forward to providing you with a superb environment in which to present, discuss and advance your Materials Chemistry research. The world class scientific programme will consolidate existing knowledge while at the same time increase your awareness of leading edge and forward looking advances in the field.

The Internatinal Conference is to be held in one of the world's most important global cities which stands on the Province of the France Empire, which is called as Paris. It exerts considerable influence on the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism, and transportation. What better place to combine leading edge science with an unsurpassed personal experience.

We look forward to seeing/welcoming you in 2025 for an experience of a lifetime.

With Regards
Materials Chemistry 2025
Organizing Committee

ABOUT US

About Hosting Organization

Conference Series is the world's leading specialist in organizing academic, scientific and business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology, Business and many more to promote scientific research.

Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 50+ countries all through the year
- Over 25 Million+ Visitors and 25000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking Add a little bit of body text.

Materials Chemistry 2025 salient features

- Meet academia and industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, benchmarking and networking offered at one place
- Forge connections and for global networking
- Highly organized and structured scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

ABOUT US

Goals & Objectives

- The Materials Chemistry 2025 aims to bring together leading world's scientific experts, academic professionals, scientists, specialists, researchers, scholars, business delegates and students to exchange and share their experiences and research results on all aspects of Materials Chemistry.
- It also provides an interdisciplinary platform for policy makers, community leaders, business activists, scientists and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Materials Chemistry.
- We aim to bring the research and innovations happening across the parts of the globe to facilitate interaction, knowledge sharing and exchange. We also aim to inspire university professors, students, researchers, Chemists and entrepreneurs

About Conference

23rd International Conference and Exhibition on Materials Science and Chemistry is among the World's leading Scientific Conference. The two day event on Materials Chemistry will host Major scientific and technical sessions along with the sub-sessions on cutting edge research and latest research Materials Chemistry in the field of materials science & chemistry across the globe. To foster the best learning environment we have designed some of the sessions this year for Materials Chemistry conference which will comprises of 26 major sessions designed to offer comprehensive sessions that address current issues in various fields of Materials Chemistry.

Besides the attendees can find prestigious plenary and invited lectures, various shorter talks and poster sessions which will give the opportunity to most participants to present their work at the Internatinal Conference. This Internatinal Conference on Materials Chemistry provides an opportunity to meet experts, professionals, academicians and researchers from all over the world. Execute new methods or revise existing methods based on best presented facts as presented at **Materials Chemistry 2025**.

ABOUT CONFERENCE

Who Should Attend?

Materials Chemistry 2025 Conference website is attracting 56000+ chemists, industrial researchers, chemical experts, chemistry experts, experts in tissue engineering, mineralogists, nano dentists, materials chemists, specialists, researchers, professionals, speakers, professors, business delegates and students.

Why to Attend?

- Find out what's new
- Meet experts & influencers face to face
- To present your ideas and work to others
- Networking for future collaborations
- The focus & energy of Like-Minded Individuals
- Fresh way of knowledge transfer
- Learn beyond your field or interest
- Meet, collaborate & get inspired
- Travel and extend your comfort zone

Conference Highlights

- ·Carbon Nanostructures and Graphene
- ·Tissue Engineering
- ·Nano pharmaceuticals
- ·Nanodentistry
- ·Solid-State Chemistry and Physics
- ·Mineralogy
- ·Polymer Science and Applications
- ·Ceramics in Materials Science
- ·Nanotechnology Applications
- ·Science and Technology of Advanced Materials
- ·Fracture, Fatigue and Failure of Materials
- ·Photonic and Optical Materials
- ·Materials Science and Chemistry
- ·Chemical Engineering
- ·Industrial applications of crystallization

TESTIMONIALS

The conference was exciting. I enjoyed so much meeting new colleagues at the venue. I would like to express my sincere gratitude to you for your assistance and opportunity. It was a good experience attending this conference.

Amur Margaryan
National Science Laboratory, USA

The conference was very successful and staff members were very helpful. Workflow was good. Thank you for organizing the conference for us people.

Kuang-Hui Chi
National Yunlin University of Science & Technology, Taiwan

That is excellent. This time, I will encourage my friends and colleagues to attend. I will submit abstracts for the conference too.

Sudhanshu Sekhar Panda
University of North Georgia, USA

The organization of the conference was perfect and I was very glad of the warm welcome, of the scientific and human relationships among participants.

Ida PucciMinafra
University of Palermo, Italy

The conference was well organized and the committee was outstanding in keeping the whole event lively.

MouradTayebi
University of Surrey, England

It was wonderful event. I enjoyed presenting my talk. There were questions, comments, and interests in what I presented.

Ram Shanmugam
Texas State University, USA

ABOUT PARIS

Paris, the captivating city and capital of France, is situated in the north-central part of the country. The area along the Seine River, approximately 233 miles (375 km) upstream from the river's mouth on the English Channel, has been inhabited since about 7600 BCE. The modern expansion of the city extends from the Île de la Cité and stretches far beyond both banks of the Seine.Paris plays a central role in the prosperous agricultural region known as the Paris Basin and is one of eight départements of the Île-de-France administrative region. It stands as the most significant center of commerce and culture in the country. The city covers an area of 41 square miles (105 square km), while the metropolitan area spans 890 square miles (2,300 square km). The estimated population in 2020 was 2,145,906 for the city and 10,858,874 for the urban agglomeration.Historical Paris is composed of three main parts defined by the Seine. The Île de la Cité, located at the city's center, holds religious and temporal authority. The Left Bank (Rive Gauche) has been traditionally known as the hub of intellectual life, while the Right Bank (Rive Droite) harbors the city's economic activity, although these distinctions have become less clear in recent decades.Some of the iconic attractions in the city include the Eiffel Tower, Louvre Museum, Versailles palace, Latin Quarter, Seine River, Montmartre, Notre Dame Cathedral, Moulin Rouge, Musée d'Orsay, Luxembourg Garden, Pompidou Center, and many more.

REGISTRATIONS

Registration Payment Method:

Payment of registration fees (in EUR, USD & GBP) can be done by the following methods:

- By Credit Card: Visa, MasterCard or American Express
- By Bank Transfer
- By Pay-pal

For group registrations please contact/email us at:
chemistrtconference@scientificmeet.com

Academic

Only Registration: € 599
Regular Issue Publication : € 2200
Delegate: € 499

Business

Only Registration: € 699
Regular Issue Publication + Registration: € 2200
Delegate: € 599

Student

Student Delegate: € 399
Young Researcher Forum: € 349

Important Dates

Abstract submission opens: June 01, 2025
Registration opens: June 01, 2025
On spot registration: November 13, 2025

Registration Benefits:

- ✓Access to all Sessions
- ✓Handbook & Conference Kit
- ✓Certificate Accreditation from the Organizing Committee
- ✓Abstracts will be published in the conference souvenir and respective international journal
- ✓Each registrant will get 50% abatement on manuscript publication fee
- ✓2 Coffee breaks (Refreshments and snacks) during the conference
- ✓Lunch during the conference
- ✓Wi-Fi access

To register online, please visit:
