840th Conference

Scientific Program

Proceedings of

Global Medical Microbiology Summit & Expo

November 28-29, 2016

San Francisco, USA

Hosting Organizations: **Conference Series LLC**

2360 Corporate Circle., Suite 400, Henderson, NV 89074-7722, USA

Ph.-702-508-5200, Fax: +1-650-618-1417, Toll free: +1-800-216-6499

Conference Series Ltd

57 Ullswater Avenue, West End, Southampton, Hampshire United Kingdom, SO18 3QS

Toll Free: +1-800-216-6499

Email: medicalmicrobiology@conferenceseries.com

Scientific Program

Medical Microbiology 2016

Day 1 November 28, 2016

09:00-09:45 Registrations

Sequoia

conferenceseries.com 09:45-10:15 **Opening Ceremony**

Keynote Forum

10:15-11:15 **Title: Microorganisms and their products in cancer therapy and prevention**
Ananda Chakrabarty, University of Illinois College of Medicine, USA

Networking and Refreshments Break: 11:15-11:35 @ Foyer

11:35-12:20 **Title: Live attenuated *Listeria* as new delivery platform for anticancer agents**
Claudia Gravekamp, Albert Einstein College of Medicine, USA

12:20-13:05 **Title: Racecadotril: An effective anti-diarrheal drug**
Marco Manfredi, "Pietro Barilla" Children's Hospital, Italy

Lunch Break: 13:05-14:00 @ Redwood

Sessions
Diagnostic Microbiology | Antimicrobials and Antimicrobial Resistance

Session Chair: Marco Manfredi, "Pietro Barilla" Children's Hospital, Italy

Session Introduction

14:00-14:25 **Title: Recombinant chimeric protein PSPF as novel vaccine against *Streptococcus pneumonia***
Alexander Suvorov, Institute of Experimental Medicine, Russia

14:25-14:50 **Title: Cleavage sensitive antibody for the detection of type a botulinum neurotoxin**
Shashi Sharma, Center for Food Safety and Applied Nutrition, USA

14:50-15:15 **Title: Full-length isoform sequencing reveals a hidden complexity in the transcriptome of a herpesvirus**
Zsolt Boldogkoi, University of Szeged, Hungary

15:15-15:40 **Title: Optimization of a nuclease-activated noninvasive optical imaging approach for *S. aureus* infections**
Franklin Bright, University of Iowa, USA

15:40-16:05 **Title: Trends in HIV associated tb in benin city Nigeria**
Francis Oronsaye, University of Benin, Nigeria

Networking and Refreshments Break: 16:05-16:25 @ Foyer

16:25-16:50 **Title: *In vitro* activity of ceragenins against colistin-resistant clinical isolates of *Klebsiella pneumonia***
Marjan M. Hashemi, Brigham Young University, USA

Special Session

16:50-17:30 **Title: HIV Disclosure: Say what you need to say!**
David Massey, HIV/AIDS Advocate Atlanta Metro, USA

Day 2 November 29, 2016

Sequoia

Workshop

10:00-12:45 **Title: Recent progress in medical microbiology and diagnostics**
Ananda Chakrabarty, University of Illinois College of Medicine, USA
Arup Roy-Burman, University of California at San Francisco, USA
Claudia Gravekamp, Albert Einstein College of Medicine, USA

Networking and Refreshments Break: 10:45-11:05 @ Foyer

Lunch Break: 12:45-13:45 @ Redwood

Sessions
Microbial theory of cancer | Bacterial Disease Treatments | Causes and transmission of infectious diseases

Session Chair: Claudia Gravekamp, Albert Einstein College of Medicine, USA

13:45-14:10	**Title: Analysis of the dynamic transcriptome of a herpesvirus using full-length single-molecule sequencing** **Dora Tombacz,** University of Szeged, Hungary
14:10-14:35	**Title: Molecular characterization of multidrug-resistant *Mycobacterium tuberculosis* isolated from different hospitals in kathmandu valley** **Sagar Aryal,** St. Xavier's College, Nepal
14:35-15:00	**Title: Phylogenetic Classification and antibiotic resistance study of hydrocarbon and non-hydrocarbon utilizing proteobacteria isolated from Iko river estuary - Nigeria** **Mmuoegbulam Oluchi Augusta,** University of Calabar, Nigeria
15:00-15:25	**Title: Three ethical issues in the development of public genetic health policies in Africa** **Anton van Niekerk,** Stellenbosch University, South Africa
15:25-15:50	**Title: Elimination of measles through routine vaccination in India (and other developing countries): Time to deliver old wine in a new bottle** **Joseph L Mathew,** Advanced Pediatrics Centre, India
	Networking and Refreshments Break: 15:50-16:10 @ Foyer
16:10-16:35	**Title: Study of the effect of mobile phone radiation on antibiotic sensitivity in microorganisms** **Arunkumaru G,** Capsule Medical Academy, India
16:35-17:00	**Title: Development of a PCR-based rapid method for the detection of *i.Monocytogenes* in food samples after enrichment steps** **Shumaila Ali,** Jinnah University for Women, Pakistan
	Video Presentation
17:00-17:25	**Title: Emergency management preparedness and response to zika virus build upon best practices and lessons learned from Ebola** **Syra Madad,** NYC Health + Hospitals, USA
17:25-17:50	**Title: Th1-biased immunomodulation and therapeutic potential of *Artemisia annua* in murine visceral leishmaniasis** **Farhat Afrin,** Taibah University, KSA
17:50-18:15	**Title: Therapeutic and immunostimulatory potential of *Azadirachta indica* bioactive fractions in murine visceral leishmaniasis** **Hassan Hemeg,** Taibah University, KSA
	Poster presentation
P01	**Title: Designing recombinant viral-vector vaccine for combined protection against influenza and group B *streptococci*** **Alexander Suvorov,** Institute of Experimental Medicine, Russia
	Panel Discussion
	Award Distribution & Closing Ceremony
