Nanotechnology and Medical Robots2017

Invitation

Dear Attendees,

We are glad to announce the **International Summit on Nanotechnology and Medical Robots** to be held in **New Orleans, Louisiana, USA** from **November 08-09, 2017** organized by **Conference Series LLC** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Nanotechnology, Nanorobots, Medical Robotics, and Surgical robots and will be available to discuss with you the latest issues and trends in ***Advancements of Super Artificials in Medicine .***

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will future cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Nanotechnology and Medical Robots conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to **New Orleans, Louisiana** this November .

Sincerely,

MEDICALROBOTS

Organizing Committee

About Us

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+** facebook fans Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be published inrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by crossref

About Conference

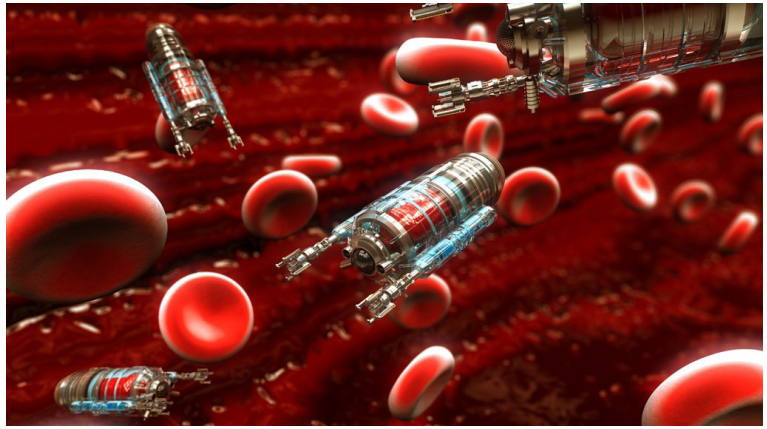

- Medical Robots provides a forum for information on innovation, research, development and demonstration in Use of Nanotechnology and medical robots in medicine is giving promising results. Medical robots are not only used for surgeries but they are also used in telemanipulators and surgeons actions. Usage of Nanotechnology & robots for treating Cancer, Cell repair & Cell Destroy has become a common practice these days as they give insight of the treatment by the expression of the patient. It's so simple to treat with Medical robots any complex surgery can be handled easily with perfect results.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Medical Robots 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

Purpose

International Conference on Medical Robots is an arena for interdisciplinary exchange among professionals in the fields of Nanotechnology, Nanorobots, Medical Robotics, and Surgical robots.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Nanotechnology and Robotics present the most recent research findings, and promote and enhance scientific collaborations around the world
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- **Discuss emerging issues in Nanotechnology and Robotics**
- **Discuss and apply recent research findings related to Nanotechnology and Robotics**

About Conference

Who should attend

With members from around the world focused on learning about NanoTechnology, this is your single best opportunity to reach the largest assemblage of participants from all over the world. Conduct demonstrations, distribute information, meet with current and potential customers, make a splash with a new product line, and receive name recognition at this 2-day event. Meet World-renowned speakers, learn and share the most recent techniques, Theories and technologies in the field of Nanotechnology and Medical robots. **Medical Robots 2017** is an exciting opportunity to showcase the new technology, the new products of your company, and/or the service your industry may offer to a broad international audience. It covers a lot of topics and it will be a nice platform to showcase their recent researches on Nanotechnology and other related interesting topics.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies.** All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the **DOI** provided by

Major sessions

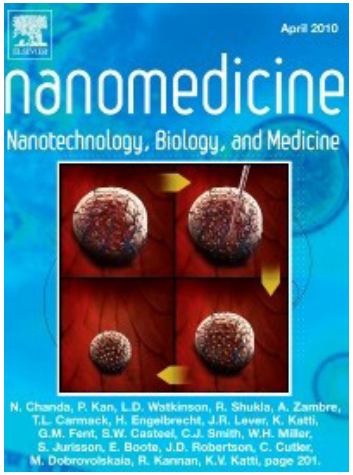

- Nano technology
- Nano robotics
- Surgical robots
- Nano medicine
- Molecular Nanotechnology
- DNA Nanotechnology
- Nano pharmaceutical chemistry
- Nanotechnology in agriculture and food industry
- Industrial Nanotechnology
- Nano electronics and devices
- Nano Toxicology
- Nano cosmetics
- Nanotechnology and tissue engineering
- Nanotechnology in health care
- Application of nanotechnology

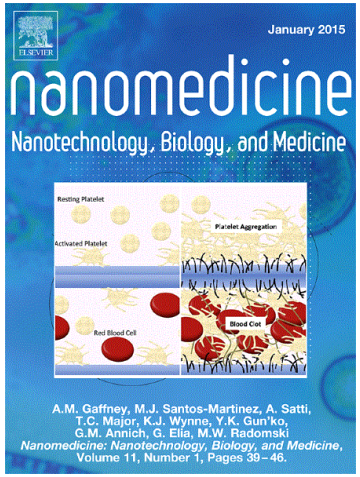

About Conference

Supporting Journals

- Journals of fundamentals of Nanotechnology and Medical Robotics

About New Orleans

New Orleans is a Louisiana city on the Mississippi River, near the Gulf of Mexico. Nicknamed the “Big Easy,” it’s known for its round-the-clock nightlife, vibrant live-music scene and spicy, singular cuisine reflecting its history as a melting pot of French, African and American cultures. Embodying its festive spirit is Mardi Gras, the late-winter carnival famed for raucous costumed parades and street parties. Following Mardi Gras in springtime is Jazz Fest, celebrating New Orleans as the birthplace of the genre. Lively bars and cafes line Bourbon Street, which runs through the center of the architecturally ornate French Quarter. This area is also home to several iconic Creole and Cajun restaurants serving dishes like gumbo and jambalaya. The Garden District is known for well-preserved antebellum mansions in styles like Italianate and Victorian. In Faubourg Marigny, Frenchmen Street is home to bars and clubs offering live jazz, blues and rock music. Streetcar lines cross the city, including the St. Charles route, operating since 1835.
